

COVID-19 Resources Hub

This section provides freely available reports, e-books, e-journals, online databases, and research articles related to the COVID-19 pandemic and its socio-economic impacts. It serves as a curated gateway for researchers, practitioners, and students to explore quality open access content organised for easy navigation and systematic study.

Online Databases

- [PubMed](#): PubMed is a free resource supporting the search and retrieval of biomedical and life sciences literature with the aim of improving health—both globally and personally. Over the time it has gained immense popularity and has become one of the significant E-resource database which can be accessed from [PubMed Central \(PMC\)](#).
- [WHO Health database](#): The World Health Organization manages and maintains a wide range of data collections related to global health and well-being as mandated by the Member States.
- [UN Library](#): The United Nations iLibrary is the comprehensive global search, discovery, and viewing source for digital content created by the United Nations. United Nations iLibrary offers wide-ranging research and knowledge to a variety of audiences.
- [NDLI COVID-19 Research Resources Repository \(Scholarly Publications\)](#): NDLI COVID-19 Research Resources Repository (Scholarly Publications) are publications in high-quality peer-reviewed journals/conferences collected from publishers' COVID pages and blogs, indexing pages with COVID, preprint archives, and open search of Web and other collections. Besides papers on biological, medical, and health aspects of COVID-19, papers on COVID-19 induced problems, challenges, and opportunities in all facets of life (like Online Learning, Video Conferencing, etc.) are also included.
- [NDLI COVID-19 Research Resources Repository \(Data Sets\)](#): NDLI COVID-19 Research Resources Repository (Data Sets) are COVID-19 related data sets collated for the purposes of research and analytics. The data sets may directly relate to coronavirus or to various subsidiary issues. These data sets and data repositories should help researchers to carry out experiments for their research.

E-Journals

- [BMJ's Coronavirus \(covid-19\)](#): BMJ's covid-19 hub supports health professionals and researchers with practical guidance, online CPD courses, as well as the latest news, comments, and research from BMJ. The content is free to access and updated daily.

- [BioMed Central](#): BMC has an evolving portfolio of high-quality peer-reviewed journals. It offers free access to highly-rated journals published by BioMed Central.
- [The Public Library of Science \(PLOS\)](#): The Public Library of Science provides free access to the full text of all of their highly-rated journals.
- [THE LANCET COVID-19 Resource Centre](#): Lancet COVID-19 Resource Centre, brings together all COVID-19 research, reviews, commentary, news, and analysis from across the Lancet family of journals that it has published. The resource aims to assist health workers, policy makers, and researchers to bring the COVID-19 pandemic to a close. All of our COVID-19 content is free to access.
- [Coronavirus \(Covid-19\)](#): A collection of articles and other resources on the Coronavirus (Covid-19) outbreak, including clinical reports, management guidelines, and commentary.
- [COVID Reference](#): COVID Reference offers a comprehensive collection of COVID-19–related scholarly resources, including high-impact journal articles and a textbook-style compendium in multiple languages. The content is organized by themes such as epidemiology, virology, diagnostics, and long COVID, providing easy access to current and historical research.
