	India in chaos: only judiciary can save by electoral reforms & playing a third eye -- Knowledge Books, 2019	
	The book, while providing comprehensive diagnosis and cure of India's maladies and their total cure, gives a rare opportunity to transform the nation by establishing responsible and accountable governances with the help of mighty Judiciary. Written in three parts, the book makes a deep introspection into the various factors hampering India's progress and attempt at comprehensive diagnosis of maladies and their total cure. Submitting a copy of the book to Hon'ble Chief Justice of India, Mr. Ranjan Gogoi, Agrawal writes, "The people of India are fondly looking at the Judiciary for implementing the 'electoral reforms' for providing them a good mother who can take care of them.

	Ownership structure, related-party transactions and firm valuation: evidence from Indian business groups -- Cambridge University Press, 2019	
	Concentrated ownership is considered to be the best protection for shareholders in economies where legal protection is relatively weak. This book investigates and concludes, for Indian business groups, that concentrated-inside ownership provides opportunities for the expropriation of minority shareholders. While more concentrated direct ownership of controlling families results in a higher market value of equity, indirect ownership obtained through cross-holding provides incentives to extract private benefits and results in value loss. This finding requires the prompt attention of regulatory bodies, outside investors and other interested parties. This book examines the effect of ownership structure and disclosure of related-party transactions on firm valuation of group-affiliated firms in India, by using a sample of 317 listed firms comprising 1350 firm-year observations from 2008 to 2017. Well-accepted value-relevance models are employed to examine the effect of ownership rights on market value of equity and valuation effect of RP trading, asset transfer, investment and loan transactions.

	Happiness at work: mindfulness, analysis and well-being -- Sage Publications, 2018	
	Happiness at Work: Mindfulness, Analysis and Well-being tells you what to apply, how to apply and why it works. It is utterly simplistic to wish away external stressors. However, are you taking the best decisions about them? Everyone gets some of their decisions wrong, aver the behavioural economists, as universal distortions are always at work. We can deploy some decision-making paradigms to minimize these distortions. We are beset with individual distortions too, as we are wired with certain tendencies and default modes. As soon as you understand the source and dynamics of these individual distortions, you would begin to heal. Your everyday errors, interpersonal interactions, night-time dreams and body language, all give useful clues to this wiring. On top of this insight, you can build a fine temperament of mindfulness about your body, mind and interactions as well as your entire life. This would lead to peak emotional and mental wellness. Even as professionals leading busy lives, you would see the signs of progress yourself, in weeks and months.	
4	Arvind Gupta	50484
	How India manages its national security -- Penguin Random House India, 2018	
	In this authoritative and comprehensive survey of the challenges a changing global security environment poses to India, former deputy national security advisor Arvind Gupta outlines the important aspects of the country's security apparatus and how they interface to confront internal and external conflicts. We have today a turbulent Middle East to the west; a rising and assertive China to the north; Pakistan in the grip of the military and the militants across our border and an increasingly militarizing Indian Ocean region surrounding us. Arvind Gupta draws on his long experience in these areas to argue that instead of tactical remedies, a strategic, coherent, institutional approach is needed to deal with these challenges. Strengthening the National Security Council, for instance, could be one way forward. How India Manages Its National Security explains with great clarity and thoroughness the concept and operation of India's national security apparatus.

	India's state-run media: broadcasting, power and narrative -- Cambridge University Press, 2019	
	India's State-run Media presents a new perspective on broadcasting by bringing together two neglected areas of research in media studies in India - the intertwined genealogies of sovereignty, public, religion, and nation in radio and television, and the spatiotemporal dynamics of broadcasting into a single analytic inquiry. It argues that the spatiotemporal ties of broadcasting and the inter-relationships among the public, religion, and nation can be traced to an organizing concept that shaped India's late colonial and postcolonial histories - sovereignty. The book contends that studies of television have glossed over the meanings, experiences, and practices of the religious in televisual narratives and viewers' interpretations of television programs. Drawing on the philosophical writings of Paul Ricoeur and Michel Foucault, connecting their ideas with media, cultural, and religious studies, it examines cultural discourses, power relations, repertoire of meanings, social events, etc. in broadcasting in late colonial and postcolonial India.	
6	Banerjee, Subrata	50454
	Fragments of time: memoirs of a romantic revolutionary -- Chandigarh : Centre for Research in Rural and Industrial Development, 2017	
	In Fragments of Time Subrata Banerjee chronicles the history of almost all of the 20th century and beyond. It is a vivid account of his unconventional childhood in Dhaka and Calcutta; his youth in the turbulent times of the Indian freedom movement when began his lasting commitment to Marxism; his experience in the army at the eastern front during world war II his years of advertising and marketing in Calcutta and Bombay; a diplomatic stint in Dhaka, the city of his birth; and eventually a return to journalism, his first love. His acute awareness of global events and their consequences for the impoverished of the world made him an eventuate political activist and commentator. His personal and professional life was enriched by the many people from the different nations and cultures who crossed his path and who find their place in these memories.

	<p>Disaster relief and the RSS: resurrecting religion through humanitarianism -- Sage Publications, 2019</p>	
	<p>Disaster Relief and the RSS: Resurrecting 'Religion' Through Humanitarianism studies the political implications of the humanitarian work of Rashtriya Swayamsevak Sangh (RSS) by examining the institution of seva (service) in disaster situations. This book provides a refreshingly new perspective of the RSS by recognizing its 'compassionate' aspects and understanding its appeal from the point of view of its benefactors. It examines the religious, moral, intellectual and instrumental heritage of seva and discusses the possible reasons for its continual resurrection in modern India. By highlighting the under-analysed aspects of the moral complexity of evaluating the RSS's humanitarian work.</p>	

10	Bhattacharya, Rabindra	50476
	Environmental economics: an Indian perspective -- Oxford University Press, 2017	
	The volume focuses on the interlinkage between economics and the environment. It discussed a range of issues, including environmental degradation, management of exhaustible resources, regulations, economic valuation of environmental costs and benefits, conservation, sustainable development and international trade. Illustrations and case studies in the Indian context enrich the analysis. The concluding chapter presents issues in global perspective.	
11	Chawla, Navin	50477
	Every vote counts: the story of India's elections -- HarperCollins Publishers, 2019	
	Navin Chawla has had a ringside view of Indian elections: as Chief Election Commissioner, he supervised the landmark 2009 general election, and several key state elections as well. Drawing on his wide-ranging experience, Every Vote Counts presents a riveting account of how the daunting task of conducting the largest electoral exercise in the world is undertaken. The challenges before the Election Commission are many: How does one conduct free and fair elections when a large percentage of our lawmakers are law-breakers? Is the model code of conduct effective? How does one hold elections in Maoist-affected constituencies, or for that matter in the strife-torn state of Jammu and Kashmir? How reliable are electronic voting machines? Is it possible to implement compulsory voting? Will simultaneous elections to the Lok Sabha and state assemblies make things any easier? Every Vote Counts is a fascinating, informative account that gives us a kaleidoscopic view of how the electoral machinery works in the world's largest democracy. With the 2019 elections just round the corner, this is a book that every concerned and interested Indian might want to read.

	What Gandhi didn't see: being Indian in South Africa -- Speaking Tiger Publishing, 2018	

	<p>From 1684 till the present, the Indian diaspora in South Africa has had a long history. But in the country of their origin, they remain synonymous with three points of identity: indenture, apartheid and Mahatma Gandhi. In this series of essays, Zainab Priya Dala deftly lifts the veil on some of the many other facets of South African Indians, starting with the question: How relevant is Gandhi to them today? It is a question Dala answers with searing honesty, just as she tackles the questions of the 'new racism'—between Black Africans and Indians—and the 'new apartheid' — money; the tussle between the 'cane fields' where she grew up, and the 'Casbah', or the glittering town of Durban; and what the changing patterns in the names the Indian community chooses to adopt reflect.</p>	
13	Desai, Meghnad	50502
	Raisina model: Indian democracy at 70 -- Penguin Random House India, 2017	
	<p>Meghnad Desai reflects on Indian democracy as it completes seventy years of colourful, eventful and energetic parliamentary existence. Pulling no punches, Desai looks at the history and evolution of Indian democratic institutions, pinpointing their achievements, but also their repeated failure to live up to the standards envisaged by the nation's founders. Drawing on his own career as a Labour peer in Britain's House of Lords, Desai has the rare understanding and familiarity with the process of politics, and is able therefore to identify its universal features and zoom in on its uniquely Indian aspects. The Raisina Model is a critical and frequently uncomfortable meditation on India's contemporary political culture.</p>

	<p>Accessibility of water and toilets among scheduled castes in rural Punjab: issues and challenges -- Chandigarh: Centre for Research in Rural and Industrial Development</p>	

	<p>Access and availability to safe drinking water and sanitation are not only important measures of the socio-economic status of the household but is also fundamental to the health of its members. Water is a basic necessity for the survival of humans. Globally the world is on track to meet the MDG on safe drinking water. Indian too is on track with 85.5 per cent population having sustainable access to safe drinking water (Census of India, 2011). Going by the principles of the international treaty on the rights of water, water is a fundamental human right and states must be willing and able to implement their respective obligations to respect, protect and fulfil the right to adequate water.</p>

	Religion, secularism and ethnicity in contemporary Nepal -- Oxford University Press, 2016	
	<p>The socio-political landscape of Nepal has seen dramatic and far-reaching changes in the past thirty years. The former Hindu kingdom has declared its commitment to secularism without agreement on what secularism means or should mean in the Nepalese context. What happens to religion under conditions of such rapid social and political change? How is the state dealing with Nepal's multicultural and multi-religious society? How are Nepalese understanding, resisting and adapting ideas of secularism? To answer these questions, this volume brings together eleven case studies by an international team of anthropologists and ethno-Indologists of Nepal on a range of diverse topics, such as secularism, new religious movements, shamanism, animal sacrifice, ethnic revival and the clashes and synergies between Maoism and Buddhism. Political philosopher Rajeev Bhargava provides a comparative analysis in the Afterword.</p>

	British in India: three centuries of ambition and experience -- Allen Lane, 2018	

		The British in this book lived in India from shortly after the reign of Elizabeth I until well into the reign of Elizabeth II. Who were they? What drove these men and women to risk their lives on long voyages down the Atlantic and across the Indian Ocean or later via the Suez Canal? And when they got to India, what did they do and how did they live? This book explores the lives of the many different sorts of Briton who went to India: viceroys and officials, soldiers and missionaries, planters and foresters, merchants, engineers, teachers and doctors. It also describes the lives of many who did not fit in with the usual image of the Raj: the tramps and rascals, the men who 'went native', the women who scorned the role of the traditional memsahib.

		Class, politics and agrarian policies in post-liberalisation India -- Cambridge University Press, 2019	
		The book visits the idea of New India, studying how the political economy of India has changed significantly in post-liberalisation India. The book challenges the notion that all farmers in India are in agrarian distress, showing that some classes of farmers have gained under policies; it helps understand why farmer movement has weakened and control of industrial capitalist class has been bolstered. The book discusses the growing presence of petty bourgeoisie with both old and new fractions thriving. Gujarat and Karnataka are instances of these two kinds of fractions.	
18	Hawking, Stephen W.		50507
		Theory of everything: the origin and fate of the universe -- Jaico Publishing House, 2019	
		Hawking presents a series of seven lectures - covering everything from big bang to black holes to string theory - that capture not only the brilliance of Hawking's mind but his characteristic wit as well. Of his research on black holes, which absorbed him for more than a decade he says, "it might seem a bit like looking for a black cat in a coal cellar." A great populariser of science as well as a brilliant scientist, Hawking believes that advances in theoretical science should be "understandable in broad principals by everyone, not just a few scientists". In this book he offers a fascinating voyage of discovery about the cosmos and our place in it. It is a book for anyone who has ever gazed at the night sky and wondered what was up there and how it came to be.

	Business and politics in India -- Oxford University Press, 2019	
	Over the last few decades, politics in India has moved steadily in a pro-business direction. This shift has important implications for both government and citizens. In Business and Politics in India, leading scholars of Indian politics have gathered to offer an analytical synthesis of this vast topic. Collectively, they cover the many strategies that businesses have used to exert their newfound power in recent times and organize the book around a few central concerns. They first analyze the nature of business power and how it shapes political change in India. Second, they look at the consequences of business' growing power on some important issue areas-labor, land, urban governance, and the media. Finally, they take account of regional variation and analyze state-business relations. This definitive account offers significant insights into how and why corporations have increased their power in contemporary Indian politics.	
20	Jalil, Rakhshanda	50473
	But you don't look like a Muslim -- HarperCollins Publishers, 2019	
	What does it mean to be Muslim in India? What does it mean to look like one's religion? Does one's faith determine how one is perceived? Is there a secular ideal one is supposed to live up to? Can people of different faiths have a shared culture, a shared identity? India has, since time immemorial, been plural, multi-cultural, multi-ethnic and multi-lingual, where various streams have fed into and strengthened each other, and where dissimilarities have always been a cause for rejoicing rather than strife. These writings, on and about being Muslim in India, by Rakhshanda Jalil – one of the country's foremost literary historians and cultural commentators – excavate memories, interrogate dilemmas, and rediscover and celebrate a nation and its syncretic culture. But You Don't Look Like a Muslim is a book that every thinking Indian must read.

	Essential Vivekananda -- Rupa Publications, 2019	

	Swami Vivekananda remains an icon for all time, especially for the youth. He touched the lives of numerous personalities across the globe, including physicists like Nikola Tesla and J.C. Bose; and entrepreneurs like Rockefeller and J.R. Tata. His famous Chicago address at the Parliament of religions in 1893 is considered the turning point in the revival of Hindu pride at a universal level. His speeches and writings cover a vast range of topics—from Science to spirituality, from technology to casteism, from yoga to Vedanta. In a short lifespan of thirty-nine years, he triggered National resurgence in all walks of life. Essential Vivekananda is a compact, concise, representation that unveils all the shades of his personality and gives the reader an essential understanding of Swami Vivekananda monk and the man. It serves to introduce readers to his life, message and influence, and hopes to urge the reader to go to the original sources and know more about this glorious son of India.

	Evolution of Goods and Services Tax in India -- Cambridge University Press, 2019	
	Goods and Services Tax (GST) was implemented in India in July 2017, after four decades of protracted deliberations amid critical socio-economic and political challenges. GST is a comprehensive multistage value added tax (VAT) on goods and services where both central and state governments share the same tax base. Finding a suitable design for GST that encompasses taxes from both the centre and the state tax brackets makes the Indian GST unique among GST implemented in other federal countries. This book is a study of the evolution of GST in India since the Report of the Indirect Taxation Enquiry Committee of 1977. It studies the following issues on GST: a) inclusion and exclusion of taxes, b) finding a suitable mechanism to handle inter-state transactions, c) finding revenue neutrality of the tax reform, d) providing compensation to states for any possible loss of revenue due to its adoption, and e) possible scope for coordination in GST administration.

	Struggle for equality: India's Muslims and rethinking the UPA experience -- Cambridge University Press, 2019	

		The United Progressive Alliance (UPA) government (2004–14) led by the Congress came to power with a radical agenda for religious minorities. This included legislation and policies against discrimination and disadvantages suffered by religious minorities, especially Muslims, and a new framework for delivering substantive equality of opportunity. This work offers a new interpretation of the UPA's record. In critically re-evaluating the UPA's performance, it uses an institutional policy analysis approach which combines historical institutionalism (and path dependence) with policy analysis. It draws on official sources and extensive interviews with elite administrators and policy makers who were at the core of decision making during the UPA's tenure in office. Detailed case studies are provided of Muslims in public sector employment, the provision of service delivery for Muslim communities in India, and the efforts to create a new legislative framework against communal violence.

		US policy towards Pakistan 1980-1988 -- New Delhi : Gyan Publishing House, 2017	
		The book is about US-Pakistan Relations during US President Ronald Reagan's time period. In this period the US and Pakistan relations were cordial and friendly. But sometimes their relations were so complex on certain issues which results in numerous ups and downs instead of these hiccups bilateral relations of both countries gradually improved over a period of time. In this book, The author focused on Ronald Regan's approaches towards Pakistan, although Pakistan was a close ally of USA during the Afghan war and played a key role but despite of this fact US administration has imposed sanctions on Pakistan, delayed delivery of F-16 fighter jets also cuts financial Aid to Pakistan, because President Ronald Reagan have enough information which has proved that Pakistan was taking disadvantage of their financial and military support for enrichment of nuclear bomb, while many times it denied on this issue. The author in his very first book attempts to provide a meaningful reading to researchers, academics and analysts.

	Folk-lores & folk-lore motifs: special reference to North-East -- New Delhi: Omsons Publications, 1993	
	Folk-lore of any society is an important tool for proper understanding of that society - its past, its traditions, culture and its contact with others. This is a study of folk lore of the north east region. The book contains language wise bibliographies on language and folk-lores of North East India.	
28	Kumar, B.B.	50520
	Tension and conflict in North-East India -- New Delhi: Cosmo Publications, 1995	
	These state have been a focus of attention for their unique cultural setting located as they are in one corner of the sub-continent away from the central mainstream, both geographically, and culturally. Within itself these state provide a rich tapestry of cultural, linguistic and ethnic diversities comprising of both tribal and non-tribal populations. Most of the British authors writing about the North-East have wrongly emphasized the conflict situation between the mainland Indian culture and that of the North East situation not yet been brought out in right perspective. The book attempt to get insider's view of the region and to highlight the actualities of the situation of tension and conflict existing there in specifically in view of the post-Independence political culture.	
29	Kumar, B.B.	50521
	Tribal societies of India: a macro perception -- New Delhi: Omsons Publications, 1998	

	Indian Society suffers from the obsession of diversity. There is diversity in our society, but not to the extent it gets projected. There is an unbroken continuum between Castes and tribes in this country. The book tries to highlight the same. The monographs on tribes and castes in this country as a confused entity and the same colonial approach of micro studies continued after independence also. There is a need to evolve the macro perception of the Indian society.

	New perspectives on Pakistan's political economy: state, class and social change -- Cambridge University Press, 2019	
	This volume makes a major intervention in the debates around the nature of the political economy of Pakistan, focusing on its contemporary social dynamics. This is the first comprehensive academic analysis of Pakistan's political economy after thirty-five years, and addresses issues of state, class and society, examining gender, the middle classes, the media, the bazaar economy, urban spaces and the new elite. The book goes beyond the contemporary obsession with terrorism and extremism, political Islam, and simple 'civilian–military relations', and looks at modern-day Pakistan through the lens of varied academic disciplines. It not only brings together new work by some emerging scholars but also formulates a new political economy for the country, reflecting the contemporary reality and diversification in the social sciences in Pakistan.

	India's revolutionary inheritance: politics and the promise of Bhagat Singh -- Cambridge University Press, 2019	
	What do anti-colonial histories mean for politics in contemporary India? How can we understand a political terrain that appears crowded with the dead, heroic figures from past struggles who call the living to account and demand action? What role do these 'afterlives' play in the inauguration of new politics and the fashioning of possible futures? In this engaging and innovative analysis of anti-colonial afterlives in modern South Asia, Chris Moffat crafts a framework that takes the dead seriously - not as passive entities, ceremonially invoked, but as active interlocutors and instigators in the present. Focusing on the iconic revolutionary martyr Bhagat Singh (1907–1931), Moffat establishes the problem of inheritance as central to the forms and futures of democracy in this postcolonial polity. Tracing Bhagat Singh's revenant presence in India today, he demonstrates how living communities are animated by a sense of obligation, duty or debt to the dead.

	Electoral participation of Muslim women in India: a comparative study -- New Delhi: Concept Publishing, 2018	

	<p>The aim of the research was to study the status of political participation of Muslim women in two culturally different settings in the States of Karnataka in the South and Uttar Pradesh in the North and understand the views of the Muslim community on religious restrictions, if any, on the political participation of Muslim women. Do the Indian Muslim women have political aspirations? Do they fight elections; as nominees of political parties or as independents? While the political participation of Indian women per se has been extensively studied, the status of Muslim women has not received much attention. This study is based on extensive fieldwork in 9 districts of Uttar Pradesh and 6 districts of Karnataka. Besides over 200 individual Muslim women, the views of a number of Islamic scholars, Muslim academicians, professional and students were collected in the form of written replies to questionnaire and during the course of personal interviews.</p>

	Crafty oligarchs, savvy voters: democracy under inequality in rural Pakistan -- Cambridge University Press, 2019	
	<p>How does democracy empower marginalized voters under conditions of inequality? The author probes into this question grounding her research in the context of Pakistan, an emerging democracy whose voters have actively been involved in defining its political history but about whom we know very little. They turn up in sizeable numbers to vote during elections, even under military rule, prompting all kinds of contradictory stereotypes about how Pakistani rural voters behave as electoral cannon fodder. But no one has looked very closely at why they vote as they do, or why they vote at all when their political agency is severely limited by high socio-economic inequality. By using original data collected across different villages and households in rural Pakistan, this book finds that electoral politics enables even the most marginalized voters to strategically further their interests vis-à-vis elite groups, but that persistent inequality limits their ability to organize or compete.</p>

	Legal right to housing in India -- Cambridge University Press, 2019	

	<p>This book on constructing a legal right to housing in India seeks to achieve three ends: first, examine the costs incurred in translating a moral right into the language of the law; second, unpack the ways in which existing law and policy impact the realisation of the right to housing and situate any attempt to legally guarantee the right within this context; and finally, begin thinking through the many complexities that will arise should the right be articulated within the law. A comprehensive chronology of central housing law and policy provides the descriptive background for this analytical text, while also acting as a rich introductory resource on the subject. Asserting a need as a right and then seeking legislative recognition for the right is a formula often used in rights struggles. This book takes a critical look at this process, in order to facilitate informed engagement with the law.</p>

	Dynamics of international out-migration from Punjab: report on PIMS -- Chandigarh: Centre for Research in Rural and Industrial Development, 2015	
	<p>Punjab is one among few Indian states that are significantly characterised by strong international mobility. As one among seven major states leading the international out migration from India, Punjab is living testimony to the culture of migration that permeates the life in the Punjabi society. With a history of sustained migration for more than 125 years - beginning primarily during colonial rule of India the Punjab transnational life has been eventful and dynamic for a variety of reasons. Regular emigration, beginning in the erstwhile Punjab of the undivided India, and continuing unabated to selected countries of North America, Europe, Oceania, East Africa, Southeast Asia and the Middle east, led to formation of the global Punjabi diaspora of around 2.0-2.5Million.</p>

	Utopia and dystopia in revolutionary Russia -- Delhi: Ambedkar University, 2017	
	Utopia is a place or as it literally means, a no place in Thomas more's Greek Pun, one that does not exist, cannot exist but ideally should come into being as the good place, the utopia. As a place it was located beyond normal life, isolated and secluded the better for creativity and purity free of the miasmas of out polluted world. But form the end of the eighteenth century, in the course of the revolutionary convulsions of the age, it was increasingly imagined as something that could be made to happen more as the good time than as the good place, an euchronia rather than utopia or utopia. Utopia had become a realistic goal in a future that foreseeable or a time that was liner and secular and its location was our entire world, the world inhabited by the human species, whether terrestrial or extra-terrestrial.

	<p>New directions in India's foreign policy: theory and praxis -- Cambridge University Press, 2019</p>	
	<p>India's foreign policy has witnessed a dramatic transformation since the end of the Cold War. Though academic study of Indian foreign policy has also shown a degree of maturity, theoretical developments have been underwhelming. Scholars have introduced new concepts and examined Indian foreign policy through new prisms, but a cohesive research agenda has not yet been charted. This volume intends to fill that void. It brings together new cutting-edge research in the field of Indian foreign policy - both at the theoretical and empirical level - so as to shape the discourse on foreign policy of one of the most important players in global politics.</p>

	Third pillar: how markets and the state leave the community behind -- HarperCollins Publishers, 2019	
	Raghuram G. Rajan has an unparalleled vantage point on the socio-economic consequences of globalization and their ultimate effect on politics. In The Third Pillar, he offers a big-picture framework for understanding how these three forces - the state, markets and communities - interact, why things begin to break down, and how we can find our way back to a more secure and stable plane. The 'third pillar' is the community we live in. Economists all too often understand their field as the relationship between markets and the state, and they leave squishy social issues for other people. That's not just myopic, Rajan argues; it's dangerous. All economics is actually socioeconomics - all markets are embedded in a web of human relations, values and norms. The Third Pillar is a masterpiece of explication, a book that will be a classic for its offering of a wise, authoritative and humane explanation of the forces that have wrought such a sea change in our lives.

	India transformed: 25 years of economic reforms-- Penguin Random House India, 2018	
	In this commemorative volume, India's top economic luminaries and business leaders come together to provide a balanced picture of the economic reform process initiated in 1991 and its consequences. They ask themselves some imperative questions: What were the reforms? What were they intended for? How have they affected the overall functioning of the economy? Covering the impact of the reforms on the evolution of India businesses, India's foreign and security policy, the changing face of Indian governance and sectoral and human developments, among other themes, India Transformed delves deep into the life of liberalized India through the eyes of the people who helped transform it.

	History of Hinduism: the past, present and future -- Sage Publications, 2018	

	<p>The history of Brahmanas, tracing their lineage to the fifty-odd Rigvedic poets, is dealt with through the chronological ordering of the Sanskrit texts which were first handed down to us as oral narratives from Gurus to shishyas. The circumstances and purposes for which these texts were written is examined, along with events of a true historical nature. This is followed by a sequential treatment of Hinduism as a 'Rigvedic religion', the two Mimamsas, Buddhism, Jainism, Dharmasastras, the Epics and the Puranas. The growth of Hindu temples, the role of Adi Sankaracharya and the Bhakti movement is delved into, and the influences of Muslim and British rule of the subcontinent on Hinduism is analysed. The author explores one major reason for the survival of Hinduism—the support of prehistoric tribal and village cultures which were not modified or destroyed by the later-day Brahmanas.</p>

	Bhagat Singh jail diary: the original copy of jail diary of Shaheed-E-Azam Bhagat Singh -- New Delhi: Prabhat Prakashan, 2018	
	<p>Great son of India, Shaheed Bhagat Singh was executed by the Britishers on 23rd March, 1931. He dedicated his life to free motherland from the cruel clutches of the British. His jail diary was handed over, along with other belongings to his father, Sardar Kishan Singh after his execution. After Sardar Kishan Singh's death, the notebook, along with other papers of Bhagat Singh, was passed on to his another son, Shri Kulbir Singh. After his death, it has passed to his son, Shri Babar Singh. It was the dream of Shri Babar Singh that the Indian masses get to know through this historical diary what the actual thoughts of Shaheed Bhagat Singh were. Also General people can also see the original writings of Bhagat Singh because he is the hero of every caste, religion, poor, rich, farmers, labourers and everyone who loves Bharat. Revolution necessarily implies the programme of systematic reconstruction of society on New and better adapted basis, after complete destruction of the existing state of affairs (I.E. Regime).</p>

	Calcutta: The Stormy Decades edited by two of India's finest historians put together essays on the city's history and culture in the 1940s, a decade that made and unmade Calcutta. This book fills an important gap in Indian historiography. What is also worth noting is that many of the contributors are young scholars. It also has some translations from Bengali by Sumit Sarkar, who needs no introduction to students of modern India.

	The Supreme Court of India is a powerful institution at the forefront of public attention in India. It is often engaged in a bitter duel with the government on issues as diverse as the administration of cricket in India to whether liquor shops are allowed on highways. Despite such public prominence, very little attention has been paid to who the judges of the Supreme Court are, how they are appointed, transferred and removed, and what they do after retirement.

	Man who saved India: Sardar Patel and his idea of India -- Penguin Random House India, 2018	
	There is perhaps no political figure in modern history who did more to secure and protect the Indian nation than Sardar Vallabhbhai Patel. But, ironically, seventy years after Patel brought together piece by piece the map of India by fusing the princely states with British India to create a new democratic, independent nation, little is understood or appreciated about Patel's enormous contribution to the making of India. Caricatured in political debate, all the nuances of Patel's difficult life and the daring choices he made are often lost, or worse, used as mere polemic. This is why even his deepest misgivings and quarrels have been easily buried. It is also impossible to ignore Patel and understand not only what the idea of India is but also what it could have been, and might be in the future.

	Last battle of Saraighat: the story of the BJP's rise in the North-East -- Penguin Random House India, 2017	
	The first-ever account of the BJP's landslide victory in the 2016 Assam legislative assembly elections. The Battle of Saraighat was fought in 1671 between the Ahoms of Assam and the Mughal invaders. In 2016, the BJP centred its strategy for the legislative assembly elections on this historic battle, focusing on issues of illegal migration, constantly invoked in the party's rallies, posters and communication to appeal to the voting public. The historic elections saw the BJP win an overwhelming majority of assembly seats in Assam, where the Congress had been in power for decades. It was a watershed moment that opened the door for the party to the political corridors of the North-east. They outline the political history of the region, provide details of election strategies employed by the party and explain why they resonated with the local people so strongly. The Last Battle of Saraighat looks at Assam as a case study to explain the rise of the BJP in the North-east and throws light on the key political issues of the region.

	Emerging Indian state: socio-economic profile of Gujarat: : a select bibliography -- Jaipur: Rawat Publications, 2019	

	<p>The state of Gujarat holds an important position in India. Gujarat of today is one of the economically advanced states. Research scholars have been studying history, culture, religion and various socio-economic aspects of Gujarat since long. This book is a modest attempt in sourcing research material and consolidating scholarship on Gujarat with specific focus on socio-economic issues. The time period considered is mainly post-1960, the year in which Gujarat state was formed, bifurcating the then Bombay State. It contains more than 6,400 entries. Researchers all over looking for material on Gujarat will find this bibliography very useful.</p>

	Great smog of India -- Penguin Random House India, 2018	
	<p>Air pollution kills over a million Indians every year, albeit silently. Families are thrown into a spiralling cycle of hospital visits, critically poor health and financial trouble impacting their productivity and ability to participate in the economy. Children born in regions of high air pollution are shown to have irreversibly reduced lung function and cognitive abilities that affects their incomes for years to come. They all suffer, silently. The issue is exacerbated every winter, when the Great Smog of India descends and envelops much of northern India. In this period, the health impact from mere breathing is akin to smoking a pack of cigarettes a day. He places the air pollution crisis in the context of India's meteorological conditions and also climate change. Above all, and most alarmingly, he makes clear what the repercussions will be if we remain apathetic.</p>

	In the wake of disaster: Islamists, the state and a social contract in Pakistan -- Cambridge University Press, 2019	

	<p>What is the state's responsibility to its people in the aftermath of a natural hazard based disaster? The book sets out to address this seemingly simple question, after large scale floods devastated Pakistan in 2010 and then again in 2011. Along the way it delves into rich detail about people's everyday encounters with the state in Pakistan, uncovers postcolonial discourses on rights of citizenship and dispels mainstream understanding of Islamist groups as presenting an alternative development paradigm to the state. Based on detailed ethnographic fieldwork, In the Wake of the Disaster forces the reader to look beyond narratives of Pakistan as the perennial 'failing state' falling victim to an imminent 'Islamist takeover'.</p>

	<p>Sir Henry McMahon, a British colonial administrator, drew a line along the Himalayas at the Simla Convention of 1913-14, demarcating what would in later years become the effective boundary between China and India. The boundary, disputed by India's northern neighbour, has had a profound effect on the relations between the two Asian giants, resulting prominently in the war of 1962 but also in several skirmishes and stand-offs both before and after that. It continues to be a thorn in the side - reaching a flashpoint at the tri-junction between Tibet, Sikkim and Bhutan in Doklam in 2017 - and may derail all the progress in bilateral ties if left unattended.</p>

	<p>Chief Ministers of Uttar Pradesh: the governance paradigm -- New Delhi: Jnanada Prakashan, 2017</p>	
	<p>The book covers almost eight decades of governance in Uttar Pradesh in which two national political parties, the congress and the BJP took the reins, and the rest were regional parties like Janta Dal, SP and BSP which had their own share in the governance. An Effort was therefore, made to have a comparative look into the governance paradigm of these political outfits and see if there are any marked differences in their approach and priority. Since one had to cover a long period, there is an attempt to provide a broad spectrum on their governance and not going into a detailed individual assessment. It is however, hoped that the book would provide a rational assessment which may interest the concerned circles as well as be of helping further probing the theme.</p>

	Patel: political ideas and policies -- New Delhi: Sage Publications, 2019	
	Patel: Political Ideas and Policies comprehensively presents the different facets of Sardar Patel's political life, his ideas and their applications. The book provides a detailed analysis of his perspectives on liberal democracy, nationalism and the state—the three pillars of his political life. Patel's role in the Constituent Assembly, transfer of power, integration of princely states with independent India and their territorial reorganization, administrative reforms, formation of the Planning Commission and creation of India's foreign policy were decisive to the consolidation and the very survival of India as a nation. This book aims to debunk these notions. It is based on the collected works of Patel and attempts to fill in the gap created by the absence of any significant academic work on his life and work.

	Future politics: living together in a world transformed by tech -- Oxford University Press, 2018	
	Future Politics confronts one of the most important questions of our time: how will digital technology transform politics and society? The great political debate of the last century was about how much of our collective life should be determined by the state and what should be left to the market and civil society. In the future, the question will be how far our lives should be directed and controlled by powerful digital systems - and on what terms? Jamie Susskind argues that rapid and relentless innovation in a range of technologies - from artificial intelligence to virtual reality - will transform the way we live together. Calling for a fundamental change in the way we think about politics, he describes a world in which certain technologies and platforms, and those who control them, come to hold great power over us.

	Last Hindu emperor: Prithviraj Chauhan and the Indian past, 1200-2000 -- Cambridge University Press, 2016	

		This fascinating new study traces traditions and memories relating to the twelfth-century Indian ruler Prithviraj Chauhan; a Hindu king who was defeated and overthrown during the conquest of Northern India by Muslim armies from Afghanistan. Surveying a wealth of narratives that span more than 800 years, Cynthia Talbot explores the reasons why he is remembered, and by whom. In modern times, the Chauhan king has been referred to as 'the last Hindu emperor', because Muslim rule prevailed for centuries following his defeat. Despite being overthrown, however, his name and story have evolved over time into a historical symbol of India's martial valour.

		Making of India: game changing transitions -- Rupa Publications, 2015	
		The Making of India chronicles the journey of India's demographic dividend through the varied transitions taking place in the economy. The forces shaping India's job market, its cities, its industry and agriculture and its equation with the rest of the world come from expected and unexpected places, heralding massive opportunities and challenges for citizens, government and investors. Indians face a significant private cost of public failure. Across its public goods like power, roads, water, education, health and security, Indians have been offered poor outcomes as prices have been kept low in the name of the poor. Throughout the book, we encounter pricing distortions made by the iron hand of the government (either making something cheap relative to its market price or more expensive) which has swayed incentives and outcomes in various sectors.

	Rise of finance: causes, consequences and cures -- Cambridge University Press, 2019	
	Financialisation, or the disproportionate importance of financial considerations in economic decisions, has been a defining feature of the economic history of the last twenty-five years. The wave of deregulation that accompanied the neoliberal agenda in the US, aided by the dominance of US dollar and American economy, has resulted in the globalisation of finance. This book examines the rise of financialisation globally, while charting its drawbacks and prescribing suggestions for a definitive overhaul of the structure.

	Maoist people's war and the revolution of everyday life in Nepal -- Cambridge University Press, 2019	
	By providing a rich ethnography of wartime social processes in the former Maoist heartland of Nepal, this book explores how the Maoist People's War (1996–2006) transformed Nepali society. Drawing on long-term fieldwork with people who were located at the epicentre of the conflict, including both ardent Maoist supporters and 'reluctant rebels', it explores how a remote Himalayan village was forged as the centre of the Maoist rebellion, how its inhabitants coped with the situation of war and the Maoist regime of governance, and how they came to embrace the Maoist project and maintain ordinary life amidst the war while living in a guerrilla enclave.
