1	Aadhar effect: why the world's largest identity project matters/ Ramnath, N.S. and Assisi, Charles -- New Delhi: Oxford University Press, 2018	50534

The Aadhaar Effect is the story of how India built a bunch of digital platforms to bring hundreds of millions of people into the digital economy—via a national, biometric identity system, a payments interface, a consent architecture, etc. There is deep interest in India’s rise around the world. And Aadhaar is a leitmotif of both India’s tech prowess and social transformation. Except that not enough people are quite well-versed with the strategic intent—or the transformative power of Aadhaar. The story behind Aadhaar remains, for most part, untold. There is a need for more people to read about, engage and debate the idea behind Aadhaar. Because it holds the key to how India—and indeed other emerging markets—can possibly leapfrog, using the power of technology. It has kicked up intense, polarized debate on its impact, with some claiming it is all good, and others claiming it is all bad. Both sides miss the truth. Tens of millions of Indians did not have an identity that was accepted across the country. The government lacked the capacity to provide targeted welfare and benefits to people who needed it most. By building Aadhaar as an identity platform, a Lego block, the ambitious project aimed to address both issues. It gave identity to every resident in the country. And it allowed governments, social enterprises and businesses to build innovative solutions on top of the platform. The story of Aadhaar is about how these blocks came to be built and how they are being used, and misused, on the ground. It’s a story that will be of interest to policy makers, business leaders, tech executives, social entrepreneurs, key influencers in the development sector, and just about anyone who has to deal with this complex, dynamic and messy world.

2	Adivasi rights and exclusion in India/ V. Srinivasa Rao (Ed.) -- Routledge, 2019	50652
---	--	-------

This volume examines the processes and impacts of exclusion on the Adivasis (tribal or indigenous people) in India and what repercussions these have for their constitutional rights. The chapters explore a wide range of issues connected to the idea of exclusion — land and forest resources, habitats and livelihoods, health and disease management, gender relations, language and schooling, water resources, poverty, governance, markets and technology, and development challenges — through case studies from different parts of the country. The book argues that any laws intended to safeguard the fundamental rights of Adivasis must acknowledge the fact that their diverse and complex identities are not homogenous, and that uniform laws have failed to address their systemic marginalisation since the colonial era. This work appeals for a serious and meaningful political intervention towards tribal development. The volume will be useful to scholars and researchers of tribal and Third World studies, sociology and social anthropology, exclusion studies and development studies.

- 3 Adivasis, migrants and the state in India/ Ambagudia, Jagannath -- Routledge, 2019 50653

This book looks at the contested relationship between Adivasis or the indigenous peoples, migrants and the state in India. It delves into the nature and dynamics of competition and resource conflicts between the Adivasis and the migrants. Drawing on the ground experiences of the Dandakaranya Project – when Bengali migrants from erstwhile East Pakistan (now Bangladesh) were rehabilitated in eastern and central India – the author traces the connection between resource scarcity and the emergence of Naxalite politics in the region in tandem with the key role played by the state. He critically examines the way in which conflicts between these groups emerged and interacted, were shaped and realised through acts and agencies of various kinds, as well as their socio-economic, cultural and political implications. The book explores the contexts and reasons that have led to the dispossession, deprivation and marginalisation of Adivasis.

- 4 Africa in world affairs: politics of imperialism, the cold war and globalisation/ Harshe, Rajen -- London: Routledge, 2019 50684

Africa finds itself at the centre stage of world politics in the twenty-first century. To truly determine its rising influence and role in world affairs would mean unravelling the politics of imperialism, the Cold War and globalisation. Going beyond Euro-American perspectives, this book presents a comprehensive study of Africa and its role in world politics.

- 5 African politics: a very short introduction/ Taylor, Ian -- Oxford: Oxford University Press, 2018 50535

Africa is a continent of 54 countries and over a billion people. However, despite the rich diversity of the African experience, it is striking that continuations and themes seem to be reflected across the continent, particularly south of the Sahara. Questions of underdevelopment, outside exploitation, and misrule are characteristic of many - if not most-states in Sub-Saharan Africa. In this Very Short Introduction Ian Taylor explores how politics is practiced on the African continent, considering the nature of the state in Sub-Saharan Africa and why its state structures are generally weaker than elsewhere in the world. Exploring the historical and contemporary factors which account for Africa's underdevelopment, he also analyses why some African countries suffer from high levels of political violence while others are spared. Unveiling the ways in which African state and society actually function beyond the formal institutional façade, Taylor discusses how external factors - both inherited and contemporary - act upon the continent.

- 6 Africanistan: development or Jihad/ Michailof, Serge -- New Delhi: Oxford University Press, 2018 50536

While progress in Africa can be seen across the board, every day-migrants are dying in the Mediterranean. The continent is in fact a powder keg. The powder is demographics. And the detonator is unemployment. What is worrying for the continent is even more dramatic for the Sahel, a huge region of about 100 million inhabitants, where insecurity is spreading and which may act as a detonator for West Africa with a population of 700 million in 25 years.

The mass unemployment of young people far more than jihadist propaganda, is the primary explanation for the dramatic collapse of Afghanistan. Despite major differences in geography and culture, there are huge similarities between the Sahel and Afghanistan, increasing insecurity, drug trafficking, and the spread of radical Islam being the most worrisome. Unfortunately the same recipes that failed in Afghanistan are again being rolled out in the Sahel. Without a radical change in the international community's behaviour, we will soon be confronted with, first, a 'Sahelistan' and then an 'Africanistan,' an African Afghanistan, but five- or ten-times worse.

- 7 Aging and diversity: an active learning experience/ Mehrotra, Chandra M. Mehrotra & Wagner, Lisa S. -- : Routledge, 2019 50636

As the older population in the United States is becoming more racially and ethnically diverse, it is important to understand the characteristics, the potential, and the needs of this population. In this new and fully revised edition of Aging and Diversity, Chandra Mehrotra and Lisa Wagner address key topics in diversity and aging, discussing how the aging experience is affected by not only race and ethnicity but also gender, religious affiliation, social class, rural-urban community location, and sexual orientation and gender identity. Taking this broad view of human diversity allows the authors to convey some of the rich complexities facing our aging population – complexities that provide both challenges to meet the needs of a diverse population of elders and opportunities to learn how to live in a pluralistic society

- 8 Ahimsa: the way to peace / Crane, Jonathan K. and Panareda, Jordi Agusti -- : Concept Publishing, 2007 50828

Ahimsa—founded on the bedrock of amity, forgiveness, tolerance to foster global non-violence, peace and harmony—can be the way forward for humanity. Stern disciplinary actions and coercive approaches may help maintain law and order, but yet individuals may resort to violence and force to achieve their narrow aims more often than not, disrupting peace.

- 9 Alt-Right: what everyone needs to know/ Hawley, George -- New York: Oxford University Press, 2019 50537

In recent years, the so-called Alt-Right, a white nationalist movement, has grown at an alarming rate. Taking advantage of high levels of racial polarization, the Alt-Right seeks to normalize explicit white identity politics. Growing from a marginalized and disorganized group of Internet trolls and propagandists, the Alt-Right became one of the major news stories of the 2016 presidential election. Discussions of the Alt-Right are now a regular part of political discourse in the United States and beyond. In *The Alt-Right: What Everyone Needs to Know*, George Hawley, one of the world's leading experts on the conservative movement and right-wing radicalism, provides a clear explanation of the ideas, tactics, history, and prominent figures of one of the most disturbing movements in America today. Although it presents itself as a new phenomenon, the Alt-Right is just the latest iteration of a longstanding radical right-wing political tradition. The Alt-Right represents a genuine challenge to pluralistic liberal democracy, but its size and influence are often exaggerated. Whether intentionally or not, President Donald Trump energized the Alt-Right in 2016, yet conflating Trump's variety of right-wing politics with the Alt-Right causes many observers to both overestimate the Alt-Right's size and downplay its radicalism. Hawley provides a tour of the contemporary radical right, and explains how it differs from more mainstream varieties of conservatism. In dispassionate and accessible language, he orients readers to this disruptive and potentially dangerous political moment.

- 10 Antarctica: what everyone needs to know/ Day, David -- New York: Oxford University Press, 2019 50567

Part of the *What Everyone Needs to Know*, David Day's book on Antarctica examines the most forbidding and formidably inaccessible continent on Earth. Antarctica was first discovered by European explorers in 1820, and for over a century following this, countries competed for the frozen land's vast marine resources—namely, the skins and oil of seals and whales. Soon the entire territory played host to competing claims by rival nations. The Antarctic Treaty of 1959 was meant to end this contention, but countries have found other means of extending control over the land, with scientific bases establishing at least symbolic claims. Exploration and drilling by the United States, Great Britain, Russia, Japan, and others has led to discoveries about the world's climate in centuries past—and in the process intimations of its alarming future. Delving into the history of the continent, Antarctic wildlife, arguments over governance, underwater mountain rangers, and the continent's use in predicting coming global change, Day's work sheds new light on a territory that, despite being the coldest, driest, and windiest continent in the world, will continue to be the object of intense speculation and competition.

- 11 Antisocial media: how Facebook disconnects us and undermines democracy/ Vaidhyathan, Siva -- New Delhi: Oxford University Press, 2018 50538

If you wanted to build a machine that would distribute propaganda to millions of people, distract them from important issues, energize hatred and bigotry, erode social trust, undermine respectable journalism, foster doubts about science, and engage in massive surveillance all at once, you would make something a lot like Facebook. Of course, none of that was part of the plan. In *Antisocial Media*, Siva Vaidhyathan explains how Facebook devolved from an innocent social site hacked together by Harvard students into a force that, while it may make personal life just a little more pleasurable, makes democracy a lot more challenging. It's an account of the hubris of good intentions, a missionary spirit, and an ideology that sees computer code as the universal solvent for all human problems. And it's an indictment of how "social media" has fostered the deterioration of democratic culture around the world, from facilitating Russian meddling in support of Trump's election to the exploitation of the platform by murderous authoritarians in Burma and the Philippines. Facebook grew out of an ideological commitment to data-driven decision making and logical thinking. Its culture is explicitly tolerant of difference and dissent. Both its market orientation and its labor force are global. It preaches the power of connectivity to change lives for the better. Indeed, no company better represents the dream of a fully connected planet "sharing" words, ideas, and images, and no company has better leveraged those ideas into wealth and influence. Yet no company has contributed more to the global collapse of basic tenets of deliberation and democracy. Both authoritative and trenchant, *Antisocial Media* shows how Facebook's mission went so wrong.

- 12 Art of economic catch-up: barriers, detours and leapfrogging in innovation systems/ Lee, Keun -- Cambridge University Press, 2019 50599

In his previous Schumpeter Prize-winning work, Lee analysed the 'middle-income trap', in which a developing country grows strongly only to plateau at a certain point. Yet certain developing countries, most significantly China, have managed to escape this trap. Building on the conception of the ladder from developing to developed countries being kicked away, this book suggests alternative ways, such as 'leapfrogging', in which latecomers can catch up with their forerunners. Providing policy solutions for development challenges in non-technical terms, Lee frames his theories with insightful and inventive allegories. In doing so, Lee also accounts for the catch-up paradox, in which one cannot conclusively catch-up if they are continually trying to follow the path of those ahead. He argues that eventual catch-up and overtaking require pursuing a path that differs from that taken by forerunners. This highly original and accessible book will appeal to students, scholars, practitioners, and anyone interested in economic development and innovation.

- 13 Ashgate research companion to media geography / -- Routledge, 2014 50568

This Companion provides an authoritative source for scholars and students of the nascent field of media geography. While it has deep roots in the wider discipline, the consolidation of media geography has started only in the past decade, with the creation of media geography's first dedicated journal, *Aether*, as well as the publication of the sub-discipline's first textbook. However, at present there is no other work which provides a comprehensive overview and grounding. By indicating the sub-discipline's evolution and hinting at its future, this volume not only serves to encapsulate what geographers have learned about media but also will help to set the agenda for expanding this type of interdisciplinary exploration.. The volume is not simply a collection of individual offerings, but has afforded an opportunity to exchange ideas about media geography, with contributors making connections between chapters and developing common themes.

- 14 Authoritarianism: what everyone needs to know/ Frantz, Erica -- New York: Oxford University Press, 2018 50539

Despite the spread of democratization following the Cold War's end, all signs indicate that we are currently seeing a resurgence of authoritarianism. Around forty percent of the world's people live under some form of authoritarian rule, and authoritarian regimes govern about a third of the world's countries. In *Authoritarianism: What Everyone Needs to Know*, Erica Frantz guides us through today's authoritarian wave, explaining how it came to be and what its features are. She also looks at authoritarians themselves, focusing in particular on the techniques they use to take power, the strategies they use to survive, and how they fall. As she demonstrates, understanding how politics works in authoritarian regimes and recognizing the factors that either give rise to them or trigger their downfall, remains as important as ever. This book paves the ways for such an understanding. *Authoritarianism* is a clear and concise overview that provides readers with a context for making sense of one of the most important-and most worrying-developments in contemporary world politics.

- 15 Bhagavad Gita/ Gandhi, Mahatma -- Mumbai: Jaico Publishing House, 2019 50750

The Bhagavad Gita, also called *The Song of the Lord*, is a 700-line section of a much longer Sanskrit war epic, the Mahabharata, about the legendary conflict between two branches of an Indian ruling family. Framed as a conversation between Krishna, an incarnation of the god Vishnu, and a general of one of the armies, the Gita is written in powerful poetic language meant to be chanted. Equally treasured as a guide to action, a devotional scripture, a philosophical text, and inspirational reading, it remains one of the world's most influential, widely read spiritual books. The *Bhagavad Gita According to Gandhi* is based on talks given by Gandhi between February and November 1926 at the Satyagraha Ashram in Ahmedabad, India. During this time—a period when Gandhi had withdrawn from mass political activity—he devoted much of his time and energy to translating the Gita from Sanskrit into his native Gujarati. As a result, he met with his followers almost daily, after morning prayer sessions, to discuss the Gita's contents and meaning as it unfolded before him.

- 20 Biogeography/ Agrawal, L.C. -- Jaipur: Rawat Publications, 2018 50569

In broad terms, Biogeography is concerned with the phenomena of the biosphere. More specifically and traditionally, biogeography has concerned itself with the study of the geographical aspects of plant and animal life, especially in terms of their distributions. The book comprises fifteen chapters providing comprehensive coverage on definition and scope of biogeography, biosphere, ecology, ecosystem, biological cycles in ecosystem, flora and their environment, plant response to their environment and adaptations, plant community, ecological succession, plant dispersal and floristic regions, biomes, geological distribution and life in the past ages, dispersal and distribution of animals and zoogeographical regions, and wildlife conservation and management. This book will provide essential reading material for both the undergraduate and postgraduate students. The text has been documented with useful diagrams and maps for better understanding.

- 21 British social theory: recovering lost traditions before 1950/ Scott,John -- : Sage Publications, 2018 50654
- A unique contribution to discussions of social theory, this book counters the argument that no social theory was ever produced in Britain before the late twentieth century. Reviewing a period of 300 years from the seventeenth century to the mid-twentieth century, it sets out a number of innovative strands in theory that culminated in powerful contributions in the classical period of sociology. The book discusses how these traditions of theory were lost and forgotten and sets out why they are important today.
- 22 Bureaucracy and public administration/ Kumar, Bijoy -- New Delhi: Book Shores, 2019 50686
- A bureaucracy is an administrative group of Nonelected officials charged with caring out functions connected to a series of policies and programmes. Modern society relies on the effective functioning of government to provide public goods, enhance quality of life, and stimulate economic growth. Bureaucracy may seem like a modern invention, but bureaucrats have served in government for nearly as long as government have existed. This important reference book provides an analysis of the basic issues and major aspects of bureaucracy, bureaucratic politics and administrative theory, public policy and public administration. In historical and contemporary perspectives. This book will be useful for students and professionals in the political science and administration.
- 23 Cambridge Companion to Gandhi/ -- New Delhi: Cambridge University Press, 2011 50751
- Even today, six decades after his assassination in January 1948, Mahatma Gandhi is still revered as the father of the Indian nation. His intellectual and moral legacy, and the example of his life and politics, serve as an inspiration to human rights and peace movements, political activists and students. This book, comprised of essays by renowned experts in the fields of Indian history and philosophy, traces Gandhi's extraordinary story. The first part of the book explores his transformation from a small-town lawyer during his early life in South Africa into a skilled political activist and leader of civil resistance in India. The second part is devoted to Gandhi's key writings and his thinking on a broad range of topics, including religion, conflict, politics and social relations. The final part reflects on Gandhi's image and on his legacy in India, the West, and beyond.
- 24 Capital and the common good: how innovative finance is tackling the world's most urgent problems/ Keohane, Georgia Levenson -- Columbia University Press, 2016 50600

Despite social and economic advances around the world, poverty and disease persist, exacerbated by the mounting challenges of climate change, natural disasters, political conflict, mass migration, and economic inequality. While governments commit to addressing these challenges, traditional public and philanthropic dollars are not enough. Here, innovative finance has shown a way forward: by borrowing techniques from the world of finance, we can raise capital for social investments today. Innovative finance has provided polio vaccines to children in the DRC, crop insurance to farmers in India, pay-as-you-go solar electricity to Kenyans, and affordable housing and transportation to New Yorkers. It has helped governmental, commercial, and philanthropic resources meet the needs of the poor and underserved and build a more sustainable and inclusive prosperity. *Capital and the Common Good* shows how market failure in one context can be solved with market solutions from another: an expert in securitization bundles future development aid into bonds to pay for vaccines today; an entrepreneur turns a mobile phone into an array of financial services for the unbanked; and policy makers adapt pay-for-success models from the world of infrastructure to human services like early childhood education, maternal health, and job training. Revisiting the successes and missteps of these efforts, Georgia Levenson Keohane argues that innovative finance is as much about incentives and sound decision-making as it is about money. When it works, innovative finance gives us the tools, motivation, and security to invest in our shared future.

- 25 *Capitalism without capital: the rise of the intangible economy/* Haskel, Jonathan and Westlake, Stian -- Princeton University Press, 2018 50601

Early in the twenty-first century, a quiet revolution occurred. For the first time, the major developed economies began to invest more in intangible assets, like design, branding, R&D, and software, than in tangible assets, like machinery, buildings, and computers. For all sorts of businesses, from tech firms and pharma companies to coffee shops and gyms, the ability to deploy assets that one can neither see nor touch is increasingly the main source of long-term success. But this is not just a familiar story of the so-called new economy. *Capitalism without Capital* shows that the growing importance of intangible assets has also played a role in some of the big economic changes of the last decade. The rise of intangible investment is, Jonathan Haskel and Stian Westlake argue, an underappreciated cause of phenomena from economic inequality to stagnating productivity.

- 26 *Celebrity society: the struggle for attention/* Van Krieken, Robert -- London: Routledge, 2019 50655

Celebrity Society: The Struggle for Attention brings new perspectives to our understanding of how the figure of 'the celebrity' is bound up with the structure and dynamics of society, economics, and politics. It outlines how the 'celebrification of society' is not just the twentieth-century product of Hollywood and television, but a long-term historical process, beginning with Christian saints, the printing press, theatre, and art.. In this second edition the author has updated

and significantly revised this path-breaking book to include a more detailed discussion of attention capital, the question of gender and celebrity, populism, fans, fandom, and self-formation, micro-celebrity, and personal or self-branding, the 'worker celebrity', and the impact of social media such as Twitter, Facebook, Instagram, and YouTube. Celebrity is an exciting and rapidly expanding field of social science, making this engaging book a valuable resource for students and scholars in sociology, politics, history, celebrity studies, cultural studies, the sociology of media, and cultural theory.

- 27 Change: what really leads to lasting personal transformation/ Kottler, Jeffrey A. 50637
-- : Oxford University Press, 2018

Change is often a mystery, one that baffles doctors, therapists, teachers, coaches, parents--and especially those of us who struggle to alter our own bad habits or make lasting improvements in our lives. Why do we suddenly change for the better after years of failed efforts? Why do some of us never escape our self-destructive behaviors, even when we desperately want to? What is it that most reliably and effectively produces growth, learning, and development that persist over time? In this vividly written volume, psychotherapist Jeffrey Kottler weaves together inspiring stories and the latest research, taking the reader on a fascinating exploration of human behavior while highlighting what does--and does not--lead to lasting change. Kottler illuminates our many efforts to change--to stop taking drugs, reduce dependencies, leave a destructive relationship, find new and more meaningful work, or adjust to a devastating accident or trauma. Readers are invited to explore key triggers such as hitting bottom, moments of clarity, the power of altruism and service, travel to new surroundings, reading or listening to stories, religious conversion, and much more. Kottler also explores why most changes don't last and what we can do to prevent relapses.

- 28 Children and television: classic edition/ Gunter, Barrie & Gunter, Jill --: 50638
Routledge, 2020

Does violence on TV lead to violent behaviour? How does screen time impact child development? What is the effect of advertising on a child's behaviour? Twenty years after the publication of the first edition of Children and Television, these issues remain as pertinent as ever. In the new Classic Edition of this core textbook, Gunter and Gunter present research evidence into the effects of television on children and their responses to it. This comprehensive work examines a wide range of issues, including children's knowledge of television and how it impacts social roles, aggressive behaviour, advertising, health orientation and both good and bad behaviour, and concludes that children are sophisticated viewers and control television far more than it controls them. The Classic Edition includes a new preface to the current context of the book, exploring the emergence of new TV channels, enhanced home recording capacity, archiving and streaming services replacing traditional forms of viewing with non-linear viewing and their impact on children.

- 29 China's digital nationalism/ Schneider, Florian -- New York: Oxford University Press, 2018 50541

China's Digital Nationalism explores online networks and their nationalist discourses in digital China. It asks what happens to national community sentiments when they go digital. Nationalism, in China as much as elsewhere, is today shared through digital information and communication technologies. It is adopted, filtered, transformed, enhanced, and accelerated through digital networks, and it interacts in complicated ways with nationalism 'on the ground'. Understanding these processes is crucial if we hope to make sense of the social and political complexities that shape the twenty-first century. In China's Digital Nationalism, Florian Schneider analyses digital China first-hand, by empirically examining what search engines, online encyclopaedias, websites, hyperlink networks, and social media accounts can tell us about the way that different actors construct and manage a crucial topic in contemporary Chinese politics: the protracted historical relationship with neighbouring Japan. Using two cases, the infamous Nanjing Massacre of 1937 and the ongoing disputes over islands in the East China Sea, Schneider shows how various stake-holders in China construct networks and deploy power to shape nationalist discourses for their own ends. These dynamics in an emerging great power, this book argues, provide crucial lessons on how nation states adapt to the shifting terrain of the digital age.

- 30 Class formation, social inequality and the Nagas in North-East India/ Kuchle, Andreas -- Routledge, 2019 50656

This book examines the question of class formation and social inequality within tribal groups in North-East India. Focussing on the Nagas, it analyses and challenges common perceptions about them as a class-less society with a uniform culture. It looks at the previously neglected themes of class formation and structure, division of work, emerging social milieus and cultural differentiation among the Naga youth – and presents fresh arguments about notions of modernity. Providing a theoretical understanding of inequality, this volume will be useful for scholars and researchers of North-East India, tribal studies, exclusion studies, sociology, social anthropology, political studies, development studies, cultural studies and South Asian studies.

- 31 Climate change: what everyone needs to know/ Romm, Joseph -- New Delhi: Oxford University Press, 2018 50570

The essential primer on what will be the defining issue of our time, CLIMATE CHANGE: What Everyone Needs to Know is a clear-eyed overview of the science, conflicts, and implications of our warming planet. From Joseph Romm, Chief Science Advisor for National Geographic's Years of Living Dangerously series and one of Rolling Stone's "100 people who are changing America," CLIMATE CHANGE offers user-friendly, scientifically rigorous answers to the most difficult (and commonly politicized) questions surrounding what climatologist Lonnie Thompson has deemed "a clear and present danger to civilization."

Questions about climate change addressed in this guide include:

- How will climate change affect day-to-day life in the coming decades?
- What are the implications of owning coastal property in the age of climate change?
- Is retirement to South Florida (or the U.S. Southwest, or even Southern Europe) safe?
- What are the implications of the United States' withdrawal from the Paris climate treaty?
- What does Donald Trump's presidency mean for climate action in the United States and around the globe?
- Are efforts to combat climate change making a difference?

- 32 Climate justice: integrating economics and philosophy/ Kanbur, Ravi & Shue, Henry -- Oxford University Press, 2019 50602

Climate justice requires sharing the burdens and benefits of climate change and its resolution equitably and fairly. It brings together justice between generations and justice within generations. In particular it requires that attempts to address justice between generations through various interventions designed to curb greenhouse emissions today do not end up creating injustice in our time by hurting the currently poor and vulnerable. The United Nations Sustainable Development Goals (SDGs) summit in September 2015, and the Conference of Parties (COP) to the Framework Convention on Climate Change in Paris in December 2015, brought climate change and its development impact centre stage in global discussions. In the run up to Paris, Mary Robinson, former President of Ireland and UN Secretary General's Special Envoy for Climate Change, instituted the Climate Justice Dialogue "to mobilize political will and creative thinking to shape an ambitious and just international climate agreement in 2015". The editors of this volume, an economist and a philosopher, served on the High Level Advisory Committee of the Climate Justice Dialogue. They noted the overlap and mutual enforcement between the economic and philosophical discourses on climate justice. But they also noted the great need for these strands to come together to support the public and policy discourse. Climate Justice: Integrating Economics and Philosophy is the result.

- 33 Climate solution: India's climate-change crisis and what we can do about it / Mridula Ramesh -- Gurugram: Hachette Book Publishing, 2018 50571

Climate change is the greatest disruptor of our time. For most of us the odds seem overwhelming and the solutions out of reach. Yet, in this forcefully argued book, climate change practitioner Mridula Ramesh emphasizes that while the solution is grim, it is not without hope. Through a discerning exploration of this multifaceted issue, she shows how employing ingenuity and initiative can help in adapting to the changing conditions. Timely, urgent and thought provoking, this book is an urgent call to action - and an essential manifesto for every Indian to follow

- 34 Code of Putinism/ Taylor, Brian D. -- New York: Oxford University Press, 2018 50542

What is Vladimir Putin up to? This book shows how the mentality of Putin and his team - the code of Putinism - has shaped Russian politics over the past two decades. It explains not only the thoughts and ideas that motivate Putin's decisions, but also the set of emotions and habits that influence how Putin and his close allies view the world. The code of Putinism has powerfully shaped the nature of Russia's political system, its economy, and its foreign policy. Taylor draws on a large number of interviews, the speeches of Putin and other top officials, and the Russian media to analyze the mentality of Team Putin. Key features of Russian politics today — such as authoritarianism, Putin's reliance on a small group of loyal friends and associates, state domination of the economy, and an assertive foreign policy - are traced to the code of Putinism. Key ideas of the code include conservatism, anti-Americanism, and the importance of a state that is powerful both at home and abroad. Dominant habits of Putin and his associates include control, order, and loyalty. Important feelings driving Russia's rulers include the need for respect, resentment about lost status and mistreatment by the West, and vulnerability. While some observers portray Putin as either a cold-blooded pragmatist or a strident Russian nationalist, Taylor provides a more nuanced and compelling interpretation of Putin's motives and actions. The Code of Putinism also shows how Putin's choices, guided by this mentality, have led to a Russia that is misruled at home and punching above its weight abroad.

- 35 Coercion: the power to hurt in international politics/ -- New York: Oxford University Press, 2018 50543

From the rising significance of non-state actors to the increasing influence of regional powers, the nature and conduct of international politics has arguably changed dramatically since the height of the Cold War. Yet much of the literature on deterrence and compellence continues to draw (whether implicitly or explicitly) upon assumptions and precepts formulated in-and predicated upon-politics in a state-centric, bipolar world. Coercion moves beyond these somewhat hidebound premises and examines the critical issue of coercion in the 21st century, with a particular focus on new actors, strategies and objectives in this very old bargaining game. The chapters in this volume examine intra-state, inter-state, and transnational coercion and deterrence as well as both military and non-military instruments of persuasion, thus expanding our understanding of coercion for conflict in the 21st century? Scholars have analyzed the causes, dynamics, and effects of coercion for decades, but previous works have principally focused on a single state employing conventional military means to pressure another state to alter its behavior. In contrast, this volume captures fresh developments, both theoretical and policy relevant. This chapters in this volume focus on tools (terrorism, sanctions, drones, cyber warfare, intelligence, and forced migration), actors (insurgents, social movements, and NGOs) and mechanisms (trilateral coercion, diplomatic and economic isolation, foreign-imposed regime change, coercion of nuclear proliferators, and two-level games) that have become more prominent in recent years, but which have yet to

be extensively or systematically addressed in either academic or policy literatures.

- 36 Cognition meaning and action: Lodz-Lund studies in cognitive science/ Piotr Lukowski; Aleksander Gemel & Bartosz Zukowski (Eds.) -- : Lodz University Press, 2015 50639

This book is filled with cutting-edge cognitive science research, with a special emphasis on psychological, linguistic, and neurobiological approaches. The volume is the result of a collaboration between the Departments of Cognitive Science at the University of Lodz and Lund University. It contains essays focusing on the key research issues tackled by both departments, including considerations of meaning, natural language and reasoning skills, linguistic and numerical competence, theories of decision making, modeling conceptual representations, cognitive and game theories and their insight into social interaction.

- 37 Cognitive evolution / Boles, David B. : Routledge, 2019 50640

Cognitive Evolution provides an in-depth exploration of the history and development of cognition, from the beginning of life on Earth to present-day humans. Drawing together evolutionary and comparative research, this book presents a unique perspective on the evolution of human cognition. Adopting an information processing perspective – that is, from inputs to outputs, with all the mental processes in between, Boles provides a systematic overview of the evolutionary development of cognition and of its sensation, movement, and perception components. The book is supported by long-established evolutionary theories and backed up by a wealth of recent research from the growing field of cognitive evolution and cognitive neuroscience to provide a comprehensive text on the subject. Cognitive Evolution is an essential read for advanced undergraduates and postgraduate students of cognitive and evolutionary psychology.

- 38 Competition's new clothes: 20 short cases on rivalry between firms/ Lévêque, François -- Cambridge University Press, 2019 50603

Lévêque recounts twenty revealing tales of real-life rivalry between firms across diverse industries, including wine, skiing, opera, video games and cruise liners. These entertaining and insightful narratives are informed by recent advances in economics, factoring in the many forces driving competition, including globalization and innovation. Divided into four sections, the book covers competition and the market; competition and variety; competition through innovation; and competition and equality. Read together, these stories also serve as building blocks to address the issue of whether competition between firms has entered a new era of increased intensity. This book will appeal to anyone, from company executives to consumers, who are interested in the economics of contemporary industry and want to incorporate a grasp of competition into their everyday decision-making. This book can also be used as a supplementary text in courses in microeconomics, business economics and industrial organisation.

- 39 Complete Biography of Mahatma Gandhi: An autobiography or the story of my experiments with truth M.K. Gandhi/ Mishra, Anil Dutta | Tater, Sohan Raj -- : - 50752
Concept Publishing, 2012 - 50754

Gandhi was a creative man with immense potential and created history for himself and rest of the world to follow. Gandhi inspired masses and masses inspired Gandhi. Even after his death, Gandhi continues to attract the attention of scholars, social activists, media, policy-makers and dreamers not only in India but abroad too. Under Gandhi influence Martin Luther King in United States of America and Nelson Mandela in South Africa used non-violence for liberating people. The Complete Autobiography of Mahatma Gandhi is thus really a story of how he has evolved into a Mahatma. It is a depiction of minute details of Gandhi spiritual journey. Volume one is An Autobiography or The Story of My Experiment with Truth written by Mahatma Gandhi and volume two is Satyagraha in South Africa. To understand Gandhi, volume I and volume II is a must book. These two books are the primary source to know and understand the basic postulates and events in Gandhi life till 1920. Volume three The Chronological Biography of Mahatma Gandhi provides minute details of his life.

- 40 Compulsion in religion Saddam Hussein, Islam, and the roots of insurgencies in Iraq/ Helfont, Samuel -- New York: Oxford University Press, 2018 50687

Samuel Helfont draws on extensive research with Ba'thist archives to investigate the roots of the religious insurgencies that erupted in Iraq following the American-led invasion in 2003. In looking at Saddam Hussein's policies in the 1990s, many have interpreted his support for state-sponsored religion as evidence of a dramatic shift away from Arab nationalism toward political Islam. While Islam did play a greater role in the regime's symbols and Saddam's statements in the 1990s than it had in earlier decades, the regime's internal documents challenge this theory. The "Faith Campaign" Saddam launched during this period was the culmination of a plan to use religion for political ends, begun upon his assumption of the Iraqi presidency in 1979. At this time, Saddam began constructing the institutional capacity to control and monitor Iraqi religious institutions. The resulting authoritarian structures allowed him to employ Islamic symbols and rhetoric in public policy, but in a controlled manner. Saddam ultimately promoted a Ba'thist interpretation of religion that subordinated it to Arab nationalism, rather than depicting it as an independent or primary political identity.

- 41 Computational propagandapolitical parties, politicians, and political manipulation on social media / Woolley, Samuel C. and Howard, Philip N. -- New York: Oxford University Press, 2019 50688

Computational propaganda is an emergent form of political manipulation that occurs over the Internet. The term describes the assemblage of social media platforms, autonomous agents, algorithms, and big data tasked with the manipulation of public opinion. Our research shows that this new mode of interrupting and influencing communication is on the rise around the globe. Advances in computing technology, especially around social automation,

machine learning, and artificial intelligence mean that computational propaganda is becoming more sophisticated and harder to track at an alarming rate. This introduction explores the foundations of computational propaganda. It describes the key role that automated manipulation of algorithms plays in recent efforts to control political communication worldwide. We discuss the social data science of political communication and build upon the argument that algorithms and other computational tools now play an important political role in areas like news consumption, issue awareness, and cultural understanding. We unpack the key findings of the nine country case studies that follow—exploring the role of computational propaganda during events from local and national elections in Brazil to the ongoing security crisis between Ukraine and Russia. Our methodology in this work has been purposefully mixed, we make use of quantitative analysis of data from several social media platforms and qualitative work that includes interviews with the people who design and deploy political bots and disinformation campaigns. Finally, we highlight original evidence about how this manipulation and amplification of disinformation is produced, managed, and circulated by political operatives and governments and describe paths for both democratic intervention and future research in this space.

- 42 Conflict Resolution and Peace Building:the Gandhian way/ Misra, R.P. and Gopal, D. -- : Concept Publishing, 2018 50833

As apparent from the contents, it covers wide-ranging sources of conflicts and the ways and means to resolve them. Among the conflicts covered by the volume are: man and environment, social and economic conflicts arising from iniquitous accessibility and distribution of natural resources, political conflicts within countries like India, Sri Lanka and Timur; and between and among countries. Satyagraha of Gandhi as the most potent means of peaceful resolution of conflicts is the central theme of chapter 4. There are chapters on conflicts resulting from terrorism, power politics, religious animosities and ideological differences. The book covers not only the conflicts and peace building attempts in India, but also in other parts of the world. Some chapters focus on social conflicts in India resulting from the division of Indian society into a unique system of castes. The last two chapters of the book deal with Sri Lankan ethnic conflict and its management and the role UNHCR in peace building in East Timur.

- 43 Confluence of thought Mahatma Gandhi and Martin Luther King, Jr./ Chakrabarty, Bidyut -- New Delhi: Oxford University Press, 2014 50755

While much has been written about Gandhi and Martin Luther King, Jr., never before has anyone compared the social and political origins and evolution of their thoughts on non-violence. In this path-breaking work, respected political theorist Bidyut Chakrabarty argues that there is a confluence between Gandhi and King's concerns for humanity and advocacy of non-violence, despite the very different historical, economic and cultural circumstances against which they developed their ideas. At the same time, he demonstrates that both were truly shaped by their historical moments, evolving their approaches to non-violence to best advance their respective struggles for freedom. Gandhi and King were perhaps the most influential individuals in modern history to combine religious and

political thought into successful and dynamic social ideologies. Gandhi emphasized service to humanity while King, who was greatly influenced by Gandhi, pursued religion-driven social action. Chakrabarty looks particularly at the way in which each strategically used religious and political language to build momentum and attract followers to their movements. The result is a compelling and historically entrenched view of two of the most important figures of the twentieth century and a thoughtful meditation on the common threads that flow through the larger and enduring nonviolence movement.

- 44 Consensual democracy:Gandhi on state, power and politics/ Pasricha, Ashu -- : 50829
Concept Publishing, 2010

Gandhi did not consider political philosophy as a distinct autonomous intellectual system separated from ethics, economics, sociology etc. as he viewed life in its totality. He looked at life en face, not in profile. Through there was for him no antithesis between spiritual and worldly matters, he had certain fundamental beliefs from which he never batted an eye. The moorings of his overall world outlook is, of course, to be found in philosophical idealism

- 45 Contemporary urban planning / Levy, John M. -- New York: Routledge, 2017 50572

Planning is a highly political activity. It is immersed in politics and inseparable from the law. Urban and regional planning decisions often involve large sums of money, both public and private, with the potential to deliver large benefits to some and losses to others. Contemporary Urban Planning, 11e provides students with an unvarnished and in-depth introduction to the historic, economic, political, legal, ideological, and environmental factors affecting urban planning today, and emphasizes the importance of considering who wins and who loses in planning decision making. The extensively revised and updated 11th edition of this beloved text tackles the most pressing recent issues in urban development—including the major turn toward reurbanization, Affordable Housing and the particular housing needs of an aging population, new developments in public transportation planning, policy, and technology, standards for "green" buildings, the second Obama administration's environmental policy and energy planning, as well as the rapidly growing and critical field of planning for natural catastrophes. Contemporary Urban Planning is an essential resource for students, city planners, and all who are concerned with the nature of contemporary urban development problems.

- 46 Corporate social responsibility and economic responsiveness in India/ Krichewsky, Damien -- Cambridge University Press, 2019 50604

Since the early 2000s, corporate social responsibility (CSR) has rapidly gained significance in India, both among large companies and as a policy instrument formally intended to foster corporate contributions to the country's development goals. This book analyses this phenomenon in relation to broader political and economic changes induced by India's 'pro-business' development strategy. Using a systems-theoretical approach, the analysis shows that 'pro-business' policies have led profit-driven economic processes to increasingly override

collective aspirations for social welfare, environmental protection, and democracy. In order to decipher how CSR changes the interplays between profit-making and developmental aspirations, the book provides detailed analyses of CSR in the cement industry and in regulatory policies adopted by the central government. It shows that CSR operates as an 'intermediary institution' which further enhances the autonomy of the economic system, as it makes profit-making more responsive to risks arising from competing collective values and interests.

- 47 Cosmic vision of Baba Nanak/ Gill, Harjeet Singh -- Delhi: LG Publishers Distributors, 2003 50841

The book presents a semiotic interpretation of the religious discourse of the fifteenth century Punjab. It is based on the verses of Baba Nanak as compiled in the Adi Granth. These compositions are highly charged metaphysical articulations, enunciating the Cosmic Vision of Baba Nanak in crystallised, rhythmic verses. The present text is an attempt at constituting the universe of signification that the discourse of the Guru presents in specific conceptual constructs.

- 48 Creative states of mind: psychoanalysis and the artist's process/ Townsend, Patricia -- : Routledge, 2019 50641

What is it like to be an artist? Drawing on interviews with professional artists, this book takes the reader inside the creative process. The author, an artist and a psychotherapist, uses psychoanalytic theory to shed light on fundamental questions such as the origin of new ideas and the artist's state of mind while working. Based on interviews with 33 professional artists, who reflect on their experiences of creating new works of art, as well as her own artistic practice, Patricia Townsend traces the trajectory of the creative process from the artist's first inkling or 'pre-sense', through to the completion of a work, and its release to the public. Drawing on psychoanalytic theory, particularly the work of Donald Winnicott, Marion Milner and Christopher Bollas, the book presents the artist's process as a series of interconnected and overlapping stages, in which there is a movement between the artist's inner world, the outer world of shared 'reality', and the spaces in-between. Creative States of Mind: Psychoanalysis and the Artist's Process fills an important gap in the psychoanalytic theory of art by offering an account of the full trajectory of the artist's process based on the evidence of artists themselves. It will be useful to artists who want to understand more about their own processes, to psychoanalysts and psychotherapists in their clinical work, and to anyone who studies the creative process.

- 50 Critical international theory: an intellectual history / Devetak, Richard -- Oxford: 50544
Oxford University Press, 2018

Whether inspired by the Frankfurt School or Antonio Gramsci, the impact of critical theory on the study of international relations has grown considerably since its advent in the early 1980s. This book offers the first intellectual history of critical international theory. Richard Devetak approaches this history by locating its emergence in the rising prestige of theory and the theoretical persona. As theory's prestige rose in the discipline of international relations it opened the way for normative and metatheoretical reconsiderations of the discipline and the world. The book traces the lines of intellectual inheritance through the Frankfurt School to the Enlightenment, German idealism, and historical materialism, to reveal the construction of a particular kind of intellectual persona: the critical international theorist who has mastered reflexive, dialectical forms of social philosophy. . In addition to the extensive treatment of critical theory's reception and development in international relations, the book recovers a rival form of theory that originates outside the usual inheritance of critical international theory in Renaissance humanism and the civil Enlightenment.

- 51 Critical themes in Indian sociology/ Sanjay Srivastava; Yasmeen Arif & Janaki 50657
Abraham (Eds.) -- Sage Publications, 2019

Critical Themes in Indian Sociology brings together the writings of a number of scholars—both well established and younger, in India and in different parts of the world—on various themes that express the richness and diversity that defines sociological scholarship on India. The book reflects changes in scholarship over time and charts out new subjects and methods for the study of social life in India. Commemorating the 50 plus years since Contributions to Indian Sociology was first published, this book is a tribute to a journal that has sustained an internationally acclaimed and rigorous sociological engagement with India. Comprising a wide range of themes such as village, city, class, caste, politics, gender, sexuality, media, food and education, this book presents a concise, yet in-depth sense of a sociological view of India today.

- 52 Crossing the border to India: youth, migration and masculinities in Nepal/ 50658
Sharma,Jeevan R. --Bloomsbury, 2018

Given the limited economic opportunities in rural Nepal, the desire of young men of all income and education levels, castes, and ethnicities to migrate has never been higher. Crossing the Border to India presents an ethnography of male labor migration from the western hills of Nepal to cities in India. Jeevan Sharma shows how not only livelihood and gender but also structural violence impact a migrant's perceptions, experiences, and aspirations. Based on long-term fieldwork, this study captures the actual experiences of those who cross the border. Sharma shows that Nepali migration to India not only allows young men from poorer backgrounds to "save there and eat here" but also offers them a strategy for escaping the more regimented social order of the village. Additionally, migrants may benefit from the opportunities extended by the "open border" between India and Nepal to attain independence and experience a distant world. In fact, however, Nepali migrants are regularly subjected to extreme ill-treatment. Thus, while the idea of freedom is an important factor in Nepali men's migration decisions, their actual experience often entails suffering and lack of freedom.

- 53 Cult of the irrelevant: the waning influence of social science on national security / Desch, Michael C. -- Princeton: Princeton University Press, 2019 50545

In *Cult of the Irrelevant*, Michael Desch traces the history of the relationship between the Beltway and the Ivory Tower from World War I to the present day. Recounting key Golden Age academic strategists such as Thomas Schelling and Walt Rostow, Desch's narrative shows that social science research became most oriented toward practical problem-solving during times of war and that scholars returned to less relevant work during peacetime. Social science disciplines like political science rewarded work that was methodologically sophisticated over scholarship that engaged with the messy realities of national security policy, and academic culture increasingly turned away from the job of solving real-world problems. In the name of scientific objectivity, academics today frequently engage only in basic research that they hope will somehow trickle down to policymakers. Drawing on the lessons of this history as well as a unique survey of current and former national security policymakers, Desch offers concrete recommendations for scholars who want to shape government work. The result is a rich intellectual history and an essential wake-up call to a field that has lost its way.

- 54 Data driven leader: a powerful approach to delivering measurable business impact through people analytics/ Dearborn, Jenny & Swanson, David -- Wiley, John & Sons, 2018 50605

The *Data Driven Leader* presents a clear, accessible guide to solving important leadership challenges through human resources-focused and other data analytics. - 55 Debate to remember the US-India nuclear deal/ Ravi, Chaitanya -- New Delhi: Oxford University Press, 2018 50689

The US–India nuclear deal, popularly known as the 123 Agreement, announced by George W. Bush and Manmohan Singh on 18 July 2005, was a defining moment in the relationship of the two countries, as also India’s relationship with the non-proliferation regime. The Bush administration’s implied recognition of India’s nuclear weapons, and its abrupt reversal of three decades of sanctions to restore Indian access to nuclear fuel, reactors, and dual-use technologies despite being a non-proliferation treaty non-signatory, led to contentious debates in both India and the USA. A Debate to Remember emphasizes the multifaceted debate in India over the nuclear deal using concepts from science and technology studies. It focuses on the intense contestation over the civil-military mix of India’s separation plan, the competition between the Iran–Pakistan–India pipeline and the nuclear deal, the role of retired nuclear scientists, and the issue of liability that has stalled the full implementation of the nuclear deal. The impact of domestic factors on issues ranging from the civil-military status of breeder reactors to the Indian insistence on no restriction on future nuclear testing in the 123 Agreement is also revealed in this book.

- 56 Debating Gandhi/ A. Raghuramaraju (Ed.) -- New Delhi: Oxford University Press, 2010 50756

This reader brings together varied interpretations of Gandhi’s views on key issues such as the impact of traditional ideas and western influences; his negotiations with modernity; and his views on truth, women, modern science and environment, caste system; in addition to his complex intellectual relationship with B.R. Ambedkar. Focusing on topics of contemporary relevance, renowned scholars—A.L. Basham, Ashis Nandy, Partha Chatterjee, A.K. Saran, Bhikhu Parekh, Sunil Sahasrabudhey, Shiv Visvanathan, Ramachandra Guha, Sumit Sarkar, Akeel Bilgrami, Madhu Kishwar, Sujata Patel, and D.R. Nagaraj—critically analyse Gandhi as a thinker and a historical phenomenon. This volume will interest students and scholars of philosophy, history, and politics as well as the general readers and admirers of Gandhi.

- 57 Debating nationalism: Aurobindo, Gandhi, Pal, Tagore and Savarkar/ Mishra, Anil Dutta and Mishra, Prem Anand -- New Delhi: Concept Publishing, 2018 50757

This book deals with how Nationalism was debated in the early decades of the twentieth century India. The book focuses on the five texts of five nationalist thinkers written during the period of 1905 to 1923 and chronologically, these are: Sri Aurobindo's Bhawani Mandir (1905), Gandhi's Hind Swaraj (1909), Bipin Chandra Pal's The Spirit of Indian Nationalism (1910); Rabindranath Tagore's Nationalism (1917) and Vinayak Damodar Savarkar's Essentials of Hindutva (1923). The study shows that the themes that most prominently come up in these texts are: a particular essential nature of India in contrast to colonial Britain,

notion of typical nature of Indian civilization, idea of nation as well as idea of India, and specific methods needed for solidarity among Indians. All these nationalist thinkers viewed these themes in their own fashion. Although, there were similarities among them on these issues, however underneath the treatment of these themes, there also exist serious differences in their thinking. These differences form multiple discourses. These discourses are not only the matter of past but they also provide substantial lessons for our present.

- 58 Democracy in the woods Environmental conservation and social justice in India, Tanzania, and Mexico/ Kashwan, Prakash -- New Delhi: Oxford University Press, 2019 50690

How do societies negotiate the apparently competing agendas of environmental protection and social justice? Why do some countries perform much better than others? Democracy in the Woods answers these questions by explaining the trajectories of forest and land rights—and the fate of forest-dependent peasants—in the forested regions of India, Tanzania, and Mexico. To organize a comparative inquiry that straddles the fields of comparative politics, historical institutionalism, and policy studies, this book develops a political economy of institutions framework. It shows that differences in structures of political intermediation—venues that help peasant groups and social movements engage in political and policy processes—explain the varying levels of success in combining the pursuits of social justice and environmental conservation. The book challenges the age-old notion that populist policies produce uniformly deleterious environmental consequences that must be mitigated via centralized systems of environmental regulation. It shows instead that the national leaders and dominant political parties that must compete for popular support in the political arena are more likely to fashion interventions that pursue conservation of forested landscapes without violating the rights of forest-dependent people. Mexico demonstrates the potential for win-win outcomes, India continues to stumble on both environmental and social questions despite longstanding traditions of popular mobilization for forestland rights, and Tanzania's government has failed its forest-dependent people despite a lucrative wildlife tourism sector. This book's political analysis of the control over and use of nature opens up new avenues for reflecting on nature in the Anthropocene.

- 59 Democracy when the people are thinking Revitalizing our politics through public deliberation/ Fishkin, James S. -- United Kingdom: Oxford University Press, 2018 50691

Democracy requires a connection to the 'will of the people'. What does that mean in a world of 'fake news', relentless advocacy, and dialogue mostly among the like-minded, and massive spending to manipulate public opinion? What kind of opinion can the public have under such conditions? What would democracy be like if the people were really thinking in depth about the policies they must live with? If they really 'deliberated' with good information about their political choices? This book argues that 'deliberative democracy' is not utopian. It is a practical solution to many of democracy's ills. It can supplement existing institutions with practical reforms. It can apply at all levels of government and for many different kinds of policy choices. This volume speaks to a recurring

dilemma: listen to the people and get the angry voices of populism or rely on widely distrusted elites and get policies that seem out of touch with the public's concerns. Instead, there are methods for getting a representative and thoughtful public voice that is really worth listening to. Democracy is under siege in most countries, where democratic institutions have low approval and face a resurgent threat from authoritarian regimes. Deliberative democracy can provide an antidote and can reinvigorate our democratic politics. This book draws on the author's research with many collaborators on 'Deliberative Polling'-a process conducted in 27 countries on six continents. It contributes both to political theory and to the empirical study of public opinion and participation. It should interest anyone concerned about the future of democracy and how it can be revitalized.

60 Development of play 4th ed./ Cohen, David -- : Routledge, 2019

50642

Why is play so important in child development? Are children in today's society suffering from a lack of time for free play, with the emerging dominance of screen play? Can play therapy help to uncover, rescue and rehabilitate children living in abusive environments, or even in war-torn countries? Is play also important for adult development? Play is a learning experience and a crucial component to childhood development as it allows children to emulate the behaviours of those around them and to develop their social skills. In this engaging book, David Cohen examines how children play with objects, language, each other, and their parents to reveal how play enables children to learn how to move, think independently, speak and imagine. Cohen suggests that much of our formative experiences of play informs our future selves, and explores how play can help us to become better parents. This new edition of *The Development of Play* offers a fascinating review of the importance of play in all our lives. It includes the latest research on the impact of digital technology, brain development, cultural differences in play and toys, and also looks at why parents sometimes choose different toys for girls and boys. The book also provides advice and guidance on how parents can play creatively and imaginatively with their children. It is essential reading for Early Years, health care and education professionals as well as undergraduate students in developmental psychology and education.

61 Digital youth network: cultivating digital media citizenship in urban communities/ Barron, Brigid and others -- : The MIT Press, 2014

50590

The popular image of the “digital native”—usually depicted as a technically savvy and digitally empowered teen—is based on the assumption that all young people are equally equipped to become innovators and entrepreneurs. Yet young people in low-income communities often lack access to the learning opportunities, tools, and collaborators (at school and elsewhere) that help digital natives develop the necessary expertise. This book describes one approach to address this disparity: the Digital Youth Network (DYN), an ambitious project to help economically disadvantaged middle-school students in Chicago develop technical, creative, and analytical skills across a learning ecology that spans school, community, home, and online. The book reports findings from a pioneering mixed-method three-year study of DYN and how it nurtured imaginative production, expertise with digital media tools, and the propensity to share these creative capacities

with others. Through DYN, students, despite differing interests and identities—the gamer, the poet, the activist—were able to find some aspect of DYN that engaged them individually and connected them to one another. Finally, the authors offer generative suggestions for designers of similar informal learning spaces.

- 62 Disaster, vulnerability and rehabilitation: a study of Uttarakhand/ Pathak, Bindeshwar and Tripathi, Satyendra -- Jaipur: Rawat Publications, 2019 50574

India is one of the world's major theatres of disasters, both natural and human-induced. India's geo-climatic conditions as well as its high degree of socio-economic vulnerability make it one of the most disaster prone countries in the world. Over last three decades, the country has witnessed 431 major disasters resulting in enormous loss of life and property. The country is highly vulnerable to floods, droughts, cyclones, earthquakes, landslides, avalanches and forest fires. The newly created state of Uttarakhand has a large chunk of geographical area under the Himalayan ecosystem which is prone to earthquakes, flash floods, landslides, forest fires and road accidents. The flash flood which was followed by land sliding in June 2013, devastated the whole economy of the state. The study calls for imperative need of sustainable and socially responsible development in the context of rampant urbanization, deforestation, and unregulated tourism activities, construction of hydropower projects and growing demand of scant resources.e. The study highlights theoretical perspectives on disasters, its prevention and mitigation along with assessment of vulnerability and risks in the context of Uttarakhand state. It further highlights the contribution of Sulabh International Social Service Organisation in rehabilitation and reconstruction of disaster affected areas in Dewali village panchayat in Rudraprayag district. It also provides in-depth analysis of profile and rehabilitation of widows of this natural calamity of 2013. It is expected that the book will be highly useful in understanding the dynamics of development and natural disasters. It demonstrates the imperative need of sustainable development in keeping the right balance among the three pillars of ecology, environment and development.

- 63 Divided city: ideological and policy contestations in contemporary urban India/ Singh, Binti and Sethi, Mahendra -- New Jersey: World Scientific, 2018 50575

The Divided City contributes to the growing body of scholarly work on cities of the global South. Cities in developing countries, particularly emerging economies, are undergoing rapid urbanization and social transition. Empirically grounded to the contemporary urban situation in India, It highlights how the urban pathway of contemporary India departs from the goal of inclusion in multiple ways — access to energy, public services, architecture, land, infrastructure, commons, and cultural and civic spaces. It simultaneously interrogates both policy and theory with intermingling issues like informality, privatization, political economy and gender divide in the contemporary Indian city. The book argues for greater urban inclusion (social, economic and environmental) acknowledged in principle, in national and international urban policy frameworks.

- 64 Divine master:life and teachings of Guru Nanak Dev/ Singh, Sewaram -- New Delhi: Gyan Publishing House, 1989 50842

It is the first ever volume in the English language, dealing with not only the remarkable life of the founder of the Sikh faith, but also his philosophy of life, in an authentic and scientific way. It gives a bird's eye view of the Sikh philosophy in the context of the old creeds—mainly Hindu and Muslim—then prevailing in India. Through over 80 years have passed since the work first saw the light of the day, its freshness of appeal is apparent for anyone who goes through the text.

- 65 Doctrine of ultimate reality in Sikh religion: a study of Guru Nanak's hymns in the Adi Granth/ Massey, James -- New Delhi: Manohar Publishers, 1991 50843

This study addresses such important questions as: Is the Ultimate Reality as seen by Nanak 'absolute' or 'personal' or 'both'? Is it transcendent or immanent or both? How does Nanak address it or does it have any name? Is this Reality with attributes or without? What is the relationship of this Reality with the visible Universe including human beings? Can this Reality be known? If so, how?

- 66 Doing politics/ Briggs, Jacqueline -- London: Routledge, 2015 50546

Aimed at politics students in their final year of secondary education or beginning their degrees, this highly readable book is the ideal introduction to politics. Doing Politics is a detailed guide to both the study and the activity of politics, which explores why we study politics, what is involved in a politics degree, and the skills and mindset that are needed to tackle the subject.

- 67 Dravidian years Politics and welfare in Tamil Nadu/ Narayan, S. -- New Delhi: Oxford University Press, 2018 50692

From Haryana to Gujarat to Maharashtra, numerous Indian states have been witness to protests by backward classes pressing for quotas and reservations. In stark contrast is the exemplary case of Tamil Nadu, which has managed to effectively integrate economic and development agenda for the backward classes into state policy. In the fifty years of rule between them, M. Karunanidhi, MGR, and J. Jayalalithaa—the iconic leaders of Tamil Nadu politics—managed to effectively transform institutions and structures to deliver a social welfare agenda in the state. Was it pure charisma on part of these leaders that gave us the unusual story of politicians and bureaucrats working hand in hand to implement a social agenda? Written by S. Narayan, who as part of the administration was both a witness to and a participant in these developments, this book is an intimate narrative on the Dravidian years of Tamil Nadu. At an important juncture of Tamil Nadu politics, it also makes us wonder: With no charismatic leader in the horizon, who can take the state forward?

- 68 Dynamics of labour use and role of genetically modified crops in cotton cultivation/ Mehta, Niti New Delhi: Academic Foundation, 2019 50524

The book explores current challenges faced by cotton farmers specially while doing the labour intensive operations in cotton cultivation, and assesses the potential socio-economic impact of the introduction of herbicide tolerant crops in

India. Besides use of secondary and published data the objectives are met through a primary survey of cotton cultivators across Gujarat. Adopting the cost of cultivation framework, the study also engages in cross section comparison of production costs of cotton and net returns across size classes of farmers. The respondents were cultivators using both traditional Bt cotton hybrids and a type that incorporates an herbicide tolerance gene. The acreage under the latter crop is reportedly becoming widespread, albeit in stealth, due to reduced labour costs and certain non-pecuniary benefits and hence merits scrutiny by policymakers. It is expected that the findings of the study will serve as inputs for policymakers, researchers and other stakeholders to target investment to improve farmers' welfare through technological change, while minimizing trade-offs.

- 69 Early Indians: the story of our ancestors and where we came from/ Joseph, Tony -- Juggernaut Books, 2018 50659

Who are we Indians? Where did we come from? Many of us believe our ancestors have lived in South Asia since 'time immemorial'. But, as it turns out, 'time immemorial' may not have been all that long ago. To tell us the story of our ancestry, journalist Tony Joseph goes 65,000 years into the past—when a band of modern humans, or Homo sapiens, first made their way from Africa into the Indian subcontinent. Citing recent DNA evidence, he traces the subsequent large migrations of modern humans into India—of agriculturalists from Iran between 7000 and 3000 BCE and pastoralists from the Central Asian Steppe between 2000 and 1000 BCE, among others. This book relies heavily on path-breaking DNA research of recent years. But it also presents earlier archaeological and linguistic evidence—all in an entertaining and highly readable manner. A hugely significant book, Early Indians authoritatively and bravely puts to rest several ugly debates on the ancestry of modern Indians. It not only shows us how the modern Indian population came to be composed as it is, but also reveals an undeniable and important truth about who we are: we are all migrants. And we are all mixed

- 70 Econometrics by example (2nd ed)/ Gujarati, Damodar -- Palgrave, 2015 50606

- 71 Economic philosophy of Mahatma Gandhi / Gupta, Shanti Swarup -- New Delhi: Concept Publishing, 1994 50758

Gandhiji's highly practical approach to life and its problems, to politics in all its ramifications, to economics, in short, in very field of human activity, takes care of the idealistic craving of the human mind. Here lies the importance of Gandhiji's thoughts and approach. In the present study Dr. S.S. Gupta has analysed some of the basic concepts of Gandhi's economic philosophy in the context of modern economic theory. The author believes that Gandhiji took life as a whole. He was not prepared to divide it into water-tight compartments. He was convinced that every part of life is interdependent and acts and reacts on each other, the sum total effect of which is on the quality of life. So, Gandhi's economic philosophy cannot be understood in isolation. Further, the fundamentals of the entire life should be common for all parts of life-economic, social, political, etc. He draws heavily from the ancient philosophy of India and wants to construct a happy society based on human values such as truth, non-violence, simplicity, etc. The world has seen that capitalism and thereafter socialism have failed to make man happy. Gandhi therefore, sets the goal of Anand (bliss) in place of welfare, where everyone will be happy. Dr. Gupta has made an excellent contribution by the present study. The simplicity of style and language, the deep insight of the author, the expert handling and critical assessment of the subject matter—all these and many other qualities of the present study heighten its value and make it a highly commendable work.

- 72 Ecuador's environmental revolutions: ecoimperialists, ecodependents, and ecoresisters/ Lewis, Tammy L -- Cambridge: The MIT Press, 2016 50576

Lewis presents a typology of Ecuador's environmental organizations: ecoimperialists, transnational environmentalists from other countries; ecodependents, national groups that partner with transnational groups; and ecoresisters, home-grown environmentalists who reject the dominant development paradigm. She examines the interplay of transnational funding, the Ecuadorian environmental movement, and the state's environmental and development policies. Along the way, addressing literatures in environmental sociology, social movements, and development studies, she explores what configuration of forces—political, economic, and environmental—is most likely to lead to a sustainable balance between the social system and the ecosystem.

- 73 Educational leadership for a more sustainable world/ Bottery, Mike -- Bloomsbury Academic, 2016 50591

Mike Bottery argues that problems in dealing with these four global challenges, as well as many crises in education, are in large part due to a failure to appreciate their complex interactions and effects, and of the need for sufficiently complex responses. The result is that many policies in many areas hinder rather than facilitate appropriate solutions. However, by showing that the dynamics of crises in educational sustainability have many similarities to those of global systems, this book argues that the adoption of a number of core practices and values can help educational leaders develop greater sustainability, not only in their own area of activity but can also help them make a valuable contribution to greater sustainability at the global level as well.

- 74 Effective teaching and successful learning: bridging the gap between research and practice/ Florio, Inez De -- Cambridge University Press, 2016 50592

The overall aim of this reader-friendly book is to enable current and prospective teachers as well as other education professionals to improve practice, leading to more successful learning for all students. Drawing on her extensive experience as both a high school teacher and a university professor, Inez De Florio provides an evidence-informed and value-based approach to teaching and learning that takes the personality and the accountability of teaching professionals into account. Students' needs and interests are the primary focus of an evidence-informed teaching model, MET (Model of Effective Teaching), which is described and exemplified in detail. In order to allow for informed decisions and suitable applications of the steps of the MET, the book provides, furthermore, a succinct and comprehensible introduction to the main features and types of educational research, especially newer findings of evidence-based education such as presented in John Hattie's research.

A research-based model of effective teaching and successful learning (MET) is presented and described in detail to allow teachers to choose programs, strategies, and techniques that work best with their particular students

- 75 Empire of disgust Prejudice, discrimination and policy in India and the US/ -- 50693
New Delhi: Oxford University Press, 2018

- 76 End of Europe Dictators, demagogues, and the coming dark age/ Kirchick, James -- : Yale University Press, 2017 50694

Once the world's bastion of liberal, democratic values, Europe is now having to confront demons it thought it had laid to rest. The old pathologies of anti-Semitism, populist nationalism, and territorial aggression are threatening to tear the European postwar consensus apart. In riveting dispatches from this unfolding tragedy, James Kirchick shows us the shallow disingenuousness of the leaders who pushed for "Brexit," examines how a vast migrant wave is exacerbating tensions between Europeans and their Muslim minorities; explores the rising anti-Semitism that causes Jewish schools and synagogues in France

and Germany to resemble armed bunkers; and describes how Russian imperial ambitions are destabilizing nations from Estonia to Ukraine. With President Trump now threatening to abandon America's traditional role as upholder of the liberal world order and guarantor of the continent's security, Europe may be alone in dealing with these unprecedented challenges.

- 77 Essential writings of Mahatma Gandhi/ -- New Delhi: Oxford University Press, 2013 50759

Mahatma Gandhi was a profound and original thinker as well as one of the most influential figures in the history of the twentieth century. A religious and social reformer, he became a notable leader in the Indian nationalist movement, made famous for his advocacy of non-violent civil resistance. His many and varied writings are essentially responses to the specific challenges he faced, and they show his maturing ideas and political will, as well as his spirituality and humanity, over several decades. This new selection demonstrates how his thinking was truly radical, dealing with problems from the roots upwards: in the lives of individuals, of societies, and of political structures. It underlines the supreme importance of non-violence, and Gandhi's unique and unrealized vision of a new India after the departure of the British.

- 78 Essentials of statistical analysis in focus 2nd ed. / Privitera, Gregory J. , Sotak, Kristin Lee & Lei, Yu -- Sage Publications, 2019 50643

Essentials of Statistical Analysis "In Focus" supports users of Gregory J. Privitera's Essential Statistics for the Behavioral Sciences, Second Edition who work with a statistical program other than SPSS or Excel. Three standalone parts, each dedicated to R, SAS, and Stata, serve as step-by-step guides for completing the "In Focus" exercises in Privitera's core text. A conversational writing style along with "To The Student" introductions allow students to familiarize themselves and become more comfortable with each program prior to making computations. Additionally, General Instruction Guidebook (GIG) sections for R, SAS, and Stata provide standardized how-to instructions for using each program, making the book a valuable reference for students beyond their studies.

- 79 Ethics and integrity in British politics How citizens judge their politicians' conduct and why it matters/ Allen, Nicholas and Birch, Sarah -- United Kingdom: Cambridge University Press, 2015 50695

Public perceptions of political ethics are at the heart of current political debate. Drawing on original data, this book is the first general account of popular understandings of political ethics in contemporary British politics. It offers new insights into how citizens understand political ethics and integrity and how they form judgments of their leaders. By locating these insights against the backdrop of contemporary British political ethics, the book shows how current institutional preoccupations with standards of conduct all too often miss the mark. While the use of official resources is the primary focus of much regulation, politicians' consistency, frankness and sincerity, which citizens tend to see in terms of right and wrong, are treated as 'normal politics'. The authors suggest that new

approaches may need to be adopted if public confidence in politicians' integrity is to be restored.

- 80 European Union How does it work?/ Kenealy, Daniel ; Peterson, John and Corbett, Richard -- United Kingdom: Oxford University Press, 2018 50696

The European Union: How does it work? is the perfect concise introduction to the EU's structure and operations for those coming to the subject for the first time. In it, an expert team of scholars and practitioners cut through the complexity to explain the key actors, policies, and developments in the European Union and how these work in practice, equipping students with the knowledge and skills they need to properly understand this complex system. The fifth edition of this successful textbook reflects the ongoing changes in the EU in light of the UK's departure from the union and the aftermath of the migration and Eurozone crises. It also features expanded coverage of democracy and legitimacy, highlighting this important and topical debate.

- 81 Everyday political economy of Southeast Asia/ Elias, Juanita and Rethel, Lena -- Cambridge University Press, 2016 50607

In this empirically rich collection of essays, a team of leading international scholars explore the way that economic transformation is sustained and challenged by everyday practices across Southeast Asia. Drawing together a body of interdisciplinary scholarship, the authors explore how the emergence of more marketized forms of economic policy-making in Southeast Asia impacts everyday life. The book's twelve chapters address topics such as domestic migration, trade union politics in Myanmar, mining in the Philippines, halal food in Singapore, Islamic finance in Malaysia, education reform in Indonesia, street vending in Malaysia, regional migration between Malaysia, Indonesia and Cambodia, and Southeast Asian domestic workers in Hong Kong. This collection not only enhances understandings of the everyday political economies at work in specific Southeast Asian sites, but makes a major theoretical contribution to the development of an everyday political economy approach in which perspectives from developing economies and non-Western actors are taken seriously.

- 82 Fair economics: nature, money and people beyond neoclassical thinking/ Schoene,Irene H. -- Green Books, 2015 50608

Modern economics bases its world view on assumptions Adam Smith made about nature and people nearly three hundred years ago, when people travelled by horse and carriage and wrote by the light of candles. We now live in a globally-connected world of digital communication and advanced technology – and yet, our economic model remains unchanged, stuck in the past. Taking a thorough look at economics and the origins of our current way of thinking, Irene Schoene puts forward a modern economics that is not only relevant to our world of technology and industry, but which also shows an awareness of how it ties in to environmental considerations.

- 83 Farmer's suicides in India: a policy malignancy/ Bodh, P.C. -- Routledge, 2019 50609

This book locates the malignant causes behind the factors leading to farmers' suicides in India. It argues that not only a combination of innovative managerial and economic policies is required to make farming profitable, but also food production within the carrying capacity of soil, water, forests and economic and social resources must still be maintained. It brings together diverse themes, such as farming development and suicide statistics, as well as the developmental inertia evident in farmers' welfare policy history. The book stresses the need to go beyond the narrow crop economics of minimum support price utility and towards recognizing the farm household economic nature of farming, reinventing the uniqueness of farmers as a productive class engaged in converting cosmic elements into food and adopting the budgetary support approach to bail out the farmers from the suicidal, debt-multiplying, production support approach. Lucid and topical, this book will be useful to scholars and researchers of political studies, political sociology, agricultural economics, political economy, public policy, sociology, agrarian and rural development studies, as also to policy analysts, governmental bodies and civil society activists.

- 84 Fieldwork training in social work/Dash, Bishnu Mohan and Roy, Sanjoy (ed) -- 50697
Abingdon: Routledge, 2020

This volume is a definitive manual for students and practitioners involved in learning and developing essential theories and models for fieldwork practicum in social work education. It addresses various functional issues in field practicum, delineates proper guidelines for students and supervisors, discusses criteria of supervision and evaluation, and explores the concerns facing South Asian field practitioners

- 85 Fire sans ire: a critical study of Gandhian non-violence/ Chakrabarti, Mohit -- 50760
New Delhi: Concept Publishing, 2005

The philosophy of non-violence, as Mahatma Gandhi advocates and actualises in principles and practice, is a rare and matchless symphony of love and truth, sympathy and sincerity, tolerance and humility. With avenues wide open and multi-dimensional, this book makes a significant departure from traditional approaches to criticism and unfolds challenging avenues of Gandhian non-violence in terms of aesthetics, mysticism, humanism, education, religion, society and spiritual excellence.

- 86 Foreign Direct Investment (FDI) and ease of doing business in India/ H.S, Madhusudana -- 50610
New Century Publications, 2019

Foreign direct investment (FDI) is a strategic instrument of development policy in India. It is envisaged to play an important role in the long-term economic development of the country by augmenting availability of capital, enhancing competitiveness of the domestic economy through transfer of technology, strengthening infrastructure, raising productivity, generating new employment opportunities and boosting exports. Since the economic liberalisation policy initiated in 1991, the Government of India has taken several measures to encourage FDI in almost all sectors of the economy. However, the emphasis has

been on inflows in the development of infrastructure and technological upgradation of industry. With a vast reservoir of skilled and cost-effective manpower, India is now recognized as one of the most attractive investment destinations by reputed international rating organisations.

- 87 Free trade and prosperity: how openness helps developing countries grow richer and combat poverty/ Panagariya, Arvind -- Oxford University Press, 2019 50611

FreeTrade and Prosperityoffers the first full-scale defense of pro-free-trade policies with developing countries at its center. Arvind Panagariya, a professor at Columbia University and former top economic advisor to the government of India, supplies a historically informed analysis of many longstanding but flawed arguments for protection. He starts with an insightful overview of the positive case for free trade, and then closely examines the various contentions of protectionists. One protectionist argument is that "infant" industries need time to grow and become competitive, and thus should be sheltered. Other arguments are that emerging markets are especially prone to coordination failures, they are in need of diversification of their production structures, and they suffer from market imperfections. The panoply of protectionist arguments, including those for import substitution industrialization, fails when subject to close logical and empirical scrutiny. Free trade and outward-oriented policies are preconditions to both sustained rapid growth and poverty alleviation in developing countries. Panagariya provides compelling evidence demonstrating the failures of protectionism and the promise of free trade using detailed case studies of successful countries such as Singapore, Taiwan, South Korea, China and India. Low or declining barriers to free trade and high or rising shares of trade in total income have been key elements in the sustained rapid growth and poverty alleviation in these countries and many others.

- 88 Friendships of 'largeness and freedom: Andrews, Tagore, and Gandhi: an epistolary account, 1912–1940/ -- New Delhi: Oxford University Press, 2018 50761

Friendships of 'Largeness and Freedom' presents the story of three remarkable individuals— Rabindranath Tagore, Mahatma Gandhi, and the Anglican missionary Charles Freer Andrews. Brought together for the first time, the letters in this volume not only bear witness to their friendship but also reveal the universal principles they adopted to pursue freedom from colonial rule. Together, the three friends have given us an alternative legacy—the legacy of a nationalism that worked with complete restraint, that cried halt to the freedom movement whenever it turned violent, and that proclaimed the way forward to be in self-suffering and not in hatred of the enemy. They firmly believed that there must be no separation between the spiritual and the political, even in a political struggle. As Tagore wrote: 'I know such spiritual faith may not lead us to political success, but I say to myself, as India has ever said: Tatah kim? Even then, what?' Offering a glimpse into the recesses of their minds, their letters help us see what their lives were like beyond the myths and legends that often surround such iconic individuals.

- 89 From silk to silicon: the story of globalization through ten extraordinary lives/ Garten, Jeffrey E. -- HarperCollins Publishers, 2016 50612

The story of globalization, the most powerful force in history, as told through the life and times of ten people who changed the world by their singular, spectacular accomplishments. This is the first book to look at the history of globalization through the lens of individuals who did something transformative, as opposed to describing globalization through trends, policies, or particular industries. From Silk to Silicon tells the story of who these men and women were, what they did, how they did it and how their achievements continue to shape our world today

- 90 Fundamentals of sustainable development/ Roorda, Niko and Corcoran, Peter Blaze and Weakland, Joseph P. -- London: Routledge, 2017 50577

The impact of development needs to be considered beyond the narrow focus of economic, ecological or social concerns. This new and expanded edition builds upon the first edition's accessible and comprehensive overview of the challenges linked to striving for a sustainable, holistic approach to development. Providing a multifaceted approach to the subject in order to encompass what is referred to as 'people, planet and profit', this second edition provides a complete update of the text, with increased coverage of new and major topics including the Sustainable Development Goals and the circular economy. An interactive and complete educational tool, the book comes with a website containing exercises, learning goals and summaries for each chapter as well as over forty video clips. It also offers a 'lecturer section' which includes a PowerPoint to accompany every chapter, and answers and explanations to the exercises. This stimulating book is an invaluable resource for students and lecturers in all disciplines who have an interest in the sustainability of our planet, and our human society and economy.

- 91 Gambling with violence state outsourcing of war in Pakistan and India/ Biberman, Yelena -- New Delhi: Oxford University Press, 2019 50698

In *Gambling with Violence*, Yelena Biberman tackles a global problem that is particularly consequential for Pakistan and India: state outsourcing of violence to ordinary civilians, criminals, and ex-insurgents. Why would these countries gamble with their own national security by outsourcing violence - arming nonstate actors inside their own borders? Drawing on over 200 interviews, archival research, and fieldwork conducted across Asia, Europe, and North America, Biberman introduces the "balance-of-interests" thesis to deepen our understanding of state-nonstate alliances in civil war. This framework centers on the distribution of power during war and shows how various combinations of interests result in distinct types of coalitions. Incorporating case studies of civil war and counterinsurgency, her book sheds light on how militias, alliances, and South Asian security connect today.

- 92 Gandhi @150 /Welukar, Rajan (ed) -- Ahmedabad: Jaico Publishing House, 2019 50777

The book explores the relevance of Mahatma Gandhi's ideas in today's world and the impact of his philosophy across a wide spectrum of areas such as

religion, economics, science, education, the arts and health and development. In this book, the contributors explain how certain Gandhian concepts can be used for our nation's advancement. Experts from various fields have contributed to this remarkable anthology. This book will help you understand why Gandhi's views are relevant now more than ever.

- 93 Gandhi after 9/11: creative nonviolence and sustainability/ Allen,Douglas -- New Delhi: Oxford University Press, 2019 50762

9/11 marked the beginning of a century that is defined by widespread violence. Every other day seems to be a furthering of the already catastrophic present towards a more disastrous tomorrow. With climate change looming over us, frequent economic instability, religious wars, and relentless political mayhem, life for what we have made of it seems more and more unsustainable. Douglas Allen insists that we look to Gandhi, if only selectively and creatively, in order to move towards a nonviolent and sustainable future. Is a Gandhi-informed swaraj technology, valuable but humanly limited, possible? What would a Gandhian world—a more egalitarian, interconnected, decentralized—of globalization look like? Focusing on key themes in Gandhi's thinking such as violence and nonviolence, absolute truth and relative truth, ethical and spiritual living, and his critique of modernity, the book compels us to rethink our positions today.

- 94 Gandhi Against Caste/ Kolge,Nishikant -- New Delhi: Oxford University Press, 2017 50763

In 1909, while still in South Africa, Gandhi publicly decried the caste system for its inequalities. Shortly after his return to India though, he spoke of the generally beneficial aspects of caste. Gandhi's writings on caste reflect contradictory views and his critics accuse him of neglecting the unequal socio-economic structure that relegated Dalits to the bottom of the caste hierarchy. So, did Gandhi endorse the fourfold division of the Indian society or was he truly against caste?

In this book, Nishikant Kolge investigates the entire range of what Gandhi said or wrote about caste divisions over a period of more than three decades: from his return to India in 1915 to his death in 1948. Interestingly, Kolge also maps Gandhi's own statements that undermined his stance against the caste system. These writings uncover the 'strategist Gandhi' who understood that social transformation had to be a slow process for the conservative but powerful section of Hindus who were not yet ready for radical reforms. Seven decades after it attained freedom from colonial powers, caste continues to influence the socio-political dynamics of India. And Gandhi against caste—the battle is not over yet.

- 95 Gandhi and 21st century/ -- New Delhi: Concept Publishing, 1998 50764

The present book 'Gandhi and 21st Century' is collection of selected articles presented during the U.G.C. sponsored National Seminar held on the eve of Gandhi's 125th Birth Anniversary Celebrations. Relevance of Gandhi has been discussed on many ways. In the present book, authors from various fields of academic disciplines have discussed the Relevance of Gandhi in the 21st Century. Unlike Marx, Gandhi would not feel enthused even by the concept of

appropriate technology because the urgent problem was to reduce rural unemployment which will be the aim of the 21st century. 21st century will be more concerned with environmental challenges of global level wars. In the first-half of the 20th century. Gandhi had led stress on environmental pollution. Gandhian ideals of Truth, Nonviolence, and equality of human beings, universal brotherhood, decentralized democracy, socialism and secularism should act as beacon light for the humanity as a whole in the 21st century; Gandhi was probably the most important philosopher whose precepts could guide the crisis ridden world of the 21st century. Thus the present book too focuses the relevance of Gandhian Thought in the 21st century also and hence the importance of this book has increased tremendously.

- 96 Gandhi and his critics/ Nanda, B.R. -- New Delhi: Oxford University Press, 2018 50765

Written for all those whose curiosity about Gandhi was sparked by Richard Attenborough's film, or for anyone who would like to know more about this strangely enigmatic leader, this is a fascinating in-depth study of Gandhi's personality and thought. The book explores the evolution of Gandhi's ideas, his attitudes toward religion, the racial problem, the caste system, his conflict with the British, his approach to Muslim separatism and the division of India, his attitude toward social and economic change, his doctrine of nonviolence, and other key issues. Throughout, the author sheds new light on the mighty figure who initiated revolutions against racism, colonialism, and violence.

- 97 Gandhi and His Religion/ Raju, P.A. -- New Delhi: Concept Publishing, 2000 50766

A mirror of the mind and work as Mahatma Gandhi considers the spinning wheel, it represents the philosophy of fullness. Such fullness is encapsulated in education, society, non violence, religion, humanism and all the finer essence of advancement for man. Gandhi highlights the spinning wheel as his mouth piece that speaks in silence, acts in adoration and sincerity, inspires in devotion and escalates in humanism. He explores the two fold philosophy of the spinning wheel: one, its apparent value in workability and usefulness, other, its tremendous inherent force to instill in everyone the every glorious spirit of the victory of man. As an unparalleled exponent of education of becoming and being, Gandhi incorporates the spinning wheel in his educational thoughts and experiments to unfold the newer dimensions of education having and loving. Consequently, the spinning wheel blesses the learner to be in perfect tune with balance and restraint, discipline and sincerity, self esteem and self dependence. The Gandhian philosophy of the spinning wheel shows the surest way for the hoi polloi to bring about a desirable social revolution long overdue. To live in simplicity and austerity, there by living in catholicity of contentment, peace and advancement is always an abiding lesson to be learnt from the spinning wheel alone. The Gandhian philosophy of the spinning wheel also endears non-violence and religion together with the most dynamic spirit of humanism. Gandhian awaits harbouring in the innermost core of the heart that spirit in contemplation as well as in action in an utterly bewildered super computerized world right now.

- 98 Gandhi and humanity/ Tripathi, Kamalapati -- New Delhi: Atlantic Publishers, 1993 50767

This is an academic book on comparative political thought with focus on Gandhian political philosophy. Written against the background of the Second World War in 1945, the book analyses the politico-economic causes of the two World Wars and discusses some political systems along with the Gandhian system, which establishes its superiority and relevance to modern world. The cultural roots and implications of Gandhian philosophy have also been discussed quoting freely from Hindu scriptures. The book's originality lies in the author's successful attempt to connect Gandhian system with Indian culture and philosophy and how the Indian approach to the life and world differs from that of the West. Documented with contemporary scholarship, the book also contains a table of the then world industrial force. Though written in jail in 1945 the book has relevance today because of world situation and the fact that Gandhi's vision is still relevant. The book should prove useful to the student, researcher, and general reader both in the country and abroad. About Author: Kamalapati Tripathi (1905-1990) the writer, journalist, editor and freedom fighter was one of the few public figures who are capable of wielding power and pen with equal ease.

- 99 Gandhi and Jesus:the end of fundamentalism/ Sternstein, Wolfgang -- New Delhi: Concept Publishing, 2014 50831

Gandhi and Jesus are brothers in spirit in spite of the great distance in space, time and cultural sphere that separates them. This is the thesis of this book. A completely new view of Jesus' life and teaching derives from Gandhi's religious thinking. It coincides to a vast extent with the findings of the Life-of-Jesus Research (which was unknown to Gandhi), but it also goes beyond it in crucial points. To the various things they have in common belongs their rejection of any kind of fundamentalism and its underlying basis, the absolute truth claim of the Abrahamic religions.

- 100 Gandhi and Nehru: reflections through letters/ Mishra, Anil Dutta -- New Delhi: Concept Publishing, 2017 50768

Sacrifice of Gandhi and Nehru for the cause of country and people was unparalleled in Indian history. We can criticise, romanticised Gandhi and Nehru which is natural due to ideological differences. But, we must remember that we cannot afford to ignore their sacrifice and contribution. Gandhi and Nehru share a rare bond of love, affection and understanding of each other thought and action. The original letters written by these two iconic personalities are reproduced here without any distortions and alterations so that the readers drew their own conclusions. These letters are treasure of information and function like a lighthouse in the journey of thought in the ocean of knowledge. These letters are chronologically arranged to enable the reader to understand Gandhi and Nehru and their relationship. The purpose of this book is to understand the two unique personalities of Modern India, Gandhi and Nehru, through their writings. A reader friendly book will be useful to researchers, social scientists, students and general readers.

- 101 Gandhi and The New Millennium/ Singh, Ramjee -- New Delhi: Commonwealth, 2018 50769

Ghandi's uniqueness lies in the fact that he was a saint among politicians and a statesman among saints. The New Millennium need a leader who is both a saint and a fighter. But his Saintliness is not meant only for his own salvation but the service of the lowliest and the lost. Then as a fighter, he would not tolerate any other injustice but on the other hand would not hurt his opponent. Today, war has become anti humanity because we have invented the instrument of total annihilation. Gandhi, therefore discovered the "moral equivalent of war.

- 102 Gandhi as Disciple and Mentor/ Weber,Thomas -- New Delhi: Cambridge University Press, 2007 50770

Thomas Weber's book comprises a series of biographical reflections about people who influenced Gandhi, and those who were, in turn, influenced by him. Whilst previous literature tended to focus on Gandhi's political legacy, Weber's book explores the spiritual, social and philosophical resonances of these relationships, and it is with these aspects of the Mahatma's life in mind, that the author selects his central protagonists. These include friends such as Henry Polak and Hermann Kallenbach, who are not as well known as those usually cited, but who left a deep impression nevertheless, and motivated some of Gandhi's major life changes. Conversely, the work of luminaries such as E. F. Schumacher and Gene Sharp reveal the Mahatma's influence in arenas which are not traditionally associated with his thinking. Weber's book offers intriguing insights into the life and thought of one of the most significant figures of the twentieth century.

- 103 Gandhi as we have known him/ Gora, Lavanam -- Delhi: Gyan Publishing House, 2007 50771

This is a work of loving reminiscence and analysis of Gandhiji. This is a refreshingly or startling original study of Gandhi's views on several of the many topics on which he expressed himself. It also has appendices which gives some background information about Gandhi's life.

- 104 Gandhi in Bombay: towards swaraj/ Thakkar, Usha & Mehta, Sandhya -- New Delhi: Oxford University Press, 2017 50773

When Gandhi landed on the bustling Bombay docks on a cold winter morning in 1915, little did he know that his journey back from South Africa would mark a turning point in history? Bombay, the nerve centre of Gandhi's many political activities, earned an enviable place in India's freedom struggle under his leadership. In 1919, Gandhi initiated his first nationwide protest, the satyagraha against the Rowlatt Act, in this city, which propelled him to the position of a pre-eminent political leader. It was here that the landmark Non-Cooperation Movement of 1920 was launched, and in 1942, the city responded with unprecedented verve to his clarion call asking the British to quit India. Gandhi was full of dogged determination and Bombay was brimming with tremendous energy-this amalgam resulted in a powerful synergy that changed the course of

the nation. Gandhi in Bombay is interspersed with the Mahatma's letters, speeches, published writings, and 50 rare photographs depicting important events in Bombay. Together they project a scintillating vision of the city in the throes of the independence movement.

- 105 Gandhi in modern world/ -- New Delhi: Concept Publishing, 2015 50774

Gandhi was a unique and iconic personality. He changed the course of history and gave world a non-violent technique of protest, change, liberation and transformation. Gandhi put ancient wisdom in modern form. Gandhi made history, and set the agenda for generations to come. Gandhi was a great man in every sense and many ways. His concerns were contemporary but timeless and borderless. Gandhi changed the world he lived in and gave new direction to what is now known as Swaraj. Gandhi is so much an inseparable part of our modern history that we cannot imagine Indian history without him. Gandhi worked all through his life to liberate India from British colonialism; but this mission of his was only a part of a larger and more encompassing mission of liberating humanity from the mythos that grip its soul, mind, and body. Gandhi tried to solve problems as they arose, following the law of Truth (morality), keeping in view the cultural background of the people, and good of the society at large. Presently, every discourse in Social Science starts and ends with Gandhi. Now Gandhi is at the centre stage in major global discussions. 'Gandhi in Modern World' covers all of his ideas and addresses to a wide range of readers in the field of social science, humanities and Gandhian Studies.

- 106 Gandhi to Gandhi: private faces of public figures/ Harvani, Ansar : Gyan Publishing House, 2014 50775

The blood-socked Partition. Consolidation backlash. A ruling dynasty. The players were unique. Gandhi, a baffing combination of Bania and Vairagi. Patel, the iron-man with his communal feet of clay. Jinnah, winner of Pakistan with the Help of his stenographer. Azad, deeply Religious yet Secular to the core, Subhas, prince among patriots exiled by his compatriots. Ambedkar, the Voice of the dumb Dait. Nehru, a socialist pretender sporting a rose after the Great Mughals. Indira who clamped Emergency to save her inherited throne. With his Double advantage of a freedom-fighter and journalist, Ansar Harvani tells us about them. Rich with first Hand experience, deep insight and heart-warming prose, the characters come alive.

- 107 Gandhi, Nehru and globalization/ Thakur, Harish K. (Ed.) -- New Delhi: Concept Publishing...2010 50776

The duo of Gandhi and Nehru has been at the core of contemporary Indian political thought. While the ideologt, morals and values of nationalism nurtured by the two remain at the centre of the major political organizations are challenges posed by the latest surge of globalization and the consequent of the traditional view. However, the ecological disaster, cultural retrogression, social alienation, human rights, growing economic disparities and the curent economic depression

are the challenges which need to be observed through a distinct perspective. The thought and the vision of Gandhi and Nehru can be significantly useful in managing the affairs. While the need of local industry, swadeshi and the proper management of labour has been seriously felt the role of planned development is equally significant. The current volume presents a series of paper regarding the relevance of Gandhi and Nehru in the globalized era. Scholars from different disciplines have contributed the papers and it is hoped that the volume would be a significant addition to the field.

- 111 Gandhian approach to peace/ Spolia, Monika -- New Delhi Concept Publishing, 2013 50785

This book is a step by step guideline of preparation on the journey of peace. Explanations follow in a simple logical and lucid manner. Many great minds from around the globe have pondered over, theorized, entertained, explained, explored and demonstrated Peace as a universal theme. However, Gandhiji was the first and only to actually exemplify by living his philosophy of peace that justified both peace as means and peace as an end-called non-violence philosophy; which was taken up by many even after the time of Gandhiji. Dr. Monika has done an excellent job in weaving together the historical patterns overtime of socio-political upheavals, unrest and the rise of unspoken bubbles of non-violence philosophy scattered around the globe ready to be burst. This book comprises of a study of various literatures—Gandhiji, Bayard Rustin, Rosa Parks and Oka blockades critiqued in the light of Non-Violence philosophy as praxis and culture. Bayard Rustin and Rosa Parks in the United States also shared Gandhian vision of non-violence. The Oka blockades in Canada witnessed an attempt of satyagraha by the First Nations people. The author in this book has successfully succeeded in presenting an objective view of peaceful ends through peaceful means.

- 113 Gandhian engagement with capital: perspectives of J. C. Kumarappa/ Redkar, Chaitra -- New Delhi: Sage Publications, 2019 50786

Gandhian Engagement with Capital: Perspectives of J C Kumarappa comprehensively presents the Gandhian ideas on economic development and political economy. Within this larger context, it focuses on the towering contributions of J C Kumarappa, the pioneer of the Gandhian model of economic development, and describes, from his standpoint, how the moral and political dispositions of Gandhism amount to a critique of capitalism. The book also covers in detail the major facets of Kumarappa's contribution to Gandhism: developing a non-mechanized, non-capitalist model of industrialization; presenting the holistic development approach; reflecting on the role of the state in facilitating a village-centric economy; and exploring the role of religion in developing the moral foundation of the Gandhian political economy. These reflect

the historical context of Kumarappa's scholarship and his deep understanding of the various dimensions of Gandhian thought. The book highlights the debates within Gandhism and imparts a nuanced understanding of other Gandhian thinkers. Further, it presents several discourses in modern Indian political thought by analysing the interplay of narratives.

- 114 Gandhian Holistic Economics/ Sharma, Shashi Prabha -- New Delhi: Concept Publishing, 1992 50787

Gandhian economics is based on a paradigm that is fundamentally different from that of modern economics. This book attempts to present a philosophical analysis of Gandhian world view, its accompanying value system and concepts, and examines in detail, how they bear upon economic principles and policy with special reference to the solution of the existing problems. The book offers a penetrating analysis of the dynamics of Gandhian thought and action. The study takes a refreshingly new approach to the concept of man and society, goal of life, meaning of growth and the means to achieve the same while interpreting Gandhian economic thought. In a lucid manner it explores the economic 'ends' and 'means' put forward by Mahatma Gandhi for peace and prosperity of mankind. In a revealing analysis, the book presents that the paradigm underlying modern economics is responsible for creating world economic crisis, incapable of being tackled by the traditional economic tools. Transformation in man and creation of economic structures based on a holistic paradigm is the challenge of the day. The intellectual readers will find this book to be fascinating but those who love challenges, will take it to be invaluable.

- 115 Gandhian humanism/ Chakrabarti, Mohit -- New Delhi: Concept Publishing, 1992 50788

Man as an infinite essence of humanism is perhaps on the verge of denouement. As an introspective visionary per excellence, Mahatma Gandhi makes serene inroads to humanism not from without but from within where the solemn phoenix of human reawakening is reborn in the holy urn of consciousness and evolution. Diverse and multi-dimensional as the Gandhian strategies of humanism are, the socio-cultural aspects of humanism side by side with religion in the form of Daridranarayana or Sarvodaya as an unparalleled aesthetic force for global human welfare bring forth a luminous and unending exposure of Gandhi as an ardent humanist. Here is an innovative study of Gandhian Humanism-towards this direction. It also makes an interesting approach to Gandhian viewpoints on education as a purified process of self-askance, self-enrichment and self-revolution to forge ahead in the quest for true humanism. A comparative study on Rabindranath Tagore and Mahatma Gandhi as harbingers of humanism is the most prominent in-depth area of research which might attract and invite erudite criticism from every esteemed reader of this book. A significant contribution to Gandhian Studies for global peace and humanism.

- 116 Gandhian Model of Development and World Peace/ Misra, R.P. -- New Delhi: Concept Publishing, 2006 50789

The Gandhian ideology is so humanistic that as long as there is conflict, violence, exploitation, injustice and poverty in the world, it will continue to be relevant. And since, these constitute the eternal problems of humanity, Gandhian ideals and ideas are also eternal. In the fury of rapid economic growth and technological development, Gandhi became a man of good but outdated thinking. Our capacity to destroy both nature and man side tracked Gandhian ideology of simple living and high thinking; of harmony and peace; of human freedom and collaborative social order; of economy without greed; and of technology that enhances human dignity. As man reached the edge of self destruction, caught by nihilistic tendencies, Gandhi has become his last hope. Gandhian ideology has become the foundation on which a peaceful and harmonious world can be built. The papers included in this volume help us recollect the values that Gandhi cherished and understand the spirit and practical wisdom underlying his thinking and work programme. Gandhi is more relevant today than he was in his own life time, is the basic message of this significant contribution to Gandhian studies and Peace Research.

- 117 Gandhian paradigm and visually impaired youth/ Arivanandham, I. -- New Delhi: 50790

Section-C, divided into seven chapters, applies Gandhian theory in following areas: conceptualisation of development, gender relations and feminism, environment, urban patterns sociology of science, fertility among minority groups and a holistic theory of population.

- 119 Gandhian Philosophy of The Spinning Wheel/ Chakrabarti, Mohit -- New Delhi: 50792
Concept Publishing, 2000

A mirror of the mind and work as Mahatma Gandhi considers the spinning wheel, it represents the philosophy of fullness. Such fullness is encapsulated in education, society, non violence, religion, humanism and all the finer essence of advancement for man. Gandhi highlights the spinning wheel as his mouth piece that speaks in silence, acts in adoration and sincerity, inspires in devotion and escalates in humanism. He explores the two fold philosophy of the spinning wheel: one, its apparent value in workability and usefulness, other, its tremendous inherent force to instill in everyone the every glorious spirit of the victory of man. As an unparalleled exponent of education of becoming and being, Gandhi incorporates the spinning wheel in his educational thoughts and experiments to unfold the newer dimensions of education having and loving. Consequently, the spinning wheel blesses the learner to be in perfect tune with balance and restraint, discipline and sincerity, self esteem and self dependence. The Gandhian philosophy of the spinning wheel shows the surest way for the hoi polloi to bring about a desirable social revolution long overdue. To live in simplicity and austerity, there by living in catholicity of contentment, peace and advancement is always an abiding lesson to be learnt from the spinning wheel alone. The Gandhian philosophy of the spinning wheel also endears non-violence and religion together with the most dynamic spirit of humanism. Gandhian awaits harbouring in the innermost core of the heart that spirit in contemplation as well as in action in an utterly bewildered super computerized world right now.

- 120 Gandhian philosophy of voluntarism: a comparative study of development in the ashram villages and outside/ Sharma, A.K. -- New Delhi: Concept Publishing, 2014 50793

The role of voluntary organizations (VDOs) cannot be overestimated in the field of rural development. However, they fall under different categories — some work purely as professional organizations and some as missions. The Banwasi Seva Ashram (BSA) belongs to the latter category and is one of the most known of the Gandhian Organizations. Set up in 1954 in the tribal region of Sonbhadra district of Uttar Pradesh, the Ashram has worked for the last six decades to transform the tribal villages. Its activities are based on Gandhian principles of Swaraj and Sarvodaya. The aim of the Ashram is to develop rural areas through the efforts of a dedicated leadership, cooperation and voluntarism. This book explores and evaluates the work done by the Banwasi Seva Ashram. It particularly focuses on the recent challenges before the Ashram and its limitations. It also provides some alternatives for Gandhian voluntary action in the future.

- 121 Gandhian Religion/ Chakrabarti, Mohit -- New Delhi: Gyan Publishing House, 2011 50794

Mahatma Gandhi represents the best of religion. He identifies religion with the vision of man christened in Truth, Beauty and Goodness. The vision of man, the embodiment of religion as Gandhi highlights in his vision of Satyabarayana or Daridranayana, bring religion at the doorstep of every society where synchronization between religion and society becomes a living reality. The education of religion towards this direction is a typical Gandhian strategy for making religion a serene way of life hitherto unknown. The aesthetics of religion

coupled with its mystic beyondings as Gandhi designs and experiments with Truth is even now a challenging task at the threshold of the twenty first century. Nationalism and religion as he harmonizes, might serve as positive guidelines for emergence of global consciousness. Religion in terms of non-violence is religion as it should be for greater excellence of man. The religion of non-violence as Gandhi Advocates, is the only way to eliminate utter ignorance in the name of religion now-a-days. An indepth study with a singnificant approach to the philosophy of religion, Gandhian Religion is a unique contribution toward Gandhian studies and research.

- 122 Gandhian Sarvodaya: realizing a realistic utopia/ Vettickal,Thomas -- New Delhi: 50795
Gyan Publishing House, 2002

The thesis of this book is to examine and explain Mahatma Gandhi's Sarvodaya as a realistic and realizable utopia in India of today in particular and in the world at large. As an ongoing utopian dialectic, sarvodaya, is being relized and yet to be realized; its realization opens up new possibilities of realization open up new possibilities of realization and in this sence Sarvodaya has great potential for realization and is realistic utopia

- 123 Gandhian satyagrahaan analytical and critical approach/ Rai, Ajay Shanker -- 50796
New Delhi: Concept Publishing, 2000

The book is an attempt to study Gandhian Satyagraha in a Philosophical way by analysing the basic principles of Satyagraha with a critical view point. It contents the basic philosophical ideas persisting in Gandhi throughout his life. The author has gave a brief life sketch of Gandhi totally philosophical without any input of political life. Secondly he went through the meaning. Objective and Sources of Satyagraha. The book also discusses the inherent fundamental principles underlying Satyagraha. The author has for the first time divided Satyagraha into two compartments Forms and Elements. Form relates to political actions and elements relates to underlying ideas of God, Truth and Non Violence. The book has detailed and elaborate explanation of all the basic thought and practices of Satyagraha, and what are the inherent contradictions. In concluding chapter the author has pluck up courage to find out how far Satyagraha and its principles are relevant now a days and what are its negative impact upon our society due to its negative implications. This book is not only for the students of Gandhian through or Philosophy but for general people as well to know Gandhian Satyagraha in its totality in context to modern times.

- 124 Gandhian Spiritualism: a quest for the essence of excellence/ Chakrabarti, Mohit 50797
-- New Delhi: Concept Publishing, 1993

Spiritualism is awakening afresh with all the essence of humanism. To Mahatma Gandhi, it is something more than mere awakening. It is a practice and poignance for manifestation of inward perfection for a better beyonding of consciousness. "A reformer with a revolutionary", as Rabindranath Tagore remarks with reverence, Mahatma Gandhi probes deep into the core of spiritualism and guides for a gradual ascent of man. His objectives and strategies for spiritualism are adorned with Sarvodaya, the welfare of one and all and also

with the aesthetic excellence of Truth, Beauty and Goodness. He makes a happy fusion between religion and spiritualism often unduly misinterpreted even now in Gandhian, and steps ahead with the vision of mysticism a serene stream of spiritual profoundness in man the non violent. A comparative study of Mahatma Gandhi and Swami Vivekananda as connoisseurs of spiritual consciousness might open out newer vistas of spiritualism and might also be endeared and appreciated as very significant contribution to Gandhian studies. The first of its kind in radical approach and innovation, Gandhian Spiritualism might contribute to the re emergence of man from the global moratorium of doped consciousness.

- 125 Gandhian theory of social reconstruction/ Dayal, Parmeshwari -- New Delhi: Atlantic Publishers, 2006 50798

Gandhian thought can be evaluated in two perspectives. One is what Gandhi basically stands for. He distrusted industrialism and had the courage to decry industrialization with mass production even when it was at its peak. In that spirit Gandhian view of Human Society is an alternative to modern Industrial Society. In the other perspective, Gandhian thought is evaluated in terms of the needs and requirements of the existing society and an attempt is made to reinterpret it to suit those requirements. In this endeavour, the basic spirit of Gandhian ideals, very often, is sacrificed or compromised. The present book Gandhian Theory of Social Reconstruction analyses Gandhian thought in the first perspective and thereby provides a rational and viable framework of Post-Industrial Human Society after Gandhian ideals. It first establishes that there is the need to find an alternative to Industrial Society and that the alternative could be based on spirituality. The concept of spirituality is discussed here in secular and sociological terms avoiding all jargons of various religions and philosophy

- 126 Gandhian's Rise to Powernational movement, power politics and independence (1920-47 AD)/ Pradhan, Prasant Kumar -- New Delhi: Commonwealth, 2018 50799

Role of different types of Gandhian workers are being discussed alongwith the structual and functional history of diffrent congress organisation of various levels. The work embadies the activities of the common Gandhians at lower level congress Organisation to prepeare a history from below.

- 127 Gandhi's dharma/ Rao, Koneru Ramakrishna -- New delhi: Oxford University Press, 2017 50800

When asked about his message to the world, the Mahatma famously said, 'My life is my message.' In him there was no room for contradiction between thought and action. His life in its totality is a series of experiments to convert dharma, moral principles, into karma, practices in action. Gandhi believed that development is a dialectical process stemming from the antinomy of two aspects latent within every individual—the brute and the divine. While the former

represents instinct-driven behaviour, the latter is one's true self, which is altruistic. Gandhi described this process in different fields, most of which are relevant even today. Gandhi's Dharma is an overview of Mahatma Gandhi—his person, philosophy, and practices. The author asserts that the basic principles governing Gandhi's thoughts—satya, ahimsa, and sarvodaya—are not relics of the past. Nor are his thoughts an obsolete list of rules. Gandhi's ideas are dynamic principles perpetually in the making, perfectly adaptable to contemporary life.

- 128 Gandhi's Legacy and A New Human Civilization/ -- New Delhi: Gyan Publishing House, 1999 50801

The Globalization of the economy, polity and culture is to the advantage of global Finance Capitalism only. A culture of human governance is required to be cultivated to project the Cultural diversity of the world as also to promote Equity and justice. For the fulfilment of this objective we need an alternative to Corporate capitalism. The first and major requirement in this direction is to get ourselves liberated from the western mind set. For this Purpose we have to rediscover Gandhi. A rediscovering of this great leader will definitely help us find out ways and means to protect the plurality and cultural diversity of the world. This Book deals with five themes viz. Gandhi's Legacy and a New Human Civilization, 'Gandhi and Secularism', 'Gandhi and Social Revolution', 'Gandhi and Sustainable Development' and 'Strategy for Nation Building' have extensively been discussed by the contributors.

- 129 Gandhi's Moral Politics/ -- London: Routledge, 2018 50802

This volume explores the scope and limits of Mahatma Gandhi's moral politics and its implications for Indian and other freedom movements. It presents a set of enlightening essays based on lectures delivered in memory of the eminent historian B. R. Nanda along with a new introductory essay. With contributions by leading historians and Gandhi scholars, the book provides new perspectives on the limits of Gandhi's moral reasoning, his role in the choice of destination by Indian Muslim refugees, his waning influence over political events, and his predicament amid the violence and turmoil in the years immediately preceding partition. The work brings together wide-ranging insights on Gandhi and revisits his religious views, which were the foundation of his morality in politics; his experience of civil disobedience and its nature, deployment and limits; Satyagraha and non-violence; and his struggle for civil rights. The volume also examines how Gandhi's South African phase contributed to his later ideas on private property and self-sacrifice. This book will be of immense interest to researchers and scholars of modern Indian history, Gandhi studies, political science, peace and conflict studies, South Asian studies; to researchers and scholars of media and journalism; and to the informed general reader.

- 130 Gandhi's Rise to Power: Indian Politics 1915-1922/ Brown, Judith M. -- New Delhi: Cambridge University Press, 2018 50803

Dr Brown presents a political study of the first clearly defined period in Mahatma Gandhi's Indian career, from 1915 to 1922. The period began with Gandhi's return from South Africa as a stranger to Indian politics, witnessed his dramatic assertion of leadership in the Indian National Congress of 1920 and ended with his imprisonment by the British after the collapse of his all-India civil disobedience movement against the raj. Focusing on Gandhi, this book nevertheless investigates the changing nature of Indian politics. It aims to study precisely what Gandhi did, on whom he relied for support, how he interacted with other nationalist leaders and how he saw his own role in Indian public life. Unlike the usual interpretation of Gandhi's rise to power as based on a charismatic appeal to the Indian masses, this study argues that his influence depended on a capacity to generate a network of lesser leaders, or subcontractors, who would organise their constituencies for him, whether these were caste, communal or economic groups or whole areas.

- 131 Gaol Experience of Mahatma Gandhi/ Mishra, Anil Dutta -- New Delhi: Concept Publishing, 2016 50804

Gandhi was a unique spiritual person. Step-by-step, he reached at the pinnacle of existence, where no one has reached before. He converted weakness as strength and became undisputed leader of India. He was a vicious reader and writer. Whatever he wrote, wrote with a purpose. Gandhi spent six years, four months, twenty four days in different jails. In a series of article Gandhi wrote about his experiences in jail. These writings are reproduced here without any distortions and alternations so that the readers drew their own conclusions. Gandhi's experimentation in gaol is unique and fundamental. Gandhi used every aspect of his life in a constructive and positive way. 'Gaol Experiences of Mahatma Gandhi' will open new vistas of research and proper understanding of Gandhi's life in prison.

- 133 Gender atlas of India with scorecard/ Kumar, Radha, Korff, Marcel and Karthika Sudhir -- New Delhi: Sage Publications, 2018 50661

A Gender Atlas of India is a seminal body of work which comprehensively maps and grades India's performance from 2001 to 2016 on issues of concern for women. Taking into account 8 overall indicators and 28 sub-indicators, it looks at how India is performing on various aspects, including sex ratio, women's education, employment, health, political participation and representation; and prevention of crimes against women. Unlike previous attempts, this book examines the change in India's performance over a 15-year period, compares the situation of women in India to that in its neighborhood and internationally, and rates each Indian state and union territory individually. The findings in this book are both provocative and incentivizing for policymakers—they show that where the central and state governments share concerns India's performance on gender has improved, but where they diverge women's condition has deteriorated even further. With data from a range of government and independent institutions, the Census of India, Family Health Surveys, UN Statistics, World Bank data, and NGO and industry surveys, this book is an essential reference for policymakers, government departments, libraries, and individuals.

- 134 Gender empowerment in local governments: prospects and debates of sustainable development in India/ Mandal, Keshab Chandra -- Kolkata: Levant Books, 2019 50526

This volume is the outcome of a recently concluded project work sponsored by the Indian Council of Social Science Research (ICSSR), under the Ministry of Human Resource Development, Government of India, New Delhi. The empirical study was conducted in three culturally and regionally distinct states of India viz. Tamil Nadu, Rajasthan and West Bengal. The main objective of the author is to examine the status and position of women in three women-headed states. The 73(1) and 74(5) Constitutional (Amendment) Acts have statutorily reserved one-third seats for women in three-tier panchayats and municipalities. But how far, after a quarter century of the enactment of the twin Constitutional Acts, women have become agents of affirmative change in local government bodies? To what extent do they participate in the local decision making bodies? And do they really enjoy any decision making power in these bodies or someone else control the affairs from remote? These are some issues which the author intended to study. How far women's empowerment has been ensured in local bodies is still a matter of debate in academic discourse and policy decisions. The present study examined extensively the state of affairs and observed women's de facto level of participation and empowerment. However, drawing on an extensive field work, interaction with a wide range of people and studying a rich variety of literature on women's participation and empowerment in political process and especially in local governments, this volume draws some findings and extends some strong and concrete policy prescriptions for actualization of gender empowerment and sustainable development of India.

- 135 Gender imperative: human security vs state security./ Betty A. Reardon & Asha Hans (Eds.) -- Routledge, 2019 50662

This collection of essays by feminist scholar-activists addresses the crucial problem of human security in a world of heavily armed, militarized states. It describes the gendered aspects of human security excluded from the realist militarism that dominates current security policy in most nation states. The book deepens and broadens current security discourses, encouraging serious consideration of alternatives to the present global security system that functions to advantage state security over human security, a system the contributors perceive to be rooted in the patriarchal nature of the nation state. This second edition will be of interest to academics and students of gender studies, women's studies, international studies, development studies, human rights, security studies, peace studies and peace education.

- 136 Gendered media : Women, men and identity politics/ Kiran,Usha -- : Book Shores, 2019 50748

The term identity politics refers to political positions based on the interests and perspectives of social groups with which people identify. Identity politics includes the ways in which the people's politics are shaped by aspects of their identity through loosely correlated social organization. It is a term widely used in Europe and was first used in France. It is used across disciplines including education sociology, psychology, politics and economics. This book is a valuable resource guide for feminist theorists, women's and gender studies students as well as political and social theorists which provides important insights into one of contemporary feminism's most central concerns.

- 139 Geopolitics: a very short introduction/ Dodds, Klaus -- Oxford: Oxford University Press, 2019 50547

Geopolitics is a slippery term. From great power politics and speculation about resource scrambles, to everyday encounters and objects such as smart phones, it affects citizens, corporations, international bodies, social movements, and governments. Geopolitics is far more than simply the impact of geographical features such as rivers, mountains, and climate on political developments. Geography matters but not necessarily in the way that pundits and presidents assume. In this Very Short Introduction, Klaus Dodds tours the field of geopolitics, encompassing both its intellectual historical origins and its current concerns. As people struggle to cross borders, moving a few feet either side of a territorial boundary can be a matter of life or death, dramatically highlighting the connections between place and politics. Even far away from the front lines of states, geopolitics remains an important part of everyday life. A country's connectivity, location, size, and resources all affect how the people that live there understand and interact with the wider world. In this third edition Dodds includes new sections considering the rise of populism and economic nationalism as examples of how states, people, and corporations manage territorial frames for political projects such as Make America Great Again, One Belt, One Road, and Brexit.

- 140 Global economic history/ Roy, Tirthankar & Riello, Giorgio -- Bloomsbury Academic, 2019 50613

As Global Economic History shows, there are many answers to these questions. Riello and Roy, alongside 20 leading academics from the US, UK, Europe, Australia and Japan, explain why a global perspective matters to economic history. The impressive cast recruited by the editors brings together top scholars in their respective areas of expertise, including John McNeill, Patrick O'Brien, and Prasannan Parthasarathi. An ambitious scope of topics ranges from the 'Great Divergence' to the rise of global finance, to the New World and the global silver economy. Chapters are organized both thematically (Divergence in Global History and Emergence of a World Economy), and geographically (Regional Perspectives on Global Economic Change), ensuring the global perspective required on these challenging courses today.

- 141 Global Gandhi: essays in comparative political philosophy/ Jahanbegloo, Ramin -- London: Routledge, 2018 50805

This book is a comparative study of Gandhi's philosophy and analyzes his relevance to modern political thought. It traces the intellectual origins of Gandhi's

nonviolence as well as his engagement with Western thinkers – ancient as well as his contemporaries. The author discusses Gandhi's exchanges with eminent thinkers like Tolstoy and Thoreau, and looks at his vision of pluralism, democracy, and violence through the lens of philosophers like Hannah Arendt, Isaiah Berlin, and Cornelius Castoriadis. Further, it explores Gandhi's association with Abdul Ghaffar Khan and the Khilafat Movement. Finally, the book examines Gandhian thought in the light of his global followers like Martin Luther King Jr and Nelson Mandela. An invaluable resource for the contemporary mind, this book will be of great interest to scholars and researchers of politics, political thought, Gandhi studies, and philosophy.

- 142 Global governance and India's North East: logistics, infrastructure and society / Ranabir Samaddar, (ed) Sengupta, Anita (ed) -- London: Routledge, 2019 50548

This book maps the convergence of governance and connectivity within Asia established through the spatial dynamics of trade, capital, conflict, borders and mobility. It situates Indian trade and governance policies within a broader Asian and global context. Focussing on India's North-East, in particular on India's Look and Act East Policy, the volume underscores how logistical governance in the region can bring economic and political transformations. It explores the projected development of the North-East into a gateway of transformative cultural interaction among people, just as the Silk Road became a conduit for Buddhism to travel along with musical instruments and tea. Comprehensive and topical, this book will be useful for scholars and researchers of political studies, international relations, governance studies, development studies, international trade and economics and for think tanks working on South and Southeast Asia

- 143 Global justice and finance/ Hayward, Tim -- Oxford University Press, 2019 50614

Can global justice be promoted by distributing money more equitably? Could even relatively small financial sacrifices by the affluent work, through benign leverage, to achieve that goal? Global Justice and Finance casts new light on such questions by considering what is presupposed about finance. Redistributive proposals assume money to be a reliable measure, store of value, and medium of exchange. Yet maintaining stable interest, inflation, and exchange rates in a dynamic capitalist economy is a considerable achievement involving a complex financial system. Such global coordination could, if so directed, contribute immensely to humanity's betterment, yet under the direction of a profit seeking elite it leaves a majority disempowered, impoverished, and indebted. To pay debts, ever more desperate measures to wrest value from the world's natural resources increase ecological pressures to harmful extremes, and those pressures do not stop short of driving wars. The profit seeking economy is held in place by the complex legal arrangements that constitute finance. Globally, there has developed, unannounced and unaccountably, what amounts to a privatised constitution - binding agreements that transcend sovereign jurisdictions. Hopes of redirecting the financial assets created within this system, by means of modest reforms, towards objectives of social justice and ecological sustainability may prove illusory. To achieve such objectives arguably requires the constitution of a global normative order guided by public and political decision-making. The achievement of a publicly accountable constitutional

order that is superordinate to the financial system might be regarded as a revolutionary transformation.

- 144 God as political philosopher: Buddha's challenge to brahminism/ Shepherd, Kancha Ilaiah -- New Delhi: Sage Publications, 2019 50699

In this provocative and scholarly book, Kancha Ilaiah Shepherd propounds a view of Gautama Buddha as India's first social revolutionary. Buddha did his best to give the principles of tribal democracy and egalitarianism a sanctuary in his own sangha. In so doing, he foreshadowed modern India's experiment with parliamentary democracy. Critical of the caste system, Buddha inducted low caste members into the sangha and made them his trusted advisers. He gave women an honoured place in the sangha. Dissent was indeed permitted, and even Buddha was not above the law.

- 145 Good life on a finite earth: the political economy of green growth/ Fiorino, Daniel J. -- Oxford University Press, 2018 50615

The potential conflict among economic and ecological goals has formed the central fault line of environmental politics in the United States and most other countries since the 1970s. The accepted view is that efforts to protect the environment will detract from economic growth, jobs, and global competitiveness. Conversely, much advocacy on behalf of the environment focuses on the need to control growth and avoid its more damaging effects. This offers a stark choice between prosperity and growth, on the one hand, and ecological degradation on the other. Stopping or reversing growth in most countries is unrealistic, economically risky, politically difficult, and is likely to harm the very groups that should be protected. At the same time, a strategy of unguided "growth above all" would cause ecological catastrophe.

- 146 Governance and administrative reforms/ Saxena, A.P. -- New Delhi: Ane Books, 2019 50700

There is today, as never before, a need to change the prevailing understanding of relationship between governance and administrative reforms and not to look at it by the difference in approach and content. Such as approach need not be a delimiting exercise but a help to actualise the emergence of a well administered responsive state. While India is increasingly recognised as an emerging economic power, its administrative underpinnings are often perceived as weak, fragile with a limited vision, encumbered by a load of irreversible - so it seems procedures and practices. All these perception reflect on the capacity for efficient and effective governance to perform beyond the transcription of issues appearing in office notes and files. This book attempts a brief profiling of interrelated but often ignored issues in which everyone in the operating administrative system

- 147 Great economic thinkers from Adam Smith to Amartya Sen/ Jonathan Conlin (Ed.) -- Speaking Tiger, 2018 50616

This volume presents an accessible introduction to the lives and works of the most influential economists of modern times. Free from confusing jargon and equations, it describes and discusses key economic concepts—among others, cognitive biases, saving, entrepreneurship, game theory, liberalism, laissez-faire and welfare economics—showing how they have come to shape how we see ourselves and our society today. All of the economists featured—Adam Smith, David Ricardo, John Stuart Mill, Karl Marx, Alfred Marshall, Joseph Schumpeter, John Maynard Keynes, and Nobel Prize-winners Friedrich Hayek, Milton Friedman, John Forbes Nash Jr, Daniel Kahneman, Amartya Sen and Joseph Stiglitz—have had a profound influence on our attitudes towards market intervention and regulation, taxation, trade and monetary policy. Each chapter combines a biographical outline of a single thinker with critical analysis of their contribution to economic thought. If you've ever wanted to find out more about the foundational concepts of modern economics—the invisible hand, Marxism, Keynesianism, creative destruction and behavioral economics, and many others—this book is perfect for you.

- 148 Guru Granth Sahib: its physics and metaphysics / Guninder Kaur -- New Delhi: Manohar Publishers, 1995 50844

The study seeks to trace the unifying force behind the trinity of Sikh metaphysics, aesthetics and dynamics. Various aspects of The Guru Granth Sahib, its pontifical status, its philosophy and its aesthetics-have been dealt with exceptional discernment and originality. A reliable guide to Sikh thought and practice by a highly accomplished and articulate interpreter of the vision of the Gurus.

- 149 Guru Nanak: the enlightened master/ Sreelata Menon -- Haryana: Penguin Random House India, 2011 50847

The founding father of Sikhism; Guru Nanak Dev was born in a little village near Lahore in Pakistan in the year 1469. In an age of religious orthodoxy; hate and disharmony; Guru Nanak came to preach and convert; to blaze a new trail. Sreelata Menon traces the life and times of this spiritual master. She brings to life stories of the birth; childhood and the search for enlightenment of a little boy who; unhappy with the social conditions existing around him; sought to make a difference as he grew up. With Mardana; his best friend and companion; Guru Nanak spent twenty years and more travelling the world to spread his message of love; truth; compassion and One God. Come rain or shine; braving all odds; winning over all kinds of people and performing miracles through the power of prayer; he spread the word of God. This is the story of an extraordinary man; who was the very embodiment of the love and compassion that he preached.

- 150 Guru Nanak Devji and Sikh history in murals/ Khalsaji, Sohan Singh -- New Delhi: Kalpaz Publications, 2004 50845

It is a unique book first of its kind that depicts Guru's life in pictures. These murals, pictures drawn on the walls, are a rare and precious history of the Sikhs, and are very vividly painted on beautiful life-like colour, on the walls of the historic building of Baba Atal, Sri Amritsar Sahib. Through some pictures are lost due to the negligence and unworthy caretaking by the people concerned, it is treasure that may not be regained once lost to us.

- 151 Guru Nanak glossary 2nd ed./ Shackle, C -- New Delhi: Heritage Publishers, 1995 50846

This is a glossary of the words found in the hymns of Guru Nanak (1469- 1539) contained in the Adi Granth, the Sikh scriptures compiled in the Gurmukhi script by the fifth Guru Arjan in 1604. It also includes all additional words found in the couplets by Guru Nanak's successor Angad, in those by the succeeding Gurus incorporated into some of Guru Nanak's longer hymns, and in the compositions attributed to Shaikh Farid. There are about 6000 entries altogether, though not all are independent words, covering one-fifth of the Adi Granth. Words are given in both Gurmukhi script and romanized transcription, with English definitions, frequency-counts, and etymologies.

- 152 Guru Nanak's blessed trail: the sacred sites across Punjab/ Sidhu, Puneetinder Kaur -- India: Lonely Planet Global Limited, 2019 50848

Published to commemorate the 550th anniversary of Sri Guru Nanak Dev Ji's Birth, this book highlights the stories surrounding the shrines across the Punjab blessed by the Guru's presence. These anecdotes offer fascinating insight into his life and times while exploring the fundamental tenets of Sikhism. Evocative and illuminating, Guru Nanak's Blessed trail is an essential read for interested readers or followers of Sikhism to understand the Guru's teachings and the history and culture of the Sikhs.

- 153 History of Adivasi women in post independence eastern India: the margins of the marginals / De, Debasree -- Sage Publications, 2018 50663

A History of Adivasi Women in Post-Independence Eastern India is a path-breaking book that explores the current status of adivasi women in the four states of eastern India with high percentages of adivasis—Bihar, Jharkhand, Odisha and West Bengal. Debasree De engages with the recent paradigm of 'development and displacement' and adivasi women's marginalization and cultural silencing. The findings in the book are based on extensive field surveys in teagardens, stone crushing sites, brick kilns and construction industries. Further, the book provides new material on the extremist villages of Jangal Mahal, Koraput, Malkangiri and Niyamgiri Hills. Linking tribe and gender, the author elaborates how forest economy is women's economy; forcible eviction by multinationals for new industries has led to severe displacement and poverty, apart from intensification of witch hunting and trafficking of girls.

- 154 How relevant is Gandhi today?: a Japanese view / Hiroichi, Yamaguchi -- New Delhi: Concept Publishing, 2015 50834

One characteristic of this book is that it takes a holistic approach and tries to see how the different aspects of Gandhi's life have interacted with one another. One more aim of the book is to see if we may extract anything out of him now, seventy years after his demise, when we are squarely to face the problems before us of building peace and solving poverty. For these purposes Gandhi's politics, socioeconomics, and his fight against communalism constitute the themes of the three key chapters. They are preceded by one on his motivation and his religion. The final one is on his international activities. A brief "Summing Up" follows. The author shows his respect to Gandhi's compassion, farsightedness, even genius, here and there, but does not hesitate to point out his mistakes. This is the result of the author's decadelong dialogue with many Indians, Gandhi's writings, and works on him.

- 155 How to write qualitative research/ Weaver-Hightower, Marcus B. -- London: Routledge, 2019 50664

Qualitative research has exploded in popularity in nearly every discipline from the social sciences to health fields to business. While many qualitative textbooks explain how to conduct an interview or analyze fieldnotes, rarely do they give more than a few scant pages to the skill many find most difficult: writing. That's where *How to Write Qualitative Research* comes in. Using clear prose, helpful examples, and lists, it breaks down and explains the most common writing tasks in qualitative research, and each chapter suggests step-by-step how-to approaches writers can use to tackle those tasks. This text provides the perfect companion for writers of almost any skill level, from undergraduates to professionals. Whether you are writing a course paper, a dissertation, or your next book, *How to Write Qualitative Research* will help you write clearer, more effective qualitative research.

- 156 Human and national security: understanding transnational challenges 2nd. Ed./ Reveron, Derek S. and Mahoney, Kathleen A.-Norris -- Oxon: Routledge, 2019 50701

Deliberately challenging the traditional, state-centric analysis of security, this book focuses on subnational and transnational forces—religious and ethnic conflict, climate change, pandemic diseases, poverty, terrorism, criminal networks, and cyber attacks—that threaten human beings and their communities across state borders. Examining threats related to human security in the modern era of globalization, Reveron and Mahoney-Norris argue that human security is national security today, even for great powers. This fully updated second edition of *Human and National Security: Understanding Transnational Challenges* builds on the foundation of the first (published as *Human Security in a Borderless World*) while also incorporating new discussions of the rise of identity politics in an increasingly connected world, an expanded account of the actors, institutions, and approaches to security today, and the ways diverse global actors protect and promote human security.

- 157 Human geography/ Husain, Majid -- Jaipur: Rawat Publications, 2018 50580

Human Geography has been defined as the synthetic study of the relationship between human societies and their environment. The new edition of Human Geography is a textbook for geography students at the university level. It is primarily designed to introduce the discipline in a social science perspective. It is also the objective to identify the human problems and the role of man in shaping the face of the earth. One of the distinguishing features of the book is that it covers a wide canvas of Human Geography. The text has been written in a lucid, cogent and convincing style, and illustrated with appropriate maps and examples from the developed and developing countries of the world. The data about the human phenomena change rapidly in space and time. In response to the changing facts of Human Geography and positive response from the civil services aspirants and the teachers of geography, this edition has been revised thoroughly. Besides extensive updates in all the chapters, two new chapters: 'Agricultural Systems of the World' and 'Minerals and Manufacturing', have been added in the new edition. Documented with hundreds of maps and diagrams, dozens of tables and plates, the book shall be of immense help to the students, teachers and researchers alike. As with previous editions, the book retains its comprehensive coverage that has made it an indispensable resource for students.

- 158 Humanizing Science and Technology:some case studies/ Jauhari, Vinnie and Wasan, Parul -- New Delhi: Concept Publishing, 2014 50830

The book is based on successful interventions implemented in India with powerful lessons for policy-makers, NGO's and corporate firms. A range of these have been covered in the book such as empowerment of women, sustainable livelihoods, sustainable health for all, corporate social responsibility and communities. The book draws insights from Gandhian philosophy which suggests that only human beings can create a society that is egalitarian, decentralised, peace loving, and progressive. There is a need to balance economic growth with social regeneration by involving the poor in the larger interests of the society; and to rearticulate technology to suit the aptitude and skills of the people. Only those cases have been included in this volume which have been successfully demonstrated in India and can be replicated elsewhere with appropriate contextual changes.

- 159 Humans and lions: conflict, conservation and coexistence/ Somerville, Keith -- London: Routledge, 2020 50581

This book places lion conservation and the relationship between people and lions both in historical context and in the context of the contemporary politics of conservation in Africa. The killing of Cecil the Lion in July 2015 brought such issues to the public's attention. Were lions threatened in the wild and what was the best form of conservation? How best can lions be saved from extinction in the wild in Africa amid rural poverty, precarious livelihoods for local communities and an expanding human population? This book traces man's relationship with lions through history, from hominids, to the Romans, through colonial occupation and independence, to the present day. It concludes with an examination of the current crisis of conservation and the conflict between Western animal welfare

concepts and sustainable development, thrown into sharp focus by the killing of Cecil the lion. Through this historical account, Keith Somerville provides a coherent, evidence-based assessment of current human-lion relations, providing context to the present situation. This book will be of interest to students and scholars of environmental and African history, wildlife conservation, environmental management and political ecology, as well as the general reader

- 160 Hymns of Guru Nanak/ Singh, Khushwant and Singh, Arpita -- Hyderabad: 50849
Orient Longman, 1991

An illustrated edition containing selected hymns of the ten Sikh Gurus, from Guru Nanak to Guru Gobind Singh, translated by Khushwant Singh. Sacred hymns from the Guru Gobind Singh.

- 161 Hymns of the Sikh Gurus/ Singh, Nikky-Guninder Kaur -- Haryana: Penguin 50850
Random House, 1995

The vision of Guru Nanak, the fifteenth-century founder of the Sikh faith, celebrated the oneness of the Divine that both dwells within and transcends the endless diversity of life. Guru Nanak's immaculate vision inspired the rich and inclusive philosophy of Sikhism, which is reflected in this exquisite and highly acclaimed translation of poems from the religion's most sacred texts: the Guru Granth Sahib, the principal sacred text of the Sikh religion, which consists of poems and hymns by Guru Nanak, his successors and Hindu and Islamic saints; and the Dasam Granth, a collection of devotional verses composed by the tenth Sikh Guru. Poetry from these highly revered texts is heard daily and at rites of passage and celebration in Sikh homes and gurdwaras, carrying forward the Sikh belief in the oneness and equality of all humanity.

- 162 Immigrant families / Menjivar,Cecilia; Abrego,Leisy J. and Schmalzbauer,Leah 50665
C. -- Polity Press, 2016

Immigrant Families aims to capture the richness, complexity, and diversity that characterize contemporary immigrant families in the United States. In doing so, it reaffirms that the vast majority of people do not migrate as isolated individuals, but are members of families. There is no quintessential immigrant experience, as immigrants and their families arrive with different levels of economic, social, and cultural resources, and must navigate various social structures that shape how they fare. Immigrant Families highlights the hierarchies and inequities between and within immigrant families created by key axes of inequality such as legal status, social class, gender, and generation. Drawing on ethnographic, demographic, and historical scholarship, the authors highlight the transnational context in which many contemporary immigrant families live, exploring how families navigate care, resources, expectations, and aspirations across borders. Ultimately, the book analyzes how dynamics at the individual, family, and community levels shape the life chances and wellbeing of immigrants and their families. As the United States turns its attention to immigration as a critical social issue, Immigrant Families encourages students, scholars, and policy makers to center family in their discussions, thereby prioritizing the human and relational element of human mobility.

- 163 Immiserizing growth: when growth fails the poor/ Paul Shaffer; Ravi Kanbur & Richard Sandbrook (Eds.) -- : Oxford University Press, 2019 50617

Immiserizing growth occurs when growth fails to benefit, or harms, those at the bottom. It is not a new concept, appearing in some of the towering figures of the classical tradition of political economy including Malthus, Ricardo, and Marx. It is also not empirically insignificant, occurring in between 10% and 35% of cases. In spite of this, it has not received its due attention in the academic literature, dominated by the prevailing narrative that 'growth is good for the poor'.. Taking a diverse disciplinary perspective, Immiserizing Growth combines discussion of mechanisms of this troubling economic phenomenon with empirical data on trends in growth, poverty, and related welfare indicators. It draws on political economy, applied social anthropology, and development studies, including contributions from experts in these fields. A number of methodological approaches are represented including statistical analysis of household survey and cross-country data, detailed ethnographic work and case study analysis drawing on secondary data. Geographical coverage is wide including Bolivia, the Dominican Republic, Ecuador, India, Indonesia, Mexico, Nigeria, the People's Republic of China, Singapore, and South Korea, in addition to cross-country analysis.

- 164 Impact of Ambedkar movement on Dalits/ Usha Kiran -- New Delhi: Ishwar Books, 2018 50666

The condition of dalit movements after baba sahab has witnessed many ups and downs. On the side a categorical awakening among stagnant after Dr. Ambedkar mainly due to ideological deposition of stagnation. It would be opportune to look at the post baba Sahib Ambedkar the dalit movement and do a stock taking of the changes within the dalit's politics to understand the phenomenon. ups and down through which the dalit politics passed through after the death of Baba Sahab can be broadly divided into three Phase-rise and fall of the republication party emergence of Dalits panthers and thirdly the assertion of Dalit's for political power and their consequent refusal to remain satisfied merely with education and job opportunities arising out of the policy of reservation. There is no need to underline the immense potentialities in the phenomenon of dalit assertion in today's caste ridden polity. there is no denying the fact that it is a step ahead in the real democratization of Indian Society and the polity dominated by Brahminical values and traditions despite near six decade experiment in electoral democracy.

- 165 In search of Gandhi: essays and reflections/ Nanda,B.R -- New Delhi: Oxford University Press, 2004 50806

The twenty-nine essays in this book are insightful and sympathetic analyses of various facets of Gandhi's multi-dimensional personality.

- 166 In their own words understanding Lashkar-e-Tayyaba/ Fair, C. Christine -- New Delhi: Oxford University Press, 2019 50702

One of the 'five books that explain Kashmir's decades long crisis' -- Financial Times, 2019 'Fair gives a detailed account of the LeT's ideological roots, organisational structure and its evolution as a hydra-headed social and militant outfit.' -- The Hindu 'This book is a very welcome academic treatment of an important 'security' institution in Pakistan.' -- Commonwealth & Comparative Politics 'Navigating the complexities of one of the world's most ambitious modern Muslim states, Fair brings an impressive thoroughness of research to unpacking the internal doctrines, recruitment strategies, and objectives of Lashkar-e-Tayyaba. With unflinching verve, Fair shows why conflict resolution focusing on bilateral negotiations between India and Pakistan or on de-radicalising militant networks of young men ignore deeper causes of violence

- 167 India and China in Asia Between equilibrium and equations/ Panda, Jagannath P.(ed) -- : Routledge, 2019 50703

This book analyses the structure of the India–China relationship and the two prominent powers’ positions with and against each other, bilaterally and globally, in a complex Asian environment and beyond. India and China’s perceptions of one another are evaluated to reveal how the order of Asia is influenced by engaging in different power equations that affect equilibrium and disequilibrium. Contributors address three critical perspectives of India and China in Asia which are increasingly shaping the future of Asia and impacting the Indo-Pacific power balance. First, they examine the mutual perceptions of India and China as an integral part of Asia’s evolving politics and the impact of this on the emerging Asian order and disorder. Second, they assess how classical and contemporary characteristics of the India–China boundary and beyond-border disputes or conflicts are shaping Asia’s political trajectory and leaving an impact on the Indo-Pacific region. Additionally, contributors observe the prevailing power equations in which India and China are currently engaged to reveal that they are not only geographically limited to the Asian region. Instead, having a strong global or intercontinental character attached to it, the India–China relationship involves extra-territorial powers and extra-territorial regions.

- 168 India and the anglosphere/ Davis, Alexander E. -- New York: Routledge, 2019 50704

India has become known in the US, the UK, Canada and Australia as ‘the world’s largest democracy’, a ‘natural ally’, and the ‘democratic counterweight’ to China and a trading partner of ‘massive economic potential’. This new foreign policy orthodoxy assumes that India will join with these four states and act just as any other democracy would. A set of political and think tank elites has emerged which seek to advance the cause of a culturally superior, if ill-defined, ‘Anglosphere’. Building on postcolonial and constructivist approaches to international relations, this book argues that the same Eurocentric assumptions about India pervade the foreign policies of the Anglosphere states, international relations theory and the idea of the Anglosphere. The assertion of a shared cultural superiority has long guided the foreign policies of the US, the UK, Canada and Australia, and this has

been central to these states' relationships with postcolonial India. This book details these difficulties through historical and contemporary case studies, which reveal the impossibility of drawing India into Anglosphere-type relationships. At the centre of India-Anglosphere relations, then, is not a shared resonance over liberal ideals, but a postcolonial clash over race, identity and hierarchy.

- 169 India in the 21st century: what everyone needs to know/ Kamdar, Mira -- New Delhi: Oxford University Press, 2018 50550

India is fast overtaking China to become the most populous country on Earth. By mid-century, its 1.7 billion people will live in what is projected to become the world's second-largest economy after China. While a democracy and an open society compared to China, assertive Hindu nationalism is posing new challenges to India's democratic freedoms and institutions at a time when illiberal democracies and autocratic leaders are on the rise worldwide. How India's destiny plays out in the coming decades will matter deeply to a world where the West's influence in shaping the 21st century will decline as that of these two Asian giants and other emerging economies in Africa and Latin America rise. In *India in the 21st Century*, Mira Kamdar, a former member of the New York Times Editorial Board and an award-winning author, offers readers an introduction to India today in all its complexity. In a concise question-and-answer format, Kamdar addresses India's history, including its ancient civilization and kingdoms; its religious plurality; its colonial legacy and independence movement; the political and social structures in place today; its rapidly growing economy and financial system; India's place in the geopolitical landscape of the 21st century; the challenge to India posed by climate change and dwindling global resources; wealth concentration and stark social inequalities; the rise of big data and robotics; the role of social media and more. She explores India's contradictions and complications, while celebrating the merging of India's multicultural landscape and deep artistic and intellectual heritage with the Information Age and the expansion of mass media.

- 170 India-China maritime competition: the security dilemma at sea/ edited by Basrur, Rajesh Mukherjee, Anit and Paul, T.V. -- London: Routledge, 2019 50549

This edited volume critically examines the concept of the "security dilemma" and applies it to India–China maritime competition. Though frequently employed in academic discussion and popular commentary on the Sino-Indian relationship, the term has rarely been critically analysed. The volume addresses the gap by examining whether the security dilemma is a useful concept in explaining the naval and foreign policy strategies of India and China. China's Belt and Road Initiative and its expansive engagement in the Indian Ocean Region have resulted in India significantly scaling up investment in its navy, adding ships, naval aircraft and submarines. This volume investigates how the rivalry is playing out in different sub-regions of the Indian Ocean, and the responses of other powers, notably the United States and prominent Southeast Asian states. Their reactions to the Sino-Indian rivalry are an underexplored topic and the chapters in this book reveal how they selectively use that rivalry while trying to steer clear of making definite choices. The book concludes with recommendations on

mitigating the security dilemma. This work will be of great interest to students of strategic studies, international relations, maritime security, and Asian politics

- 171 Indian business: understanding a rapidly emerging economy/ Pawan S. Budhwar; Arup Varma & Rajesh Kumar (Eds.) -- : Routledge, 2019 50618

Indian Business brings together a wide range of experts to present a comprehensive insight into doing business in India. It draws on research-based evidence and expert coverage of the emerging political, legal and social frameworks. It is divided into three parts: the Indian business context, conducting business in India, and emerging practices relevant for foreign investors. Each chapter outlines the context and justification for study, along with an analysis of the present situation and future options. Useful features include a case study with questions for analysis, and links to useful web resources. This book provides business practitioners and students with a thorough understanding of how to start and grow successful organizations in India.

- 172 Indian Federalism/ Tillin, Louise -- New Delhi: Oxford University Press, 2019 50705

Here is an authoritative introduction to federalism and centre-state relations in India. Paying attention to the constitutional, political and economic dimensions that affect the relationship between the central government and the states in India, the book stimulates understanding of some of the big dilemmas facing India today. In order to get to the bottom of how policies are made and the impacts they have in India's complex multi-level political and economic ecosystem, an appreciation of federalism is needed. The ability of the central government to reduce inequality between regions and promote economic dynamism, or the ability of India's states to define their own policy agendas that speak to local needs and priorities, are all shaped by federal institutions and practices. Institutional recognition of societal diversity and the rights of minorities are also protected, and sometimes contested, through federalism. How to achieve a balance between regional political and economic autonomy, and the scope for authoritative policy making by the central government, are some of the thorniest issues facing India.

- 173 Indian fiscal federalism/ Reddy, Y.V. & Reddy, G.R. -- : Oxford University Press, 2019 50619

Likening fiscal federalism to a game between the Union and the States, and among the States themselves, Indian Fiscal Federalism lays bare the complex rules of play. It examines the pivotal role of Finance Commissions and assesses momentous events since 2014, such as the replacement of the Planning Commission by NITI Aayog, the emergence of the GST Council, and the controversies surrounding the Fifteenth Finance Commission.

The book offers a historical perspective on fiscal federalism, in particular the interplay and overlap of institutional mechanisms. In doing so, it examines persistent as well as immediate concerns, and offers a way forward.

A contemporary, timely, and comprehensive analysis of fiscal federalism in India, this is a must-read for all those interested in the subject.

- 174 Indian foreign policy/ Ganguly, Sumit -- New Delhi: Oxford University Press, 2019 50706

Following the end of the Cold War, the economic reforms in the early 1990s, and ensuing impressive growth rates, India has emerged as a leading voice in global affairs, particularly on international economic issues. Its domestic market is fast-growing and India is becoming increasingly important to global geo-strategic calculations, at a time when it has been outperforming many other growing economies, and is the only Asian country with the heft to counterbalance China. Indeed, so much is India defined internationally by its economic performance (and challenges) that other dimensions of its internal situation, notably relevant to security, and of its foreign policy have been relatively neglected in the existing literature. This handbook presents an innovative, high profile volume, providing an authoritative and accessible examination and critique of Indian foreign policy. The handbook brings together essays from a global team of leading experts in the field to provide a comprehensive study of the various dimensions of Indian foreign policy

- 175 Indian nuclear policy/ Pant, Harsh V. and Joshi, Yogesh -- New Delhi: Oxford University Press, 2018 50707

India has come a long way from being a nuclear pariah to a de facto member of the nuclear club. The transition in its nuclear identity has been accompanied by its transformation into a major economic power and underlines a pragmatic turn in its foreign-policy thinking. This book provides a historical narrative of the evolution of India's nuclear policy since 1947, as the country continues its pursuit for complete integration into the global nuclear order. Situating India's nuclear behaviour in this context, the book explains how India's engagement with the atom is unique in international nuclear history and politics. Aided by declassified archival documents and oral history interviews, it focuses on how status, security, domestic politics, and the role of individuals have played a key role in defining and shaping India's nuclear trajectory, policy choices, and their consequences.

- 176 Indian Ocean: the new frontier/ edited by Azam, Kousar J -- New Delhi: Manohar Publishers, 2019 50551

The present volume curates papers presented at an international conference organized at OUCIP to engage with the oceanic turn in different fields of knowledge embracing Social Sciences, Humanities and, Physical Sciences to project the Indian Ocean as the new frontier of research across various disciplines. The papers are divided into four sections: The Oceanic Reach has papers reflecting on the received knowledge regarding the historical role and reach of the Indian Ocean and providing new insights in the evolving dynamics of the region. The section on Literature and Culture has essays reflecting the different trajectories within Humanities and Cultural Studies through which Indian Ocean has stimulated the imagination of scholars, intellectuals, diasporic writers, and culture historians. The section on Roots and Routes includes accounts of the historical, cultural, religious, trade and diasporic linkages across oceanic communities inhabiting the vast expanse of the Indian Ocean. The final section

on Power Games includes papers that deal with the increasing interests of various international powers in the Indian Ocean region particularly in the context of the shift from the Asian land mass to the enormous presence of the Indian Ocean, and the economic, political and strategic significance that it has for the entire region. Taken together these contributions offer both an opportunity and a challenge for interested scholars to engage with Indian Ocean as a new frontier of knowledge with enormous potential for research and exploration

- 177 India-Pakistan wars and the Kashmir crisis/ Indurthy, Rathnam -- : Routledge, 2019 50708

This book examines the origins of the conflict between two nuclear powers – India and Pakistan – and the instability and violence in the disputed territory of Kashmir. It presents to its readers a chronology of events and political decisions that have led to an intractable situation of the present, many decades since the stand-off between India and Pakistan started. Rathnam Indurthy traces the origins of the constant war-like situation between the two most powerful nuclear powers in South Asia through war and peace, agreements and talks, and political leaders and generals. From Indira Gandhi to Vajpayee, and from Zia-ul-Haq, Parvez Musharraf and Nawaz Sharif, the volume lays bare the various machinations on the political chessboard. It also looks at the internal issues and politics of Kashmir and offers explanations as well as solutions for the resolution of the festering impasse the two nations have reached.

- 178 India's contemporary urban conundrum / Patel, Sujata and Goyal, Omita -- 50582
London: Routledge, 2019

This book lays out the different and complex dimensions of urbanisation in India. It brings together contributors with expertise in fields as varied as demography, geography, economics, political science, sociology, anthropology, architecture, planning and land use, environmental sciences, creative writing, filmmaking and grassroots activism to reflect on and examine India's urban experience. It discusses various dimensions of city life—how to define the urban; the conditions generating work, living and (in) security; the nature of contemporary cities; the dilemmas of creating and executing urban policy, planning and governance; and the issues concerning ecology and environment. The volume also articulates and evaluates the way Indian urbanism promotes and organises aspirations and utopias of the people, whilst simultaneously endorsing disparities, depravities and conflicts. The volume includes interventions that shape contemporary debates. Comprehensive, accessible and topical, it will be useful to scholars and researchers of urban studies, urban sociology, development studies, public policy, economics, political studies, gender studies, city studies, planning and governance. It will also interest practitioners, think tanks and NGOs working on urban issues.

- 179 India's pursuit of energy security: domestic measures, foreign policy and geopolitics / Sharma, Ashok -- : Sage Publications, 2019 50709

This book is a comprehensive examination of the dynamics of India's energy security policy in the domestic and international context. Over the past decade and a half, energy security has been a constant driver of India's foreign policy. Successive Indian governments have emphasized it as a major concern, next only to food security. The long-term satisfaction of India's energy security needs calls for a fresh and multi-pronged approach. This is imperative in the light of the recent dynamics of India's foreign policy and the challenges that India is facing in its quest for energy security, mainly in the context of diversification of sources abroad and shift to alternative sources in a carbon-controlled environment. This is further intensified in the context of the complex and competitive strategic rivalry between India and China in the Indo-Pacific region, as India looks outward and expands its outreach to meet its pressing energy security challenges. The book presents an in-depth analysis of all such domestic and foreign policy challenges and measures to meet India's fast-growing energy demand in a competitive geopolitical environment.

- 180 India's spatial imaginations of South Asia: power, commerce and community/ Chatterjee, Shibashis -- : Oxford University Press, 2019 50710

By mapping India's spatial imaginations underlying Indian foreign policy toward South Asia, Shibashis Chatterjee argues that India's understanding of its neighbourhood is informed by a politics of realism as South Asia remains a 'space' defined in terms of power and sovereign territoriality in contrast to alternative imaginations based on the market or community. This understanding is one of India's ruling elites consisting of politicians, cutting across party lines, key bureaucrats, army chiefs, and influential policy intellectuals. While alternative imagination/s of South Asia is indeed ideationally possible, the politics necessary to make this happen is virtually nonexistent. While India's relations with neighbours have varied with regimes over time, these have moved between fixed points of references, constituted by its imagination of South Asia as a space of power and territorial control. The book tells a story of India's spatial imaginations of its neighbourhood and reveals how the differentiated cartography of territorial nationalism still looms large on our shared ontology of social space.

- 181 Industries of the future/ Ross, Alec -- : Simon & Schuster, 2016 50620

In *The Industries of the Future*, Ross provides a "lucid and informed guide" (Financial Times) to the changes coming in the next ten years. He examines the fields that will most shape our economic future, including robotics and artificial intelligence, cybercrime and cybersecurity, the commercialization of genomics, the next step for big data, and the impact of digital technology on money and markets. In each of these realms, Ross addresses the toughest questions: How will we have to adapt to the changing nature of work? Is the prospect of cyberwar sparking the next arms race? How can the world's rising nations hope to match Silicon Valley with their own innovation hotspots? And what can today's parents do to prepare their children for tomorrow?

- 182 Inside education: exploring the art of good learning/ O'Brien, Stephen -- Routledge, 2016 50593

Using a critical ethnography approach, each research narrative naturally unfolds/enfolds to tell a more complete learning story. All those interested in education are primed readers. By (re-)viewing their own learning outlook, they may begin to advance deeper critical ideas and debates in education. Teachers, educational researchers, parents and guardians will be particularly interested readers. Inside Education is a thought-provoking, challenging and revealing journey inside the world of education and learning. Its exploration of school and classroom practices in a range of different settings provides important insights into how we learn – a central aspect of our education system which remains overlooked and understudied. In doing so, it lays down a challenge to policy-makers and educators everywhere to think differently about the way we learn and, ultimately, help students fulfil their real potential.'

- 183 Interpretive social science: an anti-naturalist approach/ Bevir, Mark and Blakely, Jason -- Oxford University Press, 2018 50667

In this book Mark Bevir and Jason Blakely set out to make the most comprehensive case yet for an 'interpretive' or hermeneutic approach to the social sciences. Interpretive approaches are a major growth area in the social sciences today. This is because they offer a full-blown alternative to the behavioralism, institutionalism, rational choice, and other quasi-scientific approaches that dominate the study of human behavior. In addition to presenting a systematic case for interpretivism and a critique of scientism, Bevir and Blakely also propose their own uniquely 'anti-naturalist' notion of an interpretive approach. This anti-naturalist framework encompasses the insights of philosophers ranging from Michel Foucault and Hans-Georg Gadamer to Charles Taylor and Ludwig Wittgenstein, while also resolving dilemmas that have plagued rival philosophical defenses of interpretivism. In addition, working social scientists are given detailed discussions of a distinctly interpretive approach to methods and empirical research. The book draws on the latest social science to cover everything from concept formation and empirical inquiry to ethics, democratic theory, and public policy. An anti-naturalist approach to interpretive social science offers nothing short of a sweeping paradigm shift in the study of human beings and society. This book will be of interest to all who seek a humanistic alternative to the scientism that overwhelms the study of human beings today.

- 184 Is bipartisanship dead?: policy agreement and agenda-setting in the House of Representatives/ Harbridge, Laurel -- : Cambridge University Press, 2015 50711

Is Bipartisanship Dead? Looks beyond (and considers the time before) roll call voting to examine the extent to which bipartisan agreement in the House of Representatives has declined since the 1970s. Despite voting coalitions showing a decline in bipartisan agreement between 1973 and 2004, member's bill cosponsorship coalitions show a more stable level of bipartisanship. The declining bipartisanship over time in roll call voting reflects a shift in how party leaders structure the floor and roll call agendas. Party leaders in the House changed from prioritizing legislation with bipartisan agreement in the 1970s to prioritizing legislation with partisan disagreement by the 1990s. Laurel Harbridge

argues that this shift reflects a changing political environment and an effort by leaders to balance members' electoral interests, governance goals, and partisan differentiation. The findings speak to questions of representation and governance. They also shed light on whether partisan conflict is insurmountable and whether bipartisanship in congressional politics is dead.

- 185 Israeli-Palestinian conflict: what everyone needs to know/ Waxman, Dov -- : 50712
Oxford University Press, 2019

No conflict in the world has lasted as long, generated as many news headlines, or incited as much controversy as the Israeli-Palestinian conflict. Yet, despite, or perhaps because of, the degree of international attention it receives, the conflict is still widely misunderstood. While Israelis and Palestinians and their respective supporter's trade accusations, many outside observers remain confused by the conflict's complexity and perplexed by the passion it arouses. The Israeli-Palestinian Conflict: What Everyone Needs to Know offers an even-handed and judicious guide to the world's most intractable dispute? Rather than presenting a traditional, narrative history, this book employs an accessible question-and-answer format. Writing in an engaging, jargon-free style, Dov Waxman, a leading expert on the Middle East, provides clear and concise answers to common questions, from the most basic to the most contentious. Covering the conflict from its nineteenth-century origins to the latest developments of the twenty-first century, this book explains the key events, examines the core issues, and presents the competing claims and narratives of both sides. Readers will learn what the Israeli-Palestinian conflict is all about, how it has evolved over time, and why it continues to defy diplomatic efforts at a resolution.

- 186 Jammu And Kashmir 1990 and beyond: competitive politics in the shadow of 50552
separatism/ Chowdhary, Rekha -- New Delhi: Sage Publications, 2019

Jammu and Kashmir: 1990 and Beyond aims to provide a comprehensive presentation of the politics of Jammu and Kashmir from 1990 right up to the current times. The book begins with the history of the state from the time of its accession to India to the onset of separatism and militancy around 1989. It covers the upheavals experienced due to militancy and the major shifts in the state's competitive politics. The book provides complete coverage and analysis of each election since 1996 with extensive electoral data—across the state and region-wise. It highlights the success of democratic politics in the period 2002–2014, principally due to effective separation of the democratic sphere of 'politics of governance' and the separatist sphere of 'politics of conflict resolution'. This is the second book in the SAGE Series on Politics in Indian States, which comprises volumes covering important trends in the politics of major states of India since the 1990s. The series situates the state politics in the larger socio-historical context and presents a detailed analysis of the significant patterns of competitive politics in the state in the light of the rise of new social forces and changing political economy.

- 187 Journey of Guru Nanak / Ria Dhillon & Amani Dhillon -- Delhi: LG Publishers Distributors, 2019 50851

It is an introduction to the life and teachings of Guru Nanak. Based on the Janam Sakhis, there are anecdotes from the life of Guru Nanak, from the days of his childhood of his dialogues with the faqirs and the yogis. With simple stories, in the style of folk tales, Guru Nanak explains and elucidates the riddles of human life, its vices and virtues, its superstitions, its path of purity and piety. Written in simple and lucid English, the author presents the creator of the universe as the embodiment of Sach, the truth, the rhyme and the reason of this world of flesh and blood, of stars and heavens. It underscores the importance of Sach, Santokh, Sahaj, and Sanjam, truth, steady serenity and sobriety, the hallmarks of Guru Nanak's Philosophy for all men and women, young and old, for their actions and thoughts for their desires and dreams.

- 188 Kashmir's untold story: declassified/ Malhotra, Iqbal Chand & Raza, Maroof -- : Bloomsbury, 2019 50713

Kashmir's Untold Story: Declassified provides answers to these gripping questions and joins the dots in presenting the matrix of a consistent and compelling argument regarding the future of the state of Jammu and Kashmir. Today, the state's water resources are coveted by the beleaguered Chinese microchip industry and it appears that this is going to determine the continuing militancy in the state. Malhotra and Raza argue that China and its client Pakistan will actively back the militancy, come what may. Delving deeper, the book also reveals amazing insights into the Government of India's policy towards the state, right from 1889, when it first imposed central rule and dispossessed the rule of the then Maharaja, till date. Owing to its strategic location, the intrigues within the state and the machinations of its neighbours have resulted in the government directly administering its affairs, one way or the other, for the last 130 years.

- 189 Kidnap: inside the ransom business/ Shortland, Anja -- : Oxford University Press, 2019 50621

Kidnap for ransom is a lucrative but tricky business. Millions of people live, travel, and work in areas with significant kidnap risks, yet kidnaps of foreign workers, local VIPs, and tourists are surprisingly rare and the vast majority of abductions are peacefully resolved - often for remarkably low ransoms. In fact, the market for hostages is so well ordered that the crime is insurable. How do you (safely) pay a ransom? And why would kidnappers release a potential future witness after receiving their money? Kidnap: Inside the Ransom Business uncovers how a group of insurers at Lloyd's of London have solved these thorny problems for their customers. Based on interviews with industry insiders (from both sides), as well as hostage stakeholders, it uncovers an intricate and powerful private governance system ordering transactions between the legal and the criminal economies.

- 190 Kuknalim: Naga armed resistance: testimonies of leaders, pastors, healers and soldiers/ Haksar,Nandita & Hongray,Sebastian M. -- : Speaking Tiger Publishing, 2019 50714

In Kuknalim, leaders and members of ten Naga tribes spread across India and Myanmar speak directly to the reader about their childhood experiences, reasons for joining the armed struggle, and their personal triumphs and tragedies. They recount their journeys from small impoverished mountain villages through the jungles of Myanmar to China—from where they carried back arms to fight for an independent Nagaland—and finally the journey to the negotiating table. These stories relate to the period of the Naga movement from World War II to 1997, when Naga nationalists under the NSCN (IM) entered into a ceasefire agreement with the Indian state and began peace talks. And in the introduction to the book and the different sections in it, the authors also write about subsequent events, besides providing the political context for each interview.

A groundbreaking work, Kuknalim offers invaluable insights into the world of Naga insurgency and its geo-political significance. Without asking the reader to agree or disagree with the people and movement it profiles, the book also examines complex questions of identity politics; the role of religion in nationalism; and the sentiments that drive men and women to take up arms and endure extreme hardship in pursuit of their dreams.

- 191 Language of the Adi Granth: phonetic transcription of the entire text/ Harjeet Singh Gill & Mukhtiar Singh Gill -- Delhi: LG Publishers Distributors, 2018 50852

- 192 Laws of human nature/ Greene, Robert -- Viking, 2018 50644

Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, The Laws of Human Nature offers brilliant tactics for success, self-improvement, and self-defense.

- 193 Lectures in macroeconomics: a capitalist economy without unemployment/ Kazimierz Łaski ; Edited by Jerzy Osiatyński & Jan Toporowski; translated from Polish by James West -- : Oxford University Press, 2019 50622

Lectures in Macroeconomics: A Capitalist Economy Without Unemployment provides a systematic account of the principle of aggregate demand based on the work of Polish economist Michał Kalecki, best known as one of the originators of the Keynesian Revolution in macroeconomics. The lectures demonstrate the importance of aggregate demand in determining total output and employment in the capitalist economy. They show how the investment decisions of firms affect economic growth, arguing that due to the unstable nature of investment it is important that the government has a central role in stabilizing the economy. This English translation of Kazimierz Łaski's final work brings up to date fundamental concepts to give a picture of the twenty-first capitalist economy, and the obstacles that must be overcome in bringing it to full employment. It introduces the role of money and finance in the contemporary capitalist economy, as well as the central role of the labour market and wages. The analysis is illustrated with statistics and discussion around the evolution of capitalist economies and the rise of economic inequality since the Second World War, culminating in the 2008 crisis and the economic deflation affecting Europe since that crisis. Lectures in Macroeconomics remarks critically upon the neo-classical approach to economics that has brought about slow economic growth, unemployment, and inequality.

- 194 Limits of Okinawa: Japanese capitalism, living labor and theorizations of community/ Matsumura, Wendy -- Duke University Press, 2015. 50668

Since its incorporation into the Japanese nation-state in 1879, Okinawa has been seen by both Okinawans and Japanese as an exotic "South," both spatially and temporally distinct from modern Japan. In *The Limits of Okinawa*, Wendy Matsumura traces the emergence of this sense of Okinawan difference, showing how local and mainland capitalists, intellectuals, and politicians attempted to resolve clashes with labor by appealing to the idea of a unified Okinawan community. Their numerous confrontations with small producers and cultivators who refused to be exploited for the sake of this ideal produced and reproduced "Okinawa" as an organic, transhistorical entity. Informed by recent Marxist attempts to expand the understanding of the capitalist mode of production to include the production of subjectivity, Matsumura provides a new understanding of Okinawa's place in Japanese and world history, and it establishes a new locus for considering the relationships between empire, capital, nation, and identity.

- 195 Line on fire: ceasefire violations and India-Pakistan escalation dynamics/ Jacob,Happymon -- : Oxford University Press, 2019 50715

India-Pakistan border in Jammu and Kashmir has witnessed repeated ceasefire violations over the past decade. Indeed, with the new low in the relations between India and Pakistan, ceasefire violations have gone up exponentially. These have the potential to not only begin a crisis but also escalate an ongoing crisis. To make things worse, in the event of major violations, political leadership on either side often engage in high-pitched rhetoric some of which even have nuclear undertones. Using fresh empirical data and oral history evidence, this book explains the causes of ceasefire violations on the Jammu and Kashmir

border, and establishes a relationship between ceasefire violations and crisis escalation between India and Pakistan. In doing so, the book further nuances the existing arguments about the escalatory dynamics between the two South Asian nuclear rivals. Furthermore, the book explains ceasefire violations using the concept of 'autonomous military factors'.

- 196 Long hangover: Putin's new Russia and the ghosts of the past/ Walker, Shaun -- : 50716
Oxford University Press, 2018

In *The Long Hangover*, Shaun Walker provides a deeply reported, bottom-up explanation of Russia's resurgence under Putin. By cleverly exploiting the memory of the Soviet victory over fascism in World War II, Putin's regime has made ordinary Russians feel that their country is great again. Shaun Walker provides new insight into contemporary Russia and its search for a new identity, telling the story through the country's troubled relationship with its Soviet past. Walker not only explains Vladimir Putin's goals and the government's official manipulations of history, but also focuses on ordinary Russians and their motivations. He charts how Putin raised victory in World War II to the status of a national founding myth in the search for a unifying force to heal a divided country, and shows how dangerous the ramifications of this have been. The book explores why Russia, unlike Germany, has failed to come to terms with the darkest pages of its past: Stalin's purges, the Gulag, and the war deportations. The narrative roams from the corridors of the Kremlin to the wilds of the Gulags and the trenches of East Ukraine. It puts the annexation of Crimea and the newly assertive Russia in the context of the delayed fallout of the Soviet collapse.

- 197 Mahatma Gandhi/ edited by Shiv Gajrani-- New Delhi: Commonwealth, 2017 50809

In the long drawn political struggle for several decades, Gandhiji played a significant role in the annals of our sub continent. Where as he was a statesman with a chequered career, his role as a social reformer was par excellence. Commencing his career from South Africa, where he undertook several social measures, he landed in India during the first year of the global war. Gandhi's technique of satyagraha had complete identification with the socio economic life of the common Indian living in the backward conditions. He propagated swadeshi, the spinning of khadi, Hindu-Muslim unity, Harijan welfare work and thus prepared the nation for an all-India upsurge which ultimately brought about Swaraj in 1947. Undoubtedly his charismatic personality attracted millions of people who were ever prepared to sacrifice anything dear to mankind.

- 200 Mahatma Gandhi and Prema Kantak:exploring a relationship, exploring history/ -- New Delhi: Oxford University Press, 2013 50810

An important thinker, writer, and activist, Prema Kantak's (1906–1985) contribution to the feminist discourse and Gandhian activism in India is largely unknown. Kantak, a onetime resident of Gandhi's ashram, forged a special, lifelong bond with the Mahatma and was hugely influenced by his views and persona. Bringing together personal correspondence between Gandhi and Kantak as well as original translations of her fiction and nonfiction writings, this book explores a unique Gandhi–Kantak relationship and reflects the complexities of Gandhi's political and social ideas—especially his understanding of the role of women in the nationalist movement. The correspondence, marked by loving devotion on the one hand and encouragement and nurturing on the other, is replete not only with an unusual mix of Kantak's hero-worship and self-doubt alternating with self-assurance but also opens up a new window to a much-deliberated and oft researched topic—Gandhi's relationship with his women followers. Translated, edited, and with a comprehensive introduction by Meera Kosambi, the book retrieves the life, career, and writings of Prema Kantak whose iconic status has thus far been obscured

- 201 Mahatma Gandhi and the new millennium/ Maharajan, M. -- : Discovery Publishing House, 2001 50811

It was also the start of the New Millennium and the blocking of another one thousand years in the Nations history, Whether the old millennium ended or it was the Beginning of the new one, the night gave way to the first day of January (1-1-2000) in its eternal routine. On 24th December 1999 an Indian Airlines Air Bus with 187 passengers and eight crew members was hijacked while on a flight from Kathmandu to New Delhi. Through non-violent negotiations with the hijackers and through Gandhian lines at ill the hijackers released hostages on 11-12-1999. So, in the new millennium Gandhian principles is one of the best principles for solving all problems. Gandhiji's main aim was "the moral regeneration of human society" in which Peace can be obtained. Peace begins

with a harmony between individuals. Gandhi lived and worked for the establishment of such Relationship among individuals. An attempt is made to analyse Gandhian approach to World peace. World peace is an epithet that is on the lips of all right thinking men. But has become an elusive concept. Gandhiji has often been described as an apostle of peace. He strove and died for peace. Gandhiji's approach to communal harmony has a meaning and is a meaningful step in the proper direction but this single step should not be considered as a panacea or single pill or tablet course for the eradication of a serious Disease of communalism. Gandhiji considered woman as the incarnation of Ahimsa. An attempt is made here to analyse the relevance of Gandhian Thought in the New Millennium.

- 202 Mahatma Gandhi on ethics/ Mishra, Anil Dutta -- New Delhi: Concept Publishing, 2010 50812

Mahatma Gandhi wrote and spoke on all aspects of life political, social, economic and spiritual. This book deals with his ethical concepts as reflected in his writings and speeches. Presenting a framework of Gandhian ethics, it provides Gandhi original text on Ethical Religion for deeper understanding of his views on the subject.

- 203 Mahatma Gandhi on health/ Mishra, Anil Dutta -- New Delhi: Concept Publishing, 2016 50813

Gandhi was in search of Truth and experimentation on his own life was unique, fundamental and unparalleled in human history. During his stay in England and South Africa he have acquired considerable experience, and have been able to form certain ideas on food and diseases to be cured. These ideas are pearl of wisdom and may be of some use to the readers even in contemporary times. Gandhi gave much importance to health and hygiene. Good health, once it is lost, costs much time and effort to regain. It is therefore essential for thoughtful people to attach the utmost importance to the keeping up of health. We shall give importance to the keeping up of health and also how health, which may be lost from time to time, can be regained. It is the duty of everyone to understand the simple law of nature to keep oneself physically healthy. Gandhi's writings on General Knowledge about Health are reproduced here without any distortions and alterations so that the readers draw their own conclusions. It is a must book for those who want to understand simple law of nature and keep themselves healthy and wise.

- 204 Mahatma Gandhi on moral bankruptcy/ Mishra, Anil Dutta -- New Delhi: Concept Publishing, 2018 50814

During struggle for Swaraj, Gandhi felt and observed that upholding ethics is necessary for India and every Indian. He rightly said that British conquest of India is because of collapse of morality and ethics. So, time to time, Gandhi writes on the subject to re-establish morality at individual, societal and national level. Without transforming individual, one cannot change the society and nation. One cannot transform India without transforming every Indian. This is most appropriate time when one can realize that Mahatma Gandhi's views which are more relevant than ever before or when he was alive. Gandhi is now part of history and his words belong to humanity. In this book, original writing of Gandhi gives us the crystal clear

understanding of the subject without any distortion. A reader friendly book on Moral Bankruptcy is useful and worthwhile contribution on the subject with its immense current and future significance not only for Indian politicians and public servants, but also for the others.

- 205 Mahatma Gandhi on sarvodaya/ Mishra, Anil Dutta -- New Delhi: Concept Publishing, 2015 50815

Sarvodaya, today, does not represent a mere vision or utopian notion but makes an attempt of reorienting human mind to reconstruct human society. It has assumed the dimensions of a movement and a socio-economic force of great potentialities. It is a dynamic philosophy, which can make possible the advent of a radically transformed humanity. Sarvodaya seeks to build a new society on the foundations of old spiritual and moral values of India and attempts to meet the challenge of the contemporary problems. The world has witnessed the propagation, experimentation and implementation of various socio-economic ideologies—capitalist, socialist and communist, time to time. But, in overall consideration, sarvodaya is undoubtedly far more superior to other attributive models. It envisages a well-balanced and integrated development of the nation with no distinction among the haves and the have-nots, privileged and under-privileged, ruler and ruled. It is a must book for the students of Gandhian thought and those who are interested in Gandhi.

- 206 Mahatma Gandhi on untouchability/ Mishra, Anil Dutta -- : Concept Publishing, 2015 50816

Untouchability is a sin and bolt on Indian Society. Gandhi from early childhood relentlessly worked to remove untouchability. He was doing something completely original for the removal of untouchability without creating any disharmony in the individual and society. He looked at and understood untouchability from an angle no one was able to. His vision and method was direct, and this directness was, and is, revolutionary. Gandhi was the first pioneering leader who made the removal of untouchability a life mission. Gandhi made untouchability a national issue. His fight was unique and unparalleled. What is remarkable about Gandhi is that instead of falsely glorifying the past, he in fact infused the past with his very modern ideas of morality, justice, fearlessness, fraternity, absence of hierarchy, and dignity of the individual values which he thought were essential for the revivification of our ancient but also decadent society. Mahatma Gandhi's statement on Untouchability will be an eye-opener for the general readers and critics to understand his crystal clear view on untouchability.

- 207 Mahatma Gandhi speaks: selected speeches and writings/ Mishra, Anil Dutta & Sarma, P.V. -- New Delhi: Concept Publishing, 2014 50817

Mahatma Gandhi was a creative man and visionary par excellant. He changed the course of history and created history by using new techniques of non-violent protest. His concerns were contemporary but timeless. Gandhi reached at the top step by step where no one has reached before. Gandhi an iconic personality,

who inspired millions of people during his lifetime, is still inspiring people all around the globe. Gandhi was doing something unique and original for an aspiring Indian masses. Here are essays and reflections on Mahatma Gandhi one of the outstanding personalities not only of our time but of all time. Ghandhiji was the greatest moral force in Indian history. For the accomplishment of liberty, justice and peace he rediscovered the old technique of ahimsa and satyagraha. He revealed to the masses a power not of rifles and machines guns, but the power innate in each individual, a power which this war-hunted world can exploit fully in making wars impossible. This book contains tribute to the father of the nation from prominent thinkers.

- 210 Mapping place names of India / Kapur, Anu -- London: Routledge, 2019 50583

This book is the first of its kind to chart the terrain of contemporary India's many place names. It explores different 'place connections', investigates how places are named and renamed, and looks at the forces that are remaking the future place name map of India. Lucid and accessible, this book explores the bonds between names, places and people through a unique amalgamation of toponomy, history, mythology and political studies within a geographical expression. This volume addresses questions on the status and value of place names, their interpretation and classification. It brings to the fore the connections between place names and the cultural, geographical and historical significations they are associated with. This will be an essential read for scholars and researchers of geography, law, politics, history and sociology, and will also be of interest to policy-makers, administrators and the common reader interested in India.

- 211 Meaning, agency and the making of a social world: themes in the philosophy of social science/ Gupta, Amitabha Das -- Routledge, 2019 50669

This book explores a vital but neglected element in the philosophy of social science – the complex nature of the social world. By a systematic philosophical engagement, it conceives the social world in terms of three basic concerns: epistemic, methodological and ethical. It examines how we cognize, study and ethically interact with the social world. As such, it demonstrates that a discussion of ethics is epistemically indispensable to the making of the social world. The book presents a new interpretation of philosophy of social science and addresses a series of related topics, including the role of the human subject in the context of scientific knowledge, objectivity, historicity, meaning and nature of social reality, social and literary theory, scientific methodology and fact/value dichotomy, human and collective agency and the limits to relativism. Examining each in turn, it argues that the social world is constructed through human actions and becomes significant because we ascribe meaning to it. This is organized around discussions on the meaning, agency and the making of a social world. The book will be useful to scholars and researchers of philosophy of social science, political philosophy and sociology.

- 213 Meditations on Gandhi: a Ravindra Varma festschrift/ - New delhi: Concept Publishing, 2002 50822

This festschrift in honour of well-known Gandhian, Ravindra Varma, provides a deep insight into his multi-dimensional personality and examines various aspects of Gandhian thought. The book is divided into two parts. The first part, containing impressions and personal recollections of some of those who have privilege of knowing Ravindra Varma personally and intimately, throws a flood of light on the nature of involvement of Shri Varmaji in the national movement. The second part, having 11 papers by scholars of international repute, covers a broad range of Gandhian themes including Gandhi's views on spiritual living, economy, modernity, social world order, women, religion, education, nationalism and development paradigm, as also Gandhi's lessons for the twenty-first century. A Buddhist perspective on social as well as environmental violence also makes part of this volume.

- 214 Metropolitan planning/ Munsuri, Shahida -- New Delhi: Ishwar Books, 2019 50584
- One Concept which measures the world's largest cities is that of the metropolitan area, which is based on the concept of the labour market area and is typically defined as an employment core and the surrounding areas that have strong commuting ties to the core. A polycentric metropolitan area contains multiple urban agglomerations not connected by continuous development. In defining a metropolitan area, sometimes referred to as a metro area or commuter belt, is a region consisting of a densely populated surrounding territories, sharing industry, infrastructure and housing. This book examines in detail the major urban areas, their specific characters and requirements, and how metropolitan planning is adapting to fulfill those requirements.
- 215 Migrating to opportunity: overcoming barriers to labor mobility in Southeast Asia/ Testaverde, Mauro and others -- : World Bank, 2017 50623
- This report takes an innovative approach to estimate the costs for workers to migrate internationally. Singapore and Malaysia have the lowest international labor mobility costs in ASEAN while workers migrating to Myanmar and Vietnam have the highest costs. Singapore and Malaysia's more developed migration systems are a key reason for their lower labor mobility costs. How easily workers can move to take advantage of new opportunities is important in determining how they fare under the increased economic integration planned for ASEAN. Destination countries should work toward systems that are responsive to economic needs and consistent with domestic policies. Sending countries should balance protections for migrant workers with the needs of economic development.
- 216 Migration in political theory: the ethics of movement and membership / Sarah Fine & Lea Ypi (Eds.) -- : Oxford University Press, 2019 50718
- Written by an international team of leading political and legal theory scholars whose writings have contributed to shaping the field, *Migration in Political Theory* presents seminal new work on the ethics of movement and membership. The volume addresses challenging and under-researched themes on the subject of migration. It debates the question of whether we ought to recognize a human right to immigrate, and whether it might be legitimate to restrict emigration. The authors critically examine criteria for selecting would-be migrants, and for acquiring citizenship. They discuss tensions between the claims of immigrants and existing residents, and tackle questions of migrant worker exploitation and responsibility for refugees. The book illustrates the importance of drawing on the tools of political theory to clarify, criticize, and challenge the current terms of the migration debate.
- 217 Modern China: society culture and literature/ Edited By Kochhar, Geeta -- London: Routledge, 2019 50553
- This book looks at the transition of modern Chinese society in terms of its culture and literature. Since the economic reforms and open door policy in 1978, the Chinese society has undergone a drastic transformation. It is headed towards

becoming an ultra-modern advanced society and a world superpower. Among the pillars of great change are the advances in technology and communication that have reshaped Chinese society. This volume explores China's march towards modernity in the 21st century as defined by its own terms. It discusses China's social structure, ageing population, gender stratification, marriages, cultural identity, and cosmopolitanism, its history of communism, law, economic reforms, financial institutions and challenges of the global markets. The book sheds light on Chinese literature and media and brings out various facets of social changes across time. With its topical debates and issues, this volume will be useful to scholars and researchers of Chinese studies, East Asian studies, geopolitics, area studies, international relations, politics and foreign policy, along with think tanks and those in media and journalism

- 218 Moral and political thought of Mahatma Gandhi/ Iyer, Raghavan N. -- : Oxford University Press, 2000 50823

Professor Iyer elucidates the central concepts in the moral and political thought of Mahatma Gandhi, bringing out the subtlety, potency, and universal importance of his concepts of truth and non-violence, freedom and obligation, and his view of the relation between means and ends in politics. Gandhi's indictment of modern civilization, his conception of an unassailable moral commitment, his vision of human perfectibility, and his perception of the role of individual conscience and of heroism in society are all carefully considered in this volume

- 219 Moral Lessons from Gandhi's Autobiography and Other Essays/ Gangrade, K.D. -- New Delhi: Concept Publishing, 2004 50824

This book provides fresh insights into the autobiography of Mahatma Gandhi, My Experiments with Truth, and identifies the moral lessons it offers not only to the individuals but also for the moral reconstruction of our society. Critically examining Gandhi's perspective on human rights and social work practice, it contains three case studies of Gandhian way of conflict resolution. Gandhian agenda for the twenty-first century and some pertinent issues generally raised by the people have been included in the volume. An effort is also made to evaluate the role of Shanti Sainiks in the global race for armament with special emphasis on Gandhian approach. The book is highly valuable for the students of Gandhian study.

- 220 Multiculturalism and advertising: Indian and European enterprises under globalization / Bhattacharjee, Anuradha -- : Oxford University Press, 2019 50670

This book presents a comparative analysis of multicultural advertising through an empirical study of advertisements in two geographically diverse commercial regions-Europe and India. Showing that there has been a significant increase in multicultural images, symbols, and texts in advertisements across consumer goods-for the elite as well as the less elite -this book argues that there is a growing congruence of values among different cultures. It suggests that in spite of our differences, we are moving, at least in the corporate world, toward a larger unity.

- 221 My biggest research mistake: adventures and misadventures in psychological research/ Robert J. Sternberg (Ed.) -- Sage Publications, 2020 50645

Sternberg presents the mistakes of experts in the field as opportunities for learning, allowing students to avoid making the same mistakes in their own work.

- 222 Nanak: the correspondent of the ultimate / Sumeet D. Aurora -- New Delhi: Bloomsbury India , 2017 50853

Guru Nanak, the founder of the Sikh religion, walked the earth to restore love and humanity lurking in the doldrums. His early communion with the Ultimate drew him to far-fetched places to inculcate the scent of unity and equality among people. He sang the divine praises along the way and persuaded people towards the spiritual essence of the Lord. He made an intriguing manifestation that the Lord is One and there exists no other besides Him. Most of what Nanak professed was apparently derived from the Ultimate. As mentioned in the Janamsakhis, he often directed his companion Mardana to play on his rabab as he vividly sang the Bani or Divine Word descending upon him from the skies. With an unrelenting desire to spread enlightenment among the masses, he became an itinerant preacher to eradicate the upsurge of erroneous beliefs and the moss of differences propelled by caste and creed. This exquisitely illustrated book explores the life of Guru Nanak at length and offers an insight into his timeless teachings which are marvelously ingrained in his divine hymns - the Japji, Asa di Var and Barah-maha.

- 223 New economic history of colonial India/ Latika Chaudhary and others (Eds.) -- : Routledge, 2016 50624

A New Economic History of Colonial India provides a new perspective on Indian economic history. Using economic theory and quantitative methods, it shows how the discipline is being redefined and how new scholarship on India is beginning to embrace and make use of concepts from the larger field of global economic history and economics. The book discusses the impact of property rights, the standard of living, the labour market and the aftermath of the Partition. It also addresses how education and work changed, and provides a rethinking of traditional topics including de-industrialization, industrialization, railways, balance of payments, and the East India Company. Written in an accessible way, the contributors – all leading experts in their fields – firmly place Indian history in the context of world history. An up-to-date critical survey and novel resource on Indian Economic History, this book will be useful for undergraduate and postgraduate courses on Economic History, Indian and South Asian Studies, Economics and Comparative and Global History.

- 224 Of friends and foes: reputation and learning in international politics/ Crescenzi, Mark J.C. -- : Oxford University Press, 2018 50719

In this book, Crescenzi develops a theory of reputation dynamics to help identify when reputations form in ways that affect world politics, both in the realms of international conflict and cooperation. A reputation for honoring one's obligations in a treaty, for example, can make a state a more attractive ally. A reputation for war and conflict can trigger more of the same, leading to a cycle of violence that exacerbates security challenges. While these processes of cooperation and conflict seem distinct, they are linked by a common use of the information held in each state's reputation. In each case, states use reputational information in an attempt to resolve the uncertainty they face when crafting foreign policy decisions. With this theory in place, Crescenzi uses a blend of historical and empirical analysis to convince the reader that reputations do indeed matter in world politics. Moreover, we are able to identify patterns of reputation's influence in international relations. He demonstrates that over time and across the globe, reputations for conflict exacerbate crises while reputations for cooperation and reliability make future cooperation more likely

- 225 Of saffron flags and skullcaps: hindutva, muslim identity and the idea of India/ Salam, Ziya Us -- New Delhi: Sage Publications, 2018 50671

We live in an age when most Muslims take pride in singing Saare Jahan Se Achcha, penned by Muhammad Iqbal. Many though have forgotten that the same poet-philosopher called Ram as Imam-e-Hind. The Hindutva forces, meanwhile, have forgotten the unifying Saare Jahan Se Achcha in their pursuit of divisive nationalism. Their exclusionary politics stems from a mindset of self-limiting segregation: a world of 'we' and 'they', a world where a Muslim man is lynched for refusing to say 'Vande Mataram'. Of Saffron Flags and Skullcaps attempts to trace the growth of the Hindutva ideology from the time of V.D. Savarkar and M.S. Golwalkar to the contemporary age, and how it precedes any talk of Muslim appeasement. Faced with these existential challenges, the Muslim community is involved in simultaneous churning within where the words of Islamic scholar and teacher Farhat Hashmi are bringing about a silent change at the grassroots level. Amidst all the challenges, the idea of India, often challenged, continues to show the way to a nation looking for direction.

- 226 One nation undecided: clear thinking about five hard issues that divide us/ Schuck, Peter H. -- : Princeton University Press, 2017 50720

We've all expressed opinions about difficult hot-button issues without thinking them through. With so much media spin, political polarization, and mistrust of institutions, it's hard to know how to think about these tough challenges, much less what to do about them. One Nation Undecided takes on some of today's thorniest issues and walks you through each one step-by-step, explaining what makes it so difficult to grapple with and enabling you to think smartly about it. In this unique what-to-do book, Peter Schuck tackles poverty, immigration, affirmative action, campaign finance, and religious objections to gay marriage and transgender rights. No other book provides such a comprehensive,

balanced, and accessible analysis of these urgent social controversies. One Nation Undecided gives you the facts and competing values, makes your thinking about them more sophisticated, and encourages you to draw your own conclusions.

- 227 Parents and teachers working together: addressing school's most vital stakeholders / Novick, Brett J. -- Rowman & Littlefield, 2017 50594

- 228 Participation gap: social status and political inequality/ Dalton,Russell J. -- : 50721
Oxford University Press, 2017

The participation gap arises from two contrasting trends. Voting turnout is generally declining, especially among citizens with lower social status. At the same time, more people are participating in civil-society activity, contacting government officials, protesting, and using online activism and other creative forms of participation. These non-electoral activities are growing because of more activity by higher-social-status citizens. The democratic principle of the equality of voice is eroding. The politically rich are getting richer—and the politically needy exercise less voice. This book assembles an unprecedented set of international public-opinion surveys to identify the individual, institutional, and political factors that produce these trends. New forms of activity place greater demands on participants, raising the importance of social-status skills and resources. Civil-society activity further widens the participation gap. New norms of citizenship shift how people participate. And generational change and new online forms of activism accentuate this process. Effective and representative government requires a participatory citizenry and equal voice, and participation trends are undermining these outcomes. The Participation Gap both documents the growing participation gap in contemporary democracies and suggests ways that we can better achieve their theoretical ideal of a participatory citizenry and equal voice.

- 229 People, power and profits: progressive capitalism for an age of discontent/ Stiglitz, Joseph E. -- London: Penguin Random House, 2019 50625

We all have the sense that the American economy—and its government—tilts toward big business, but as Joseph E. Stiglitz explains in his new book, People, Power, and Profits, the situation is dire. A few corporations have come to dominate entire sectors of the economy, contributing to skyrocketing inequality and slow growth. This is how the financial industry has managed to write its own regulations, tech companies have accumulated reams of personal data with little oversight, and our government has negotiated trade deals that fail to represent

the best interests of workers. Too many have made their wealth through exploitation of others rather than through wealth creation. If something isn't done, new technologies may make matters worse, increasing inequality and unemployment. Stiglitz identifies the true sources of wealth and of increases in standards of living, based on learning, advances in science and technology, and the rule of law. He shows that the assault on the judiciary, universities, and the media undermines the very institutions that have long been the foundation of America's economic might and its democracy.

- 230 Performing representation: women members in the Indian Parliament/ Rai, Shirin M. and Spary, Carole -- New Delhi: Oxford University Press, 2019 50672

Breaking new ground in scholarship on gender and politics, *Performing Representation* is the first comprehensive analysis of women in the Indian parliament. It explores the possibilities and limits of parliamentary democracy and the participation of women in its institutional performances. Offering a new, multi-method analysis of the gendered nature of India's parliament through an examination of electoral data, media reports and life stories of women Members of Parliament it sheds light on the performance, aesthetics, and norms of parliamentary life. It explores how the gendered axis of power underpins the performance of parliament and its Members as well as the political economy in which they are embedded. The book makes a strong case for taking parliamentary politics seriously in these times of populism, without either a utopian framing of women MPs as challengers of masculinised institutional politics or seeing them simply as docile actors in a gendered institution. *Performing Representation* raises critical questions about the politics of difference, claim-making, representation and intersectionality. It addresses these questions as part of global feminist debates on the importance of the women's representation in political institutions.

- 232 Place-based methods for researching schools/ Thomson, Pat & Hall, Christine -- Bloomsbury Academic, 2017 50595

Place-Based Methods for Researching Schools shows how multiple methods can be used together to research schools, rather than dealing with decontextualised methods, one by one. Taking a novel theoretical approach to the school as a 'place', the book offers grounded illustrations of schools as

places from real case study and ethnographic research conducted in both Australia and the UK. A practical guide, this book explores the on-the-ground questions researchers are likely to face in the order they are likely to face them. The chapters not only look at data generation approaches, but also address analysis of the data and writing about the school, topics that are often ignored. Methods explored for use include those drawn from urban planning and geography to explore neighbourhoods, visual surveys, mapping, classroom observation, ethnographic observation, interviews, focus groups, sociograms and linguistic corpora. Including research tips from the authors, case studies, a glossary and annotated further reading list, this book is essential reading for students and scholars approaching their research project.

- 233 Planning to fail: the US wars in Vietnam, Iraq, and Afghanistan/ Lebovic, James H. -- : Oxford University Press, 2019 50722

In *Planning to Fail*, James H. Lebovic argues that a profound myopia helps explain US decision-making failures. In each of the wars explored in this book, he identifies four stages of intervention. First and foremost, policymakers chose unwisely to go to war. After the fighting began, they inadvisably sought to extend or expand the mission. Next, they pursued the mission, in abbreviated form, to suboptimal effect. Finally, they adapted the mission to exit from the conflict.

- 234 Pluralistic economics and its history/ Ajit Sinha & Alex M. Thomas (Eds.) -- : Routledge, 2019 50626

This volume is a history of economics – as it was interpreted, discussed and established as a discipline – in the 20th century. It highlights the pluralism of the discipline and brings together leading voices in the field who reflect on their lifelong work. The chapters draw on a host of traditions of economic thought, including pre-classical, classical, Marxian, neoclassical, Sraffian, post-Keynesian, Cantabrigian and institutionalist traditions in economics. Further, the volume also looks at the history of economics in India and its evolution as a discipline since the country's independence. This book will appeal to students, researchers and teachers of economics and intellectual history, as well as to the interested general reader.

- 235 Political Freud: a history/ Zaretsky, Eli -- Columbia University Press, 2015 50646

In this masterful history, Eli Zaretsky reveals the power of Freudian thought to illuminate the great political conflicts of the twentieth century. Developing an original concept of "political Freudianism," he shows how twentieth-century radicals, activists, and intellectuals used psychoanalytic ideas to probe consumer capitalism, racial violence, anti-Semitism, and patriarchy. He also underscores the continuing influence and critical potential of those ideas in the transformed landscape of the present. Zaretsky's conception of political Freudianism unites the two overarching themes of the last century—totalitarianism and consumerism—in a single framework. He finds that theories of mass psychology and the unconscious were central to the study of fascism and the Holocaust; to African American radical thought, particularly the struggle to overcome the

legacy of slavery; to the rebellions of the 1960s; and to the feminism and gay liberation movements of the 1970s. Nor did the influence of political Freud end when the era of Freud bashing began. Rather, Zaretsky proves that political Freudianism is alive today in cultural studies, the study of memory, theories of trauma, postcolonial thought, film, media and computer studies, evolutionary theory and even economics.

- 236 Political representation in India: ideas and contestations 1908-1951/ Datar, Abhay V. -- New Delhi: Bloomsbury, 2019 50554

Political Representation in India: Ideas and Contestations, 1908–1952 maps extensive and wide-ranging debates, marked by contestations and strident demands on political representation in colonial India. Further, it explores these themes during the Constitution-framing process. These debates, previously overlooked, are significant for they helped shape the institutional structures of political representation in the form of the electoral system of Indian democracy. It assists in providing an answer to why and how independent India came to adopt its current electoral system characterised by the First-Past-The-Post (FPTP) system. It also analyses how and why the alternatives to FPTP, primarily any form of proportional representation, were rejected.

- 237 Political value of time: citizenship, duration, and democratic justice/ Cohen, Elizabeth F. -- : Cambridge University Press, 2018 50723

Waiting periods and deadlines are so ubiquitous that we often take them for granted. Yet they form a critical part of any democratic architecture. When a precise moment or amount of time is given political importance, we ought to understand why this is so. The Political Value of Time explores the idea of time within democratic theory and practice. Elizabeth F. Cohen demonstrates how political procedures use quantities of time to confer and deny citizenship rights. Using specific dates and deadlines, states carve boundaries around a citizenry. As time is assigned a form of political value it comes to be used to transact over rights. Cohen concludes with a normative analysis of the ways in which the devaluation of some people's political time constitutes a widely overlooked form of injustice. This book shows readers how and why they need to think about time if they want to understand politics.

- 238 Politico-economic ideas of Mahatma Gandhi: their relevance in the present-day/ Mazumder, Sukhendu -- New Delhi: Concept Publishing, 2004 50825

This book makes an in-depth study of Mahatma Gandhi's Politico-economic ideas and their relevance in present circumstances. Analyzing Gandhi's three Cardinal concepts-Varna dharma trusteeship, and decentralization, it reviews his views on labour, capital and agrarian reorganization. Also, it goes deep into the controversy of large versus small scale industries, with particular reference to Gandhi's views on the subject. A comparison is made as well between the ideas of Gandhi and Marx. The book is of great use to those who have interest in Gandhian studies

- 239 Politics in developing countries/ Kingsbury, Damien -- London: Routledge, 2019 50555

Politics in Developing Countries provides a clear and reader-friendly introduction to the key factors and themes that shape political processes in developing countries. Achieving development outcomes such as reducing poverty and inequality is only possible through efficient governance, well-planned policies and careful allocation of resources, but often politics in developing countries has been identified with mismanagement, corruption, conflict and repression of dissent. This book assesses the politics of developing countries in the period since decolonisation, focusing on the ways in which states have or have not worked to the advancement of their citizens' interests. Key topics include: Colonialism and its legacy; Ethnicity and nation building; Governance, corruption and the role of the state; Poverty and the political economy of development; Aid and outside influence.

Drawing on a range of case studies from around the world, Politics in Developing Countries looks at the consistencies and variations between developing countries, examining why some have forestalled political change by liberalising their economies, and others have actively stifled calls for change. Wide-ranging and engagingly written, this introductory textbook is perfect for students of politics and international development, as well as for those with a general interest in the challenges faced by countries in the Global South.

- 240 Politics with the people: building a directly representative democracy/ Neblo, Michael A. ; Esterling, Evin M. and Lazer, David M. J. -- Cambridge: Cambridge University Press, 2019 50724

- 241 Positive psychology coaching in practice/ Suzy Green & Stephen Palmer (Eds.) -- Routledge, 2019 50647

Positive Psychology Coaching in Practice provides a comprehensive overview of positive psychology coaching, bringing together the best of science and practice, highlighting current research, and emphasising the applicability of each element to coaching. With an international range of contributors, this book is a unique resource for those seeking to integrate positive psychology into their evidence-based coaching practice. Beginning with an overview of positive psychology coaching, the book includes an assessment of theories of wellbeing, an examination of mindfulness research, a guide to relevant neuroscience, and a review of a strengths-based approach. It also contains chapters which explore the application of ACT, the role of positive psychology in wellness and resilience coaching, positive leadership theory, and developmental psychological theories

as they relate to coaching through significant life transitions. In each chapter, theory and research is thoroughly explored and applied directly to coaching practice, and supported with a list of relevant resources and a case study. The book concludes with the editors' views on the future directions of positive psychology coaching.

242 Postcolonialism/ Jazeel,Tariq -- : Routledge, 2019

50725

Postcolonialism is a book that examines the influence of postcolonial theory in critical geographical thought and scholarship. Aimed at advanced-level students and researchers, the book is a lively, stimulating and relevant introduction to 'postcolonial geography' that elaborates on the critical interventions in social, cultural and political life this important subfield is poised to make. The book is structured around three intersecting parts – Spaces, 'Identity'/hybridity, Knowledge – that broadly follow the trajectory of postcolonial studies since the late 1970s. It comprises ten main chapters, each of which is situated at the intersections of postcolonialism and critical human geography. In doing so, Postcolonialism develops three key arguments. First, that postcolonialism is best conceived as an intellectually creative and practical set of methodologies or approaches for critically engaging existing manifestations of power and exclusion in everyday life and in taken-as-given spaces. Second, that postcolonialism is, at its core, concerned with the politics of representation, both in terms of how people and space are represented, but also the politics surrounding who is able to represent themselves and on what/whose terms. Third, the book argues that postcolonialism it is an inherently geographical intellectual enterprise, despite its origins in literary theory.

243 Postscripts on independence: foreign policy ideas, identity and institutions in India and South Africa/ Thakur,Vineet -- : Oxford University Press, 2018

50726

India and South Africa, two states that bookended the process of twentieth century decolonization, punched above their weight in global politics in their initial years of liberation. This book analyses the foreign policy ideas, identity, and institutions of these two newly independent states. Theoretically, it argues that foreign policy is often more than just a reaction to global events; rather. The book also narrates the institutional history of the early years of the Ministry of External Affairs in India and the Department of International Relations and Cooperation in South Africa. In particular, it investigates the relationship between the political leadership and the foreign office bureaucracy in these two countries and discusses how this relationship affected decision-making. The traditions of national identity-making in these countries have also influenced their respective ideas of bureaucratic 'professionalism', which lay at the heart of understanding why the two ministries have developed different organization cultures. This book is the first detailed theoretical and historical comparative analysis of the foreign policies of two emerging countries from the Global South: India and South Africa

244 Poverty of Gandhian Philosophy/ Roy,Himansu -- New Delhi: Concept Publishing, 2001

50826

M.K. Gandhi was a noble spirit. His heart was full of ahimsa. He had discovered the truth in it and he was determined to establish its value in worldly affairs as a redress to all day to day problems. It was a part of his ongoing journey towards eternal truth. He was an experimental scientist. His experiment was with ahimsa as a means to win freedom of India. And then eternal peace, freedom and prosperity in earth. Gandhi did fail. India won freedom as gift over his 'dead body' indeed. But he was not disheartened. He remained firm in his faith that his experiment must attain success on time. May be. But question comes up: Why did his experiment with ahimsa to win freedom fail? The answer is: Poverty in his philosophy. The author has made an attempt to expose the poverty of Gandhian philosophy to build up Mahatmaji real image of plenty in poverty of Gandhian Philosophy.

- 245 Power and diplomacy: India's foreign policies during the cold war/ Singh,Zorawar Dault -- : Oxford University Press, 2019 50727

The notion that non-alignment was a single immutable grain of thought shaping India's foreign policy since its inception is a popular view. But it is not accurate. Using extensive including new archival material, this book recovers another layer of India's strategic culture that had been largely lost to history. The author not only reconstructs the worldviews and strategies that underlay geopolitics during the Nehru and Indira Gandhi years, he also illuminates the dramatic transformation in India's foreign policy and how policymakers redefined some of their most fundamental precepts on India's role in the subcontinent and extended Asian neighbourhood. All the crises examined in this book will resonate with the present because they each also speak to contemporary questions regarding a specific facet of India's foreign policy. Whether it is about crafting a sustainable set of equations with competing great powers, formulating an intelligent policy towards Pakistan, finding the appropriate approach in managing India's special ties with its smaller neighbours, dealing with China's rise and the attendant power flux in Asia, responding to a Sino-American crisis, or developing a sustainable Indian role in Asia, this book aims to strike at the heart of today's policy conversations.

- 246 Preventing mass atrocities: policies and practices/ Barbara Harff & Ted Robert Gurr (Eds.) : Routledge, 2019 50728

The international contributors to this volume are either experts or practitioners, often both, who have contributed in substantial ways to analyzing high risk situations, recommending preventive policies and actions, and in several instances helping to organize remedial actions. Whereas current literature on the prevention of genocide is theoretically well grounded, this book explores what can be done, and has been done, in real-world situations. Recommendations and actions are rooted in a generation of experience, based on solid historical, comparative, and empirical research and with a grounding in quantitative methods. This volume examines historical cases to understand the general causes and processes of mass violence and genocide, and engages with ongoing genocidal crises including Darfur and Syria, as well as other forms of related violence such as terrorism and civil conflict. It will be key reading for all

students and scholars of genocide, war and conflict studies, human security and security studies in general.

- 247 Principles of sustainable finance/ Schoenmaker,Dirk & Schramade,Willem -- : 50627
Oxford University Press, 2019

Finance is widely seen as an obstacle to a better world. Principles of Sustainable Finance explains how the financial sector can be mobilized to counter this. Using finance as a means to achieve social goals we can divert the planet and its economy from its current path to a world that is sustainable for all. Written for undergraduate, graduate, and executive students of finance, economics, business, and sustainability, this textbook combines theory, empirical data, and policy to explain the sustainability challenges for corporate investment. It shows how finance can steer funding to certain companies and projects without sacrificing return and thus speed up the transition to a sustainable economy. It analyses the Sustainable Development Goals as a strategy for a better world and provides evidence that environmental, social, and governance factors matter, explaining in detail how to incorporate these factors in the corporate and financial sectors.

- 248 Psychological impact of the partition of India / Sanjeev Jain & Alok Sarin (Eds.) 50648
-- Sage Publications, 2018

The Partition of India was a partitioning of minds as much as it was a geographical division. But there has been little discussion in mental health discourse on the psychological scars it caused. This book examines the partitioning of human experience and its impact on social life and psychological health. The chapters track, through various approaches, the breakdown of civic life and society during the cataclysmic event, the collapse of medical services, the violence against citizens and the reflection of these events in writings of that era. The book draws attention to the urgent need for a humane understanding of persons with mental illness and psychological distress in the context of their lived history as much as their sociocultural identities and roots.

- 249 Psychology of celebrity / Stever, Gayle -- Routledge, 2019 50649

Why are we fascinated by celebrities we've never met? What is the difference between fame and celebrity? How has social media enabled a new wave of celebrities? The Psychology of Celebrity explores the origins of celebrity culture, the relationships celebrities have with their fans, how fame can affect celebrities, and what shapes our thinking about celebrities we admire. The book also addresses the way in which the media has been and continues to be an outlet for celebrities, culminating in the role of social media, reality television, and technology in our modern society. Drawing on research featuring real life celebrities from the Kardashians to Michael Jackson, The Psychology of Celebrity shows us that celebrity influence can have both positive and negative outcomes and the impact these can have on our lives.

- 250 Psychology of climate change/ Beattie, Geoffrey and Mcguire, Laura -- London: Routledge, 2019 50585

The Psychology of Climate Change explores the evidence for our changing environment, and suggests that there are significant cognitive biases in how we think about, and act on climate change. The authors examine how organisations have attempted to mobilise the public in the fight against climate change, but these initiatives have often failed due to the public's unwillingness to adapt their behaviour. The book also explores why some people deny climate change altogether, and the influence that these climate change deniers can have on global action to mitigate further damage. By analysing our attitudes to the environment, The Psychology of Climate Change argues that we must think differently about climate change to protect our planet, as a matter of great urgency.

- 251 Public administration in the 21st century: a global south perspective/ Basu,Rumki -- : Routledge, 2019 50729

This book examines the transformations happening in global societies, the economy and in politics, to trace the trajectory of public administration as an academic discipline as well as being a focus of social science research. It presents a reassessment of governance in heterogenous developing countries that goes beyond the traditional Weberian bureaucratic model, toward new models of organization and management, informed by their legal, constitutional, economic and political needs, aspirations and ground realities. This is especially important in relation to the marginalized sections of society that primarily rely on citizen entitlements through public service delivery systems. The author looks at widening the range and scope of public administrative agencies with the gradual cooperation of multiple actors, such as the civil society, people at large and even the private sector, in a partnering role. The author revisits the discipline to tackle intellectual dilemmas that current governance theories and practices are confronting, or will have to confront in future administrative situations. here will be key discussions on mandates and challenges for the state regarding the rising South; this book will be indispensable to scholars and researchers of politics, especially governance and public policy, sociology and development studies. It will also be of interest to bureaucrats, NGOs and government officials.

- 252 Public trials: Burke, Zola, Arendt and the politics of lost causes/ Maxwell,Lida -- : Oxford University Press, 2017 50730

Should we view moments of democratic failure—when both law and the people fail to assure justice—as revealing the failure of democracy, or as revealing a contested, contingent failing that could have been otherwise? This is the question that Lida Maxwell examines in Public Trials via exploration of three writers' diagnoses of, and responses to, democratic failure in three sets of trial writings: Edmund Burke's writings on the Warren Hastings impeachment in late eighteenth-century Britain, Emile Zola's writings on the Dreyfus Affair in late nineteenth-century France, and Hannah Arendt's writings on the Eichmann trial in 1960s Israel. Maxwell argues that the stakes of how we understand

democratic failure are large. Viewing moments of democratic failure as indicative of the failure of democracy—as, she argues, Plato, Rousseau, and many contemporary democratic theorists do—leads to a politics of democratic deference to authority and rules that unintentionally encourages complicity in elite and legal failures to assure justice. In contrast, what Maxwell calls “lost cause narratives” of democratic failure reveal the contingency of democratic failure on behalf of showing that things “could have been” otherwise—and might yet be. A politics of lost causes calls for democratic responsiveness to failure via practices of resistance, theatrical claims-making, and re-narration. Building on the politics of lost causes, Maxwell argues for pursuing a democratic approach to justice that foregrounds the import of democratic resistance to, and contestation of, injustice.

- 253 Qualitative inquiry: thematic, narrative and arts-based perspectives/ 50673
Butler-Kisber, Lynn -- Los Angeles: Sage Publications, 2018

Qualitative inquiry is not merely a research method or a series of analytic steps, but a holistic process that challenges the age-old qualitative/quantitative dichotomy. This book provides students and researchers with an approachable guide to a range of interpretive perspectives, including thematic, narrative, and arts-based types of inquiry.

- 254 Queer politics in India: towards sexual subaltern subjects/ Chatterjee, Shraddha 50674
-- London: Routledge, 2018

Queer Politics in India simultaneously tells two interconnected stories. The first explores the struggle against violence and marginalization by queer people in the Indian subcontinent, and places this movement towards equality and inclusion in relation to queer movements across the world. The second story, about a lesbian suicide in a small village in India, interrupts the first one, and together, these two stories push and pull the book to elucidate the failure and promise of queer politics, in India and the rest of the world. This book emerges at a critical time for queer politics and activism in India, exploring the contemporary queer subject through the different lenses of critical psychology, Lacanian psychoanalysis, feminist and queer theory, and cultural studies in its critique of the constructions of discourses of ‘normal’ sexuality. It also examines how power determines further segregations of ‘abnormal’ sexuality into legitimate and illegitimate queer subjectivities and authentic and inauthentic queer experiences. By allowing a multifaceted and engaged critique to emerge that demonstrates how the idea of a universal queer subject fails lower class, lower caste queer subjects, and queer people of colour, the author expertly highlights how all queer people are not the same, even within queer movements, as the book asks the questions, "which queer subject does queer politics fight for?", and, "what is the imagination of a queer subject in queer politics?"

- 255 Radicalization in South Asia: context trajectories and implications/ Mubashar 50731
Hasan; Kenji Isezaki & Sameer Yasir (Eds.) -- : Sage Publications, 2019

Radicalization in South Asia: Context, Trajectories and Implications presents a

critical overview of radicalism, violence and terrorism in South Asia, a region that is diverse in terms of demography, religion, culture and political ideologies. While diversity could have worked as a push factor in strengthening democracies in the region, historically, fault lines in the South Asian faiths, culture, ethnicity, nationalism and political ideologies have triggered radical movements, and unleashed violence and terror attacks to destabilize democracies in the region. Against the backdrop of the current wave of illiberalism and radicalism sweeping over the US, Europe, Middle East, Australia and Latin America, this book presents the most recent scenario of the context, trajectories and policy implications for radicalism, violence and terrorism in five South Asian countries including India, Pakistan, Bangladesh, Sri Lanka and Maldives. It emphasizes the comparative insights provided by the changing values of South Asian society to offer a comprehensive picture of radicalization in this region.

- 256 Raise the debt: how developing countries choose their creditors/ Bunte, Jonas B. 50628
 -- : Oxford University Press, 2019

It is often assumed that it is creditors, and creditors alone, who determine what loans developing countries obtain. Yet this is only partially true: the data show that countries with the same credit rating, income levels, and degree of democracy exhibit a remarkable diversity in the types of creditors used. Some borrow from China, while others turn to the United States; some borrow from private investors, while others rely on multilateral institutions. Apparently, developing countries have some choice. Developing countries are not merely passive recipients gobbling up whatever loans they can get, but active agents. This book systematically explains how governments choose among competing loan offers. The argument focuses on societal interest groups in recipient countries and the distributional consequences of external loans. For example, China and the International Monetary Fund might both offer the same loan volume, but the strings attached to the loans differ. As a result, domestic interest groups would benefit from one loan but not the other. Governments then cater to whichever domestic interest group coalition dominates by borrowing from that coalition's preferred creditor. Understanding why certain loans are chosen is critical for gaining insights into the effects these loans might have on growth and democracy.

- 257 Rajiv Gandhi to Narendra Modi: broken polity, flickering reforms/ Venkateshwar Rao, Parsa -- New Delhi: Sage Publications, 2019 50556

For the first time, the political story of India from the mid-1980s to the second decade of the present century is reconstructed through the first-person narratives of political leaders, revealing their inmost thoughts in their public utterances, offering weak arguments for their unforgivable lapses, speaking in eloquent terms of their achievements and sometimes showing uncharacteristic humility in what they said in their public speeches, in the Lok Sabha, in their blogs. From Rajiv Gandhi's confession about how and why he came into politics, Narendra Modi's graphic description of his inner agony during the Gujarat riots, Vajpayee's disarming confession about Nehru, Narasimha Rao's stoic stance in a letter to his childhood friend, Advani's confessions in the Lok Sabha about why television

was pressed into service during the Kargil War, what emerges is a historical drama of Shakespearean range and an intensity which is more than what brilliant historians and acute political analysts can hope to achieve. The book shows that the first draft of history is found in the words of politicians in parliament and in the government. It captures the immediacy of history-in-the-making, and the palest platitudes of politicians that acquire rare poignancy.

- 258 Reactionary republicanism: how the tea party in the house paved the way for Trump's victory/ Gervais, Bryan T. & Morris, Irwin L. -- : Oxford University Press, 2018 50732

The shocking election of President Trump spawned myriad analyses and post-mortems, but they consistently underestimate the crucial role of the Tea Party on the GOP and Republican House members specifically. In *Reactionary Republicanism*, Bryan T. Gervais and Irwin L. Morris develop the most sophisticated analysis to date for gauging the Tea Party's impact upon the U.S. House of Representatives. They employ multiple types of data to illustrate the multi-dimensional impact of the Tea Party movement on members of Congress. Contrary to conventional wisdom, they find that Republicans associated with the Tea Party movement were neither a small minority of the Republican conference nor intransigent backbenchers. Most importantly, the invigoration of racial hostility and social conservatism among Tea Party supporters fostered the growth of reactionary Republicanism. Tea Party legislators, in turn, endeavored to aggravate these feelings of resentment via digital home styles that incorporated uncivil and aversion-inducing rhetoric. Trump fed off of this during his run, and his symbiotic relationship with Tea Party regulars has guided-and seems destined to-the trajectory of his administration.

- 259 Republican Europe of states: cosmopolitanism, intergovernmentalism and democracy in the EU/ Bellamy, Richard -- : Cambridge University Press, 2019 50733

Combining international political theory and EU studies, Richard Bellamy provides an original account of the democratic legitimacy of international organisations. He proposes a new interpretation of the EU's democratic failings and how they might be addressed. Drawing on the republican theory of freedom as non-domination, Bellamy proposes a way to combine national popular sovereignty with the pursuit of fair and equitable relations of non-domination among states and their citizens. Applying this approach to the EU, Bellamy shows that its democratic failings lie not with the democratic deficit at the EU level but with a democratic disconnect at the member state level. Rather than shifting democratic authority to the European Parliament, this book argues that the EU needs to reconnect with the different 'demoi' of the member states by empowering national parliaments in the EU policy-making process.

- 260 Research methodology: a step-by-step guide for beginners/ Kumar, Ranjit -- New Delhi: Sage Publications, 2014 50675

Research methodology: a step-by-step guide for beginners has been written specifically for those with no previous experience of research or research methodology. Written in a logical and accessible style and providing helpful

techniques and examples, it breaks the process of designing and doing a research project into eight manageable operational steps. The book guides you through your project from beginning to end by offering practical advice on : formulating a research question, ethical considerations, carrying out a literature review, choosing a research design, selecting a sample, collecting and analysing qualitative and quantitative data and writing a research report. the book is an essential reading for undergraduate and postgraduate students in the social science embarking on quantitative research projects

- 261 Resilience and growth in the small states of the Pacific/ Hoe Ee Khor; Roger P. Kronenberg & Patrizia Tumbarello (Eds.) -- : International Monetary Fund, 2016 50629

Discusses ongoing challenges facing Pacific island countries and policy options to address them. Regional cooperation and solutions and further integration with the Asia and Pacific region will also play a role. In short, unique challenges call for tailored solutions, and with concerted efforts, Pacific island countries can boost potential growth, increase resilience, and improve the welfare of their citizens.

- 262 Resurgent India: politics, economics and governance/ Jalan, Bimal -- : HarperCollins Publishers, 2019 50630

Resurgent India, a sequel to Dr Bimal Jalan's book Emerging India (2012) looks ahead and analyses what needs to be done in light of the significant advances made in politics and governance in one of the fastest-growing developing countries in the global economy? Since 2014, the political profile of the government has changed dramatically. The new government elected in 2019 - either with a full majority or a coalition of parties - will hopefully be in a position to launch significant political reforms. Resurgent India identifies the key priorities that can - and should - be implemented by the new government in national interest, irrespective of the political agenda of the party (or parties) that come to power.

- 263 Revisiting the political thought of ancient India: pre-kautilyan arthashastra tradition/ Chousalkar, Ashok S. -- New Delhi: Sage Publications, 2018 50557

Revisiting the Political Thought of Ancient India: Pre-Kautilyan Arthashastra Tradition rediscovers the political ideas of the original and celebrated schools of thought in ancient India—early Arthashastra and Pre-Kautilyan traditions. This book throws light on hitherto not very well-known aspects of political ideas in ancient India, which flourished during the 5th and 4th centuries before Christ. Kautilya's Arthashastra is a major text on ancient Indian political thought, wherein he cited views of a number of Arthashastra teachers who had written on political science. Unfortunately, their writings are not available today; only their views are found scattered in different texts. This book brings together these views to prepare a coherent account of their political ideas and reconstructs the pre-Kautilyan Arthashastra tradition with the help of available sources.

- 264 Rising powers, global governance and global ethics/ -- London: Routledge, 2015 50734

Two of the dominant themes of discussion in international relations scholarship over the last decade have been global governance and rising powers. Underlying both discussions are profound ethical questions about how the world should be ordered, who is responsible for addressing global problems, how change can be managed, and how global governance can be made to work for peoples in developing as well as developed states. Yet, these are often not addressed or only briefly mentioned as ethical dilemmas by commentators. This book seeks to ask critical and profound questions about what relative shifts in power among states might mean for the ethics and practice of global governance.

- 265 Risk and hyperconnectivity: media and memories of neoliberalism / 50735
 Hoskins, Andrew & Tulloch, John -- : Oxford University Press, 2016

Risk and Hyperconnectivity brings together for the first time three paradigms: new risk theory, neoliberalization theory, and connectivity theory, to illuminate how the kaleidoscope of risk events in the opening years of the new century has recharged a neoliberal battlespace of media, economy, and security. Hoskins and Tulloch argue that hyperconnectivity is both a conduit of risk and a form of risk in itself, and that it alters the ways in which we experience events and remember them. Through interdisciplinary dialogue and case study analysis they offer original perspectives on the key questions of risk of our age, including: What is the path to a 'balance' between individual privacy and state (or corporate) security? Is hyperconnectivity itself a new risk condition of our time? How do remembering and forgetting shape citizen insecurity and cultures of risk, and legitimize neoliberal governance? How do journalists operate as 'public intellectuals' of risk? Through probing a series of risk events that have already scarred the twenty-first century, Hoskins and Tulloch show how both established and emergent media are central in shaping past, present and future horizons of neoliberalism, while also propelling wide pressure for its alternatives on those ranging from economics students worldwide to potential political leaders cultivated by austerity policies.

- 266 Rohingyas: inside Myanmar's hidden genocide/ Ibrahim, Azeem -- New Delhi: 50676
 Speaking Tiger Publishing, 2017

The Rohingyas are a muslim group who live in Rakhine province in western Myanmar, a majority buddhist country. They have suffered routine discrimination at the hand of Buddhist Rakhine groups, and human rights organisations have also assused Myanmar's authorities of being complicit in their persecution. They have been credible reports of armed attacks, torture and rape by government forces and entire village of Rohingya Muslims have been burned down. This searing documents the slow motion genocide of the Rohingya who are now the single largest stateless community in the world. it exposes not only the culpability in the world. it exposes not only the culpability of the buddhist clergy in formentin the religious Cleansing of Myanmar, but also the culpability of successive government, including the present regime presided over by the Nobel Peace Prize Laureate Aung San Suu Kyi

- 267 RSS: a view to the inside/ Andersen,Walter K. & Damle,Shridhar D. -- : Penguin Random House, 2018 50631

The RSS is the most influential cultural organization in India today, with affiliates in fields as varied as politics, education and trade.

This book fundamentally addresses three key questions:

- Why has the Rashtriya Swayamsevak Sangh (RSS) and its affiliates expanded so rapidly over the past twenty-five years?
- How have they evolved in response to India's new socio-economic milieu?
- How does their rapid growth impact the country's politics and policy?

Backed by deep research and case studies, this book explores the evolution of the Sangh into its present form, its relationship with the ruling party

- 268 Rules of security: staying safe in a risky world / Martin, Paul -- New Delhi: Oxford University Press, 2019 50558

This book demystifies and explains a subject that affects every one of us in our private lives and at work. Security is a practical discipline concerned with safeguarding lives, property, information, wealth, reputations, and social wellbeing. It is the basis of civilised society. People, businesses, and nations cannot thrive in its absence, whereas the right kind of security frees us to live fulfilling lives. But deciding what is needed, and then making it happen, is not easy. The threats to our security are complex and continually evolving, as criminals, hackers, terrorists, and hostile foreign states continually find new ways of staying one step ahead of us, their potential victims. At the same time, we are continually creating new vulnerabilities as we adopt new technologies and new ways of working. Those who do not understand the fundamentals of security, risk, and resilience open themselves, and those around them, to avoidable dangers, needless anxieties, and unnecessary costs. Inadequate security may leave them exposed to intolerable risks, while the wrong kind of security is expensive, intrusive, and ineffective.

- 269 Rules without rights: land, labour and private authority in the global economy/ Bartley,Tim -- : Oxford University Press, 2018 50632

This book provides striking new answers by comparing the private regulation of land and labor in democratic and authoritarian settings. Case studies of sustainable forestry and fair labour standards in Indonesia and China show not only how transnational standards are implemented 'on the ground' but also how they are constrained and reconfigured by domestic governance. Combining rich multi-method analyses, a powerful comparative approach, and a new theory of private regulation, Rules without Rights reveals the contours and contradictions of transnational governance. Transformations in Governance is a major new academic book series from Oxford University Press. It is designed to accommodate the impressive growth of research in comparative politics, international relations, public policy, federalism, environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions, down to subnational governments, and side-ways to public-private networks. It brings together work that significantly advances our understanding of

the organization, causes, and consequences of multilevel and complex governance. The series is selective, containing annually a small number of books of exceptionally high quality by leading and emerging scholars.

- 270 Savarkar: echoes from a forgotten past, 1883-1924/ Sampath,Vikram -- : 50736
Penguin Random House, 2019

As the intellectual fountainhead of the ideology of Hindutva, which is in political ascendancy in India today, Vinayak Damodar Savarkar is undoubtedly one of the most contentious political thinkers and leaders of the twentieth century. The truth, as always, lies somewhere in between and has unfortunately never been brought to light. Savarkar and his ideology stood as one of the strongest and most virulent opponents of Gandhi, his pacifist philosophy and the Indian National Congress. An alleged atheist and a staunch rationalist who opposed orthodox Hindu beliefs, encouraged inter-caste marriage and dining, and dismissed cow worship as mere superstition, Savarkar was, arguably, the most vocal political voice for the Hindu community through the entire course of India's freedom struggle. From the heady days of revolution and generating international support for the cause of India's freedom as a law student in London, Savarkar found himself arrested, unfairly tried for sedition, transported and incarcerated at the Cellular Jail, in the Andamans, for over a decade, where he underwent unimaginable torture. From being an optimistic advocate of Hindu-Muslim unity in his treatise on the 1857 War of Independence, what was it that transformed him in the Cellular Jail to a proponent of 'Hindutva', which viewed Muslims with suspicion

- 271 Seven decades and beyond: the UN-India connect: strong UN: better world/ -- 50528
New Delhi: United Nations Information Centre for India and Bhutan, 2016

2015 marked 70 years since the foundation of the United Nation. It has been a Wide ranging Journey, but the purposes and principals of the UN stand as strong today - and perhaps stronger - than they did at the Signing og the UN charters in 1945. In 70 theme based chapters, the book traces the journeys of India and the UN as they have informed and enriched each other over the past seven decades. It explores three broad aspects of this association: India at the United Nation - the policies and positions of the Indian government at the main organs of the UN over the decades; United Nation of the people - the various partnerships and people that have bought the UN into direct contact with the Indian Public; and united nation agency profiles - the various specialised agencies and organisation that have been a part of India's development story, as India was the part of theirs.

- 272 Situating education, employment and economy of scheduled tribes of North East India/ Marchang, Reimeingam -- New Delhi: Regency Publications, 2019 50527

The book, Situating Education, Employment and Economy of Scheduled Tribes of North East India, explores an association of education, employment and economy emphasising on Scheduled Tribes (ST) population of North Eastern Region (NER) of India. The development of education has concurrently led to a change in employment and economic structure from farm to non-farm employment and income. This book deals with the education, employment and

economy of Scheduled Tribes; the settings of the region such as geographical, administrative, household type, agriculture and industrial development; the region's educational development such as literacy rates, school enrolment, dropout rate, educational expenditure and its infrastructure emphasising on STs; the aspects of employment such as labour force participation rates, workforce participation rate, and education and industry specific employment; the general patterns and trends of the economy and economic growth of NER with special reference to the ST dominated states; and the situation of education, employment and the economic condition of Manipur's ST that can be inferred to some extent for the region's ST.

- 273 Social media and public relations: fake friends and powerful publics/ Motion, Judy; Motion, Robert L. & Leitch, Shirley -- : Routledge, 2016 50737

Social media is having a profound, but not yet fully understood impact on public relations. In the 24/7 world of perpetually connected publics, will public relations function as a dark art that spins (or tweets) self-interested variations of the truth for credulous audiences? Or does the full glare of the internet and the increasing expectations of powerful publics motivate it to more honestly engage to serve the public interest? The purpose of this book is to examine the role of PR by exploring the myriad ways that social media is reshaping its conceptualization, strategies, and tactics. In particular, it explores the dichotomies of fake and authentic, powerless and powerful, meaningless and meaningful. It exposes transgressions committed by practitioners—the paucity of digital literacy, the lack of understanding of the norms of social media, naivety about corporate identity risks, and the overarching emphasis on spin over authentic engagement. But it also shows the power that closely networked social media users have to insert information and opinion into discussions and force "false PR friends" to be less so. This timely, challenging, and fascinating book will be of interest to all students, researchers, and practitioners in Public Relations, Media, and Communication Studies.

- 274 Sociology in a changing world/ Prem Lata -- New Delhi: Book Shores, 2018 50677

Sociology is a fundamental social science discipline that studies social structures and their changes as well as their social activities, value and attitudes. In today's world, both cultures and society are changing more quickly than ever before. Change is an ever present phenomenon. It is the law of nature. Society is not at all a static phenomenon, but it is a dynamic entity. It is an ongoing process. The social structure is subject to incessant changes. Individuals may strive for stability, yet the fact remain that the society is an every changing phenomenon; growing, decaying renewing and accommodating itself to changing conditions. The Human composition of society's changes overtime, technologies expand, ideologies and value take on new components institutional functions and structures undergo reshaping. Hence no society remains complete static. Incessant changeability is very inherent nature of human society. With the current rate of population increase, it is expected that the total requirement of future health, education housing and many other welfare needs are bound to increase. This will certainly bring the drastic change not only in the

microstructure, but also in macrostructures of Indian Society. This well written and clearly organised book will be useful for students, policymakers, researchers, and social workers.

- 275 Songs of the Gurus From Guru Nanak to Guru Gobind Singh/ Khushwant Singh -- 50856
Haryana: Penguin Random House India, 2008

The Sikh religion was founded by Guru Nanak who drew upon the teachings of Muslim, Sufis and Hindu Bhaktas. In its purest form Sikhism is about unity, simplicity, equality and surrender (to God), and the verses of the Sikh Gurus most of them included in the Granth Sahib articulate this beautifully. This elegantly illustrated edition contains a selection of verses from the Guru Granth Sahib and other sacred texts like Guru Tegh Bahadur s Vairagmayi Bani and the Dasam Granth of Guru Gobind Singh. Brilliantly translated by Khushwant Singh, these moving mystical hymns retain the immediacy and the lyricism of the originals. In addition, vibrant and imaginative illustrations by Arpana Caur, one of India s most celebrated artists, make this a collection to treasure.

- 276 Sovereignty, space and civil war in Sri Lanka: porous nation/ Pieris, Anoma -- 50559
London: Routledge, 2019

Analyses of the Sri Lankan civil war (1983–2009) overwhelmingly represent it as an ethnonationalist contest, prolonging postcolonial arguments on the creation and dissolution of the incipient nation-state since independence in 1948. .This ambitious multiscalar spatial study of civil war in Sri Lanka offers an intersectional, de-ethnicised analysis of political sovereignty drawn out by the struggle for territory. Based on vital retrospective findings from the five-year postwar period, when wartime hostilities were still festering, it convincingly links ethnonationalism to postnational border politics, marketisation, militarised securitisation and illiberal democracy. This book argues that internecine conflict exposes the implicit violence within nation-state formations; mass human displacements heighten collective and individual ontological insecurity and neoliberalism makes the nation porous in unforeseen ways. Based around three themes – normative spaces, human mobilities and exilic states – it is organised into ten comprehensive, chapter-based explorations of a range of spatial units, including homes, cities, routes, camps and experiences of ruin that were irrevocably politicised by protracted conflict. t will be of interest to an interdisciplinary audience, including those scholars interested in South Asian history, politics and civil war, South Asian studies, border studies, geography and architecture and urban studies.

- 277 Speaking the nation: the oratorical making of secular, neoliberal India/ Bajpai, Anandita -- : Oxford University Press, 2018 50738

Untangling the logical, lexical, and semantic patterns of the multiple official speeches of Indian prime ministers, Speaking the Nation gauges how the Indian state has been projected by different governments in different times, in the face of challenges from internal and external actors that put pressure on its leaders to safeguard their status as legitimate elites in power. It analyses how Indian nationhood is consistently reshaped and reaffirmed by invoking its secular ethos

and practice, as well as the experience of market liberalization. The book calls for serious engagement with political oratory in India. A close reading of speeches since 1991—from Narasimha Rao to Narendra Modi—it captures how, through these crosscutting topics, the prominent ‘authors of the nation’ and the ‘vanguards of the state’, speak India into being.

- 278 Special educational needs and disability: the basics 3rd ed./ Wearmouth, Janice 50596
-- Routledge, 2019

Special Educational Needs and Disability: The Basics provides an engaging and comprehensive overview of special educational, and additional support, needs in education contexts in the UK. The third edition of this bestselling publication covers the historical development of special provision and national policy-making, and summarises current and proposed legislation and statutory guidance across England, Scotland, Northern Ireland and Wales, examining the fundamental principles of the field from policy to practice

- 279 State, violence and legitimacy in India/ Khanikar, Santana -- : Oxford University 50739
Press, 2018

If the state in a democracy like India engages in violence towards its own citizens, then is this state still acceptable to the people? This work studies how the wielding and exercise of violence by a power shapes peoples' notions of belongingness, security, and freedom, and how these processes construct or affect the legitimacy of a given power. These questions are answered in this work through insights offered by ethnographic explorations of police violence in Delhi, and the anti-insurgency violence of Indian army in Lakhpathar, Assam. It is a study of the margins of the state - both territorial and conceptual. The sites of study are what are seen as spaces of disorder, of danger, to both the national-body and the citizen-self. The specific vision of the nation-state as marked by fixed geographical boundaries and supremacy over the territories defined by such boundaries, often makes the use of violence imperative, especially at the margins. This violence, however, does not appear to be leading to a disillusionment with the form or the institutions of the state.

- 280 Stories of storeys: art, architecture and the city/ Bhatia, Gautam -- New Delhi: 50586
Sage Publications, 2018

Behind the seemingly ordinary life of a practising architect lies a whole host of non-professional impulses that give shape to buildings. Stories of Storeys: Art, Architecture and the City is about these impulses and conditions—social, literate, personal and political—which are expressed, but often ignored in architecture. Bhatia looks at the ordinary, physical, visible and tactile involvement of our urban environment and the way it affects, communicates with, or influences us. An all-inclusive sociology of architecture, the book draws on the social life of some of architecture’s role players, people whose peculiar demands on design have come to characterize the building environment of our times, and times that are characterized by this progressive isolation of architecture from the society of common people.

- 281 Strengthening policy research: role of think tank initiative in South Asia Thorat, Sukhadeo; Dixit, Ajaya & Verma, Samar -- : Sage Publications, 2019 50740

Strengthening Policy Research: Role of Think Tank Initiative in South Asia is a vivid presentation of the diverse journeys of think tanks under the aegis of the Think Tank Initiative (TTI) programme managed by the International Development Research Centre in South Asia. The book extensively discusses the three areas of TTI support to strengthen think tanks, viz., organizational performance, and research quality and policy engagement. It emphatically demonstrates the crucial role of long-term core support in strengthening think tanks for more rigorous research quality as the basis for public policymaking. It presents a rich tapestry of complex pathways that each think tank adopts to engage in policy outreach in their respective domains. The book makes a strong, evidence-based case on how even limited yet assured funding to think tanks leads to enhanced organizational capacities for good quality research, effective policy outreach and improved sustainability. It firmly puts forth the view that governments need to work jointly with private funding organizations to strengthen think tanks, which is in the best interest of evidence-informed and effective public policy-making.

- 282 Striving for better jobs: the challenge of informality in the Middle East and North Africa/ Gatti, Roberta and others -- : World Bank, 2014 50633

It assesses job informality from a human development angle, proposing five strategic directives to promote long term inclusive growth and formality: foster competition; realign incentives, pay and benefit packages in the public sector, move toward labour regulations that promote labour mobility and provide support to workers in the periods of transition; enhance the productivity of informal workers through training and skill building; and reform existing social insurance systems and introduce new instruments to attain broader coverage.

- 283 Struggle for labour's soul: understanding labour's political thought since 1945 2nd Ed./ Matt Beech; Kevin Hickson & Raymond Plant (Eds.) -- : Routledge, 2019 50741

The election of the most left-wing Labour Party Leader since 1945, followed by the Party's third consecutive general election defeat and the ongoing cultural divisions around Brexit present an ideal opportunity for a thorough re-evaluation of the state of the Party within its broader ideological and historical context. This second edition of this highly respected book analyses the current developments and places them in their historical setting through a clear three-part framework of Ideological Positions, Struggles and Commentaries. Thoroughly updated and featuring contributions by leading academics and politicians, it continues to represent one of the most ground-breaking and thorough analyses of Labour's political thought in a generation and will be of key interest to scholars, students and observers of British Politics, British History, Party Politics, and the Labour Party.

- 284 Surviving on the edge: psychosocial perspectives on violence and prejudice in India/ Shobna Sonpar & Neeru Kanwar (Eds.) -- Sage Publications, 2019 50650

Written by psychologists and others using a psychosocial lens, *Surviving on the Edge* looks at family, gender, disability and ethnicity in order to better understand prejudice and social violence. The book includes a range of essays—theoretical, narrative accounts and case studies—which question established assumptions as to how violence relates to categories of gender, family, disability and trauma. It also considers the impact of social violence and possible interventions to address trauma at both the individual and collective levels. The impact of prejudice and violence is on one hand painful and tragic. But on the other, there is abundant evidence of resistance and resilience. Several illuminating examples of work on the ground demonstrate the range of interventions possible. This book is a valuable addition to the fledgling corpus of work that uses a psychosocial perspective to examine social problems, the impact of these on mental health and the interventions possible.

- 285 Sustainable good governance, development and democracy/ Bhaskara Rao, N. -- New Delhi: Sage Publications, 2019 50560

Despite seven decades of planned development efforts, there remains disparity in distribution of wealth in India. More than half of the national wealth is owned by merely 1 per cent of the population. In 2050, the Indian Republic completes 100 years. A hundred years should be good enough for a country to accomplish its democratic goals as envisaged by its constitution makers. Will India be able to fulfil its objectives in the next 30 years? *Sustainable Good Governance, Development and Democracy* addresses this question and argues that this is the time for a forthright perspective of what went wrong and how this should be corrected to make headway in the model of governance, development and democracy in India. The book argues that the three pillars of the State—the legislature, judiciary and executive—alone cannot accomplish these goals. It advocates six pillars, including the news media, civil society and political parties, to work in tandem with each other through a 'checks and balances' framework to achieve sustainable good governance.

- 286 Swachh bharat revolution: four pillars of India's behavioural transformation -- Noida: HarperCollins Publishers India, 2019 50678

On 15 August 2014, in his maiden Independence Day address to the country, Narendra Modi became the first Prime Minister of India to address the challenge of open defecation from a national platform. It was a practice historically ingrained in Indian society and had seemed impossible to curb. But the Prime Minister did the unthinkable: he declared a firm resolve to eradicate it in just five years. *The Swachh Bharat Revolution* looks at how India led the largest 'jan andolan' (people's movement) in the world to make the impossible possible – with the Mission's success resting on four key pillars: Political Leadership, Public Financing, Partnerships and People's Participation. With a Foreword by Prime Minister Narendra Modi and essays by Arun Jaitley, Henrietta H. Fore, Amitabh Kant, Ratan Tata, Sadhguru, Amitabh Bachchan, Akshay Kumar, Tavleen Singh,

Arvind Panagariya, Bibek Debroy and many others, this book, edited by Parameswaran Iyer, provides wide-ranging perspectives on the programme and celebrates a historic national achievement.

- 287 Swami Vivekananda: an iconoclastic ascetic/ Jawed, Ajeet -- New Delhi: Ane Books Pvt. Ltd., 2019 50561

Swami Vivekananda one of the greatest sons of modern India, not only gave a revolutionary turn to our struggle for freedom but also suggested the principles for the reconstruction of future independent India. A careful study of his ideas and activities reveal that he was far ahead of his times and was an iconoclast in every arena. He was an ascetic but guided by reason, a Hindu saint but stood for a new religion with Islamic body and Vedantic brain, a patriot to whom Mother India was the goddess, a masiha of the masses who sought to place people of the lower-rung at the helm of national affairs, a preacher of love who asked his followers to fight against all injustices and intolerance. Unfortunately, independent India did not give any importance to his ideas. On the contrary, he was dubbed a revivalist, a reactionary, a counter-revolutionary, a Hindu chauvinist and an opponent of Islam and Christianity. The conservative Hindus were against his religious ideas, the aristocracy and the upper-castes were against the social order envisaged by him and the bourgeois class which had got the political power in its own hand was deadly against his socialist economy. As a result, Swami Vivekananda mostly remained not much known to the common masses. The study seeks to present before the readers an unbiased account of Vivekananda's ideas, ideals and activities

- 288 Systemic risk and macroprudential regulations: global financial crisis and thereafter/ Mishra, Rabi N. -- Sage Publications, 2019 50634

The Global Financial Crisis is undoubtedly the most severe financial crisis the world witnessed since the Great Depression of 1929. The crisis has been analysed by a number of experts offering distinct narratives and counter-narratives. Systemic Risk and Macroprudential Regulations examines causes and consequences of the global financial crisis and proposes a regulatory reforms policy—macroprudential regulations. The book emphasizes 'systemic risk' as the new-found villain of the financial space and narrates how such risk can be addressed through macroprudential tools. It, thus, offers a possible solution to avoid financial crises in future and facilitates building a safer financial system globally. The book also examines major crisis management frameworks, stress testing, relevant regulatory and supervisory development, and early warning mechanism with detailed cross-country analysis.

- 289 Tagore and the Sikh Gurus: a search for an indigenous modernity/ Chatterjee, Chhanda -- New Delhi: Manohar Publishers, 2014 50857

The volume tries to portray how Rabindranath Tagore looked back to the teachings of the Sikh Gurus and the Bhagats of the Shri Guru Granth Sahib like Ramanand, Kabir and Ravidas for resolving the crisis of Indian unity in the nineteenth and twentieth centuries. The so-called nineteenth century Indian

Renaissance had failed to reach the Muslim minority and the most numerous section of the population—the untouchables. Attempts to consolidate a national consciousness in the face of colonial rule often ended up in a misguided Hindu revivalism which looked upon the Muslim as the other. Tagore had recoiled from such narrow nationalism during the days of the Swadeshi. In his more mature years he could identify this kind of nationalism as giving rise to an aggressive imperialism. Instead of seeking a solution in some Western philosophy like Bolshevism or socialism, Tagore turned to the rich heritage of an indigenous modernity evolved in the ideas of the Sikh Gurus and the Bhagats from various corners of India who had worked out a common idiom of India in their simple, vernacular shlokas and dohas.

- 290 Tantric state: a buddhist approach to democracy and development in Bhutan/ Long, William J. -- New Delhi: Oxford University Press, 2019 50562

Bhutan's unique Buddhist-based democracy and economy provides an authentic basis for theoretical and empirical comparison with democracies and economies founded on liberal, Enlightenment principles. Bhutanese Buddhist and Western liberal conceptualizations of the individual "self," "human nature," and "the pursuit of happiness"—the building blocks of democratic and market-based economic theory—differ profoundly. Hence, Buddhist and liberal conceptions of what constitutes good government and appropriate economic development diverge in important ways, even though both Buddhist and liberal approaches are "democratic" and "market-based." Because the two approaches—liberal and Buddhist—are based on distinctive philosophical traditions, this comparison elucidates new questions, frames of inquiry, and alternative understandings of democracy and development. The book describes how democratic political institutions and markets emerged and function in Bhutan, demonstrating how, in real-world terms, Bhutan organizes and operates a political and economic system consistent with its Buddhist worldview. It considers the nature of Bhutan's unique political institutions and its economic touchstone, the pursuit of "Gross National Happiness (GNH)" (rather than Gross National Product), as its ordering principle for policy. The book concludes by reflecting on whether Bhutan's unique model can withstand the forces of globalization and what insights Bhutan might have to share with the rest of us about dilemmas facing Western democracies and the need to pursue development in a more holistic and sustainable way.

- 291 Teaching climate change to adolescents: reading, writing and making a difference/ Beach, Richard, Share, Jeff and Webb, Allen -- Routledge, 2017 50597

Teaching Climate Change to Adolescents is THE essential resource for middle and high school English language arts teachers to help their students understand and address the urgent issues and challenges facing life on Earth today. Classroom activities written and used by teachers show students posing questions, engaging in argumentative reading and writing and critical analysis, interpreting portrayals of climate change in literature and media, and adopting advocacy stances to promote change. The book illustrates climate change fitting into existing courses using already available materials and gives teachers tools and teaching ideas to support building this into their own classrooms. A variety of

teacher and student voices makes for an appealing, fast-paced, and inspiring read. Visit the website for this book for additional information and links. All royalties from the sale of this book are donated to Alliance for Climate Education.

- 292 Telecom sector regulation in India: an institutional perspective/ Tangirala, Maruthi P. -- : Routledge, 2019 50635

This book traces important legal and regulatory developments in the first two decades since the Telecom Regulatory Authority of India (TRAI) was established, along with its political and economic aspects. It narrates the story of the institutional progress of TRAI and its influence on the growth of India's telecom sector. The telecom revolution was a game changer in post-liberalization India, a country today home to the second largest subscriber base in the world—more people have access to mobile phones than toilets. Its rapid, relentless growth has created new possibilities and challenges, including a robust regulatory policy. This book, the first comprehensive survey of TRAI's progress, examines the salient developments in regulation of the Indian telecom sector. It analyses, at the macro-institutional level, the norms and rules reconstituted over time; at the institutional level, the impact of important court judgments, relevant telecom case law (including the 2G judgment and Adjusted Gross Revenue-related cases), and the 'judicialization' of regulatory governance; and, at the micro-institutional level, the mechanisms of governance of TRAI and the way its functioning has affected the alignment of incentives in the regulatory space. It provides an overview of the regulatory framework and the context in which the telecom sector was deregulated, the structure of internal governance, and issues in telecom licensing and spectrum allotment. The book combines academic rigour and empirical research with a practitioner's perspective of the unfolding events. It will interest students and researchers of economics, law, public policy, communications technology, and ICT policy and regulation, as well as telecom sector professionals, service providers, academic experts, policymakers, and think tanks.

- 293 Territorial sovereignty: a philosophical exploration/ Stilz,Anna -- : Oxford University Press, 2019 50742

Territorial Sovereignty: A Philosophical Exploration offers a qualified defense of a territorial states-system. It argues that three core values—occupancy, basic justice, and collective self-determination—are served by an international system made up of self-governing, spatially defined political units. The defense is qualified because the book does not actually justify all the sovereignty rights states currently claim, and that are recognized in international law. Oxford Political Theory presents the best new work in contemporary political theory. It is intended to be broad in scope, including original contributions to political philosophy, and also work in applied political theory. The series will contain works of outstanding quality with no restriction as to approach or subject matter.

- 294 Terrorism: a very short introduction/ Townshend, Charles -- Oxford: Oxford University Press, 2018 50563

For many, the terrorist attacks of September 2001 changed the face of the world, pushing terrorism to the top of political agendas, and leading to a series of world events including the war in Iraq and the invasion of Afghanistan. The recent terror attacks in various European cities have shown that terrorism remains a crucial issue today. Charting a clear path through the efforts to understand and explain modern terrorism, Charles Townshend examines the historical, ideological, and local roots of terrorist violence. Starting from the question of why terrorists find it so easy to seize public attention, this new edition analyses the emergence of terrorism as a political strategy, and discusses the objectives which have been pursued by users of this strategy from French revolutionaries to Islamic jihadists. Considering the kinds of groups and individuals who adopt terrorism, Townshend discusses the emergence of ISIS and the upsurge in individual suicide action, and explores the issues involved in finding a proportionate response to the threat they present, particularly by liberal democratic societies. Analysing the growing use of knives and other edged weapons in attacks, and the issue of 'cyberterror', Townshend details the use of counterterrorist measures, from control orders to drone strikes, including the Belgian and French responses to the Brussels, Paris, Nice, and Rouen attacks.

- 295 Terrorism: what everyone needs to know/ Sandler,Todd -- : Oxford University Press, 2018 50743

In *Terrorism: What Everyone Needs to Know* RG, leading economist Todd Sandler provides a broad overview of a persistently topical topic. The general issues he examines include what terrorism is, its causes, the roles of terrorist groups, how governments seek to counter terrorism, its economic consequences, and the future of terrorism. He focuses on the modern era and how specific motivations, ranging from nationalism/separatism to left- or right-wing extremism or religious ideals, and general conditions, such as poverty and inequality or whether a country is democratic or authoritarian, affect the frequency and costs of terrorism. The diversity of terrorist groups and type of attacks can be overwhelming, and Sandler provides a unifying framework to generate insight: strategic interaction. That is, like other organizations, terrorist groups organize to pursue goals and respond in an optimal fashion to a risky environment that can influence the group's size, its diversity of attacks, its regional location, its host country's characteristics, and the group's ideology. Terrorists also responded to enhanced security measures by altering their tactics, targets, and location. As such, they are formidable opponents to their stronger government adversaries. Governments, in turn, pursue various costly strategies to prevent terrorism, including passive barriers and active attacks against terrorists, their resources, and those who support them.

- 296 The First Sikh: the life and legacy of Guru Nanak/ Nikky-Guninder Kaur Singh -- Haryana: Penguin Random House, 2019 50858

In this highly accessible and comprehensive biography, Nikky-Guninder Kaur Singh deftly mines the available sources to construct a vivid and complex account of Guru Nanak's life and legacy, his personality and background, the pluralistic world he lived in, his teachings and philosophy, and even the manner in which he has been understood by believers and scholars over time. What emerges is a majestic and magisterial portrait of a great enlightener who not only

founded one of the world's major religions but whose singular message of unity and hope has endured centuries after he first walked the earth. The First Sikh unites rigorous scholarship with a deep love for the subject, offering fascinating insights into Guru Nanak's life and times even as it explores key facets of Sikhism. Moreover, it shows us how Guru Nanak continues to remain relevant in a twenty-first-century reality.

- 297 Third revolution: Xi Jinping and the new Chinese state/ Economy, Elizabeth C. -- 50564
New Delhi: Oxford University Press, 2018

In *The Third Revolution*, eminent China scholar Elizabeth C. Economy provides an incisive look at the transformative changes underway in China today. Chinese leader Xi Jinping has unleashed a powerful set of political and economic reforms: the centralization of power under Xi, himself, the expansion of the Communist Party's role in Chinese political, social, and economic life, and the construction of a virtual wall of regulations to control more closely the exchange of ideas and capital between China and the outside world. Beyond its borders, Beijing has recast itself as a great power, seeking to reclaim its past glory and to create a system of international norms that better serves its more ambitious geopolitical objectives. In so doing, the Chinese leadership is reversing the trends toward greater political and economic opening, as well as the low-profile foreign policy, that had been put in motion by Deng Xiaoping's "Second Revolution" thirty years earlier. Through a wide-ranging exploration of Xi Jinping's top political, economic and foreign policy priorities—fighting corruption, managing the Internet, reforming the state-owned enterprise sector, improving the country's innovation capacity, enhancing air quality, and elevating China's presence on the global stage—Economy identifies the tensions, shortcomings, and successes of Xi's reform efforts over the course of his first five years in office. She also assesses their implications for the rest of the world, and provides recommendations for how the United States and others should navigate their relationship with this vast nation in the coming years.

- 298 Three statesmen Gokhale, Gandhi, and Nehru/ Nanda, B.R. -- New Delhi: Oxford 50837
University Press, 2015

In an exploration of three charismatic leaders, B.R. Nanda one of India's foremost historians of the freedom movement makes a comparative study of their backgrounds, temperaments and the ideologies. He analyses in detail how they differed significantly in manner and style but shared a common vision of the unity and freedom of India. Followed by the introduction, in three separate works, Nanda examines the lives of these three leaders in relation to their eras. These, therefore, are both biographies and histories of critical times relating personalities to periods and leaders to the societies they lived in. The volume focuses on the inter-relationship between their ideas and methods and how these remain relevant today. The past, says Nanda, as seen through the lives of Gokhale, Gandhi and Nehru, informs the present and has many lessons for India and the world today.

- 299 Tolerance, secularization and democratic politics in South Asia/ Humeira Iqtidar & Tanika Sarkar (Eds.) -- : Cambridge University Press, 2018 50744

What is the relationship between secularization and tolerance? Critically analyzing the empirical and theoretical foundations of a putatively linear relationship between the two, this volume argues for moving past both romanticised readings of pre-modern tolerance and the unthinking belief that secularization will inevitably lead to tolerance. The essays collected in this volume include contributions from across South Asia that suggest that democratic politics have added a layer of complexity to questions of peaceful co-existence. Modern transformations in religious thought and practice have had contradictory implications for tolerance, which offer rich insights into contemporary debates in the region. This multi-disciplinary volume, which spans history, sociology, anthropology and political theory, questions the uncritical acceptance of tolerance as the best framework for engaging with difference, and probes the complications created by and through democratic politics.

- 300 Tolerating strangers in intolerant times: psychoanalytic, political and philosophical perspectives/ Kennedy, Roger -- Routledge, 2019 50651

In this interdisciplinary and wide-ranging study, Roger Kennedy looks at the roots of tolerance and intolerance as well as the role of the stranger and strangeness in provoking basic fears about our identity. He argues that a fear of a loss of attachment to one's home might account for many prejudiced and intolerant attitudes to refugees and migrants; that basic fears about being displaced by so-called 'strangers' from our precious and precarious sense of a psychic home can tear communities apart, as well as lead to discrimination against those who appear to be different. Present day intolerance includes fears about the 'hordes' of immigrants confused with realistic fears about terrorist attacks, populist fears about loss of cultural integrity and with it a sense of powerlessness, and fearful debates about such basics as truth, including the so-called 'post truth' issue. Such fears, as explored in the book, mirror old arguments going back centuries to the early enlightenment thinkers and even before, when the parameters of discussion about tolerance were mainly around religious tolerance. There is urgency about addressing these kinds of issue once more at a time when the 'ground rules' of what makes for a civilized society seem to be under threat. Kennedy argues that society needs a 'tolerance process', in which critical thinking and respectful judgment can take place in an atmosphere of debate and reasonably open communication, when issues around what can and cannot be tolerated about different beliefs, practices and attitudes in people in our own and other cultures, are examined and debated. *Tolerating Strangers in Intolerant Times*, with the help of psychoanalytic, literary, social and political thinking, looks at what such a tolerance process could look like in a world increasingly prone to intolerance and prejudice. It will appeal to psychoanalysts as well as scholars of politics and philosophy.

- 301 Towards a knowledge society: new identities in emerging India/ SinghaRoy, Debal K. -- Delhi: Cambridge University Press, 2014 50525

This book depicts the emergence of knowledge society across rural and urban spaces and among cross sections of social collectivities in India. It analyses the new economic momentum and socio-cultural milieu as set in motion with the emergence of this society. The ensuing impact on the pre-existing facets of social identity and marginality, and the processes of construction of new social identities therein are studied. This book delineates both the hope and despair, as produced with the arrival of the knowledge society, and identifies the scope and conditions of alternative choice and liberation for the people within the emerging socio-economic order of this society. Rich in empirical data, this monograph will interest students, researchers, teachers, policy planners and social activists.

- 302 Transitional justice in Nepal: interests, victims and agency/ Selim, Yvette -- 50565
London: Routledge, 2018

The conflict in Nepal (1996 – 2006) resulted in an estimated 15,000 deaths, 1,300 disappearances, along with other serious human rights and humanitarian law violations. Demands for peace, democracy, accountability and development, have abounded in the post-conflict context. Although the conflict catalysed major changes in the social and political landscape in Nepal, the transitional justice (TJ) process has remained deeply contentious and fragmented. This book provides an in-depth analysis of transitional justice process in Nepal. Drawing on interviews with a diverse range of stakeholders, including victims, ex-combatants, community members, human rights advocates, journalists and representatives from diplomatic missions, international organisations and the donor community, it reveals the differing viewpoints, knowledge, attitudes and preferences about TJ and other post-conflict issues in Nepal. The author develops an actor typology and an action spectrum, which can be used in Nepal and other post-conflict contexts. The actor typology identifies four main groups of TJ actors—experts, brokers, implementers and victims—and highlights who is making claims and on behalf of whom. The action spectrum, based on contentious politics literature and resistance literature, demonstrates the strategies actors use to shape the TJ process. This book argues that the potential of TJ lies in these dynamics of contention. It is by letting these dynamics play out that different conceptualisations of TJ can arise. While doing so may lead to practical challenges and produce situations that are normatively undesirable for some actors, particularly when certain political parties and national actors seem to ‘hijack’ TJ, remaining steadfast to the dominant TJ paradigm is also undesirable. As the first book to provide a single case study on TJ in Nepal, it makes theoretical and empirical contributions to: TJ research in Nepal and the Asia-Pacific more broadly, the politics versus justice binary and the concept of victimhood, among others. It will be of interest to a wide range of scholars in the study of transitional justice, peace and conflict studies, human rights, sociology, political science, criminology, law, anthropology and South Asian Studies, as well as policy-makers and NGOs.

- 303 Tribals of India/ Equbal, Afroze -- New Delhi: Book Shores, 2018

- 304 Trusting enemies: interpersonal relationships in international conflict/ Wheeler, Nicholas J. -- Oxford: Oxford University Press, 2018 50680

How can two enemies, locked into a spiral of fear and insecurity, transform their relationship into a trusting one? *Trusting Enemies* argues that the field of International Relations has not done a good job of answering this question. This is because it has been looking in the wrong place. Where trust-building has been theorized by the discipline of International Relations, the focus has been on the state and the individual. This book argues that there is a need to appreciate the importance of a new level of analysis in trust research—the interpersonal. In its development of a theory of interpersonal trust between state leaders in adversarial relationships, this book argues that the obstacles to leaders sincerely signalling their peaceful intent can be overcome and that trust-based relationships provide the greatest assurance of accurate signal interpretation. This book examines three cases: the interaction between US and Soviet leaders Ronald Reagan and Mikhail Gorbachev and its role in ending the cold war; the interaction between Indian Prime Minister Atal Bihari Vajpayee and Pakistani Prime Minister Nawaz Sharif and its role in the Lahore peace process of 1998–9; and the interactions across 2009–10 between Barack Obama and Ayatollah Ali Khamenei that did not lead to a breakthrough in the US–Iranian nuclear relationship.

- 305 Understanding Gandhi: Gandhians in Conversation with Fred J Blum/ -- New Delhi: Sage Publications, 2011 50838

Understanding Gandhi is a collection of interviews of six of Mahatma Gandhi's closest associates—J.B. Kriplani, Raihana Tyabji, Dada Dharmadhikari, Sushila Nayar, Jhaver Patel and Sucheta Kripalani. The interviewees reflect on Gandhi's ideas in the light of changes that took place in India after Independence. These interviews have been conducted by Fred J. Blum (1914–1990), an academician and consultant to the US Senate Committee on Labor and Public Welfare, whose lifelong commitment was to understand Gandhi's approach to social, economic and spiritual issues. The book provides glimpses of Gandhi's ideas and working relationship with his colleagues who came from a wide range of backgrounds, professions and geographical regions. It also brings out the thoughts of Gandhi and his followers on several important issues such as Satyagraha, non-violence, Brahmacharya, spirituality, and fasting. This blend of an intimate knowledge of Gandhi and the reflective hindsight gives the book a unique vantage point that

promotes a holistic understanding of Gandhian thought and philosophy.

- 306 Understanding Gandhi: speeches and writings that reveal his mind, methods and mission/ Mishra, Anil Dutta -- New Delhi: Concept Publishing, 2012 50839

An attempt has been made by the author in this volume to put Gandhi's writings and speeches at on place for proper understanding of his life thoughts and actions. To make the book reader friendly it has been divided into two parts. Part one comprises two Historical writings-(a) The green pamphlit in which Gandhi described in detail the condition of Indian people in South Africa and (b) Hind Swaraj or Indian Home Rule in which Gandhi set goal for himself and for India. Second part comprises of different times. These speeches depict almost all aspects and are of contemporary relevance. Well researched book provides a new insight for understanding Gandhi. The volume is addressed to a wide range of readers in the field of social science, humanities and Gandhian Studies. It is a must book for the students of Gandhian Thought and those who are interested on Gandhi.

- 307 Urban marginalisation in South Asia: waste pickers in Calcutta/ Sen, Nandini -- London: Routledge, 2018 50681

The community of waste pickers in Calcutta stands on its own against the hostile outside which comprises the state, elites and mainstream society. The residents of this unique world continuously try to escape the 'ideal' world of uniform homogeneity of legally legitimate profession, shelter, sanitation, education, healthcare, savings, credit and cultural activities of the mainstream. This book examines the lives and society of a marginalised urban community of waste pickers living within the city of Calcutta, and yet on the periphery of mainstream society. Through interpretive ethnography of the studied community focusing on ideological marginalisation, as distinct from economic marginalisation, the book studies the community and their world. It uniquely presents a volume of work in the field of ideological or socio-cultural marginalisation: showing how and why socio-cultural marginalisation is expressed through the daily experiences of material and emotional dilapidation, and physical and socio-cultural seclusion as experienced by the waste picking community in Calcutta. It provides an extensive and intimate discourse on the decay of the soul and mind, breakdown of the interpersonal and neighbourhood ties through the mediation of the biased state, mainstream and elite policies attached with the defamed peripheral regions of the city. It argues that ideological marginalisation represents alternative resistance to exploitation through silent defiance, non-participation and non-cooperation by the marginalised people with mainstream society, state and non-governmental organisations (NGOs). It concludes that there is a large scope for studying the negotiation skills of waste pickers/marginalised people in terms of their business with their retailers which help them attain some economic returns, although they still lack social capital, networking skills and human capital.

- 308 Urban renewal in India: theory, initiatives and spatial planning strategeries / Kulshrestha, S. K. -- : Sage Publications, 2018 50587

In this book, the major principles, strategies, tools and techniques for successful planning and implementation of urban renewal projects are explained with examples. Its highlight is the extensive coverage of all the major initiatives undertaken at the central, state and city levels for urban redevelopment. Jawaharlal Nehru Urban Renewal Mission (JNNURM), Atal Mission for Renewal and Urban Transformation (AMRUT) and Heritage City Development and Augmentation Yojana (HRIDAY) are some of the major central initiatives covered in the book. At the state- and city-levels, it includes initiatives in Delhi, Mumbai, Kolkata, Indore, Ahmedabad, Mysore, Pune and Hyderabad. The book contains numerous recommendations for reforming and improving urban renewal efforts.

- 309 Urbanization in India: issues and challenges / Sharma, Arun Kumar & Misra, Bhaskar Dutt -- : Ane Books, 2018 50588

This book is written from an interdisciplinary perspective combining material mainly from demography and sociology and reflects author's survey of literature from measurements and prediction to post-modern theory, along with planning issues in the country. Both the authors have studied the problem of population and urbanizations from diverse perspectives. Various theories of urbanization have also been discussed in the book. As far as possible, latest figures of world and national trends of urbanization have been included. Students may also use the detailed references given at the end of each chapter for going deeper into the subject and learn more about their research interests. In each chapter some important material is given in Boxes. Wherever needed, some lines are printed in bold to highlight a few major points. Students of urban studies can use it for learning about concepts and measurements of urbanization, causes of urbanization, world trends, trend of urbanization in India, urban problems and perspectives and key issues involved in urban planning

- 310 West's East: contemporary baltic defense in strategic perspective/ Milevski,Lukas -- : Oxford University Press, 2018 50745

In The West's East, Lukas Milevski places the Baltic states in strategic and historical perspective. Through these nations' experiences, he sheds light on how independent states have been able to persist, despite being surrounded by predatory great powers. The work offers a deep overview of the region's history, from the indigenous Baltic tribes which populated it to the post-Cold War era, followed by recent political analogies of West-Russia relations. Analyses of today's strategic balance in the region indicate the various actors' geopolitical outlooks, strategic cultures, military capabilities, and non-military security vulnerabilities. As Milevski argues, the NATO-Russia relationship will play the major role in any potential conflict in the Baltic, but neutrals Finland and Sweden must also be factored into the strategic analysis. Using the logic of strategy he anticipates potential military interaction in the region step by step-from deterrence, to Russia's choice of offensive strategy, to area denial and NATO's return and break into the Baltic theater, and finally war termination-to determine the answer to the ultimate question: how much defense for the Baltic is enough?

- 311 What ails the IAS and why it fails to deliver: an insider's view/ Saxena, Naresh Chandra -- New Delhi: Sage Publications, 2019 50566

The book is full of anecdotes ranging from how the author resisted political corruption that led to the Prime Minister's annoyance to a situation when the author himself 'bribed' the Chief Minister to scrap oppressive laws against tribal women. As Joint Secretary, Minorities Commission, the author exposed the communal bias of the district administration in handling riots in Meerut; he was punished for bringing to light the killing of innocent Muslim women and children by the police. When Bihar became a 'failed state' during the Lalu Prasad Yadav era of 1990–2005, the author did not hesitate in rebuking the Chief Secretary who was his senior in service, and accused IAS officials in Bihar of behaving like English-speaking politicians. Despite their high integrity, hard work and competence, IAS officials do not exercise sufficient control over the field staff who collude with the junior staff in reporting false figures on hunger deaths, malnutrition and usage of toilets, leading to erosion of accountability. Not only do many welfare programmes such as NREGA, ICDS and PDS have design flaws, governance in India at the state and district levels is also quite weak, manifesting itself in poor service delivery, uncaring administration, corruption, and uncoordinated and wasteful public expenditure. Analysing the present Indian situation, the book suggests policy changes in all cross-cutting systemic issues such as the role of politicians, tenure, size and nature of Indian bureaucracy, accountability, monitoring of programmes and civil service reforms, which will transform individual competencies of IAS officers into better collective outcomes.

- 312 What happened to governance in Kashmir?/ Wani, Aijaz Ashraf -- : Oxford University Press, 2019 50746

What Happened to Governance in Kashmir? Examines the policies, strategies, and tactics followed by the Indian state and the 'client' governments in Srinagar to manage the conflicted state of Jammu and Kashmir during 1948–89. It shows how the policies deployed to 'create order in disorder' functioned inversely and turned Kashmir into a smoldering volcano which erupted in 1989–90. The author argues that as the issue of dispute and policy framework has been constant, the clash between the status quoist state and the society was inevitable. The crisis deepened along with technological, economic, cultural, and social changes. Based on a variety of contemporary sources, this book deals with many aspects of Kashmir's governance through different political phases. It shows how the personal proclivities and decisions of each prime minister/chief minister played a role in determining the pattern of rule and the course of history with consequences felt many miles downstream.

- 313 What is inclusive research/ Nind,Melanie -- : Bloomsbury, 2014 50747

This book describes and defines inclusive research, outlining how to recognize it, understand it, do it, and know when it is done well. In doing so it will address the areas of overlap and distinctiveness in relation to participatory, emancipatory, user-led and partnership research as well as exploring the various practices encompassed within each of these inclusive approaches. The book will focus on how and why more inclusive approaches to research have evolved. It will position inclusive research within the key debates and shifts in policy, define key ideas and terms, discuss the contested nature of inclusive research and illustrate a

range of approaches using exemplars. The aim is to discuss the range of challenges involved and to examine the degree to which these challenges have so far been met.

- 314 Who rules the earth: how social rules shape our planet and our lives/ Steinberg, Paul F. -- : Oxford University Press, 2015 50589

In *Who Rules the Earth?*, Paul F. Steinberg, one of America's leading scholars on the politics of environmentalism, explains that there is room for hope, and draws from the latest social science research to explain why. Green consumer choices and changes in personal lifestyles are important, but they are not nearly enough. Lasting social change requires modifying the very rules that guide human behavior and shape the ways we interact with the Earth. We know these rules by familiar names like city ordinances, product design standards, purchasing agreements, public policies, cultural norms, or national constitutions. Though these rules are largely invisible to us, their impact across the world has been dramatic. By changing the rules, the Canadian province of Ontario cut the levels of pesticides in its waterways in half. The city of Copenhagen has adopted new planning codes that will reduce its carbon footprint to zero by 2025. In the United States, a handful of industry mavericks designed new rules to promote greener buildings, and transformed the world's largest industry into a more sustainable enterprise.

- 315 Wider professional practice in education and training/ Pleasance, Sasha -- Sage Publications, 2016 50598

Developing an understanding of professional practice is essential for anyone training to teach in the further education and skills sector. This go-to guide will give you a clear understanding of the major topics covered in the mandatory Wider Professional Practice and Development unit of the Level 5 Diploma in Education and Training, and more broadly explores the value of professionalism to all aspects of further education.

- 316 World crisis and the Gandhian way/ Mishra, Anil Dutta | Narayanasamy, S. -- New Delhi: Concept Publishing, 2009 50840

This book examines the magnitude of multifaceted problems facing the world today and suggests Gandhian solutions for them. Locating Gandhi in the present era of liberalization, privatization and globalization, it reinterprets Gandhian concepts of sarvodaya, satyagrah, swaraj, ecology, rural development, social work, value education, constructive work, and world peace. It also explores the possibility and relevance of their application to solve the present crises of international terrorism, youth unrest, unemployment, political instability, environmental degradation, educational backwardness and sustainable development, to name a few.

- 317 अटलांटिक गाँधी: समुद्र पार महात्मा/ नटराजन, नलिनी नई दिल्ली : सेज भाषा, 2018 50749

प्रवासी सिद्धांत उत्तर औपनिवेशिक संवाद तथा प्रतिरोधों के अध्ययन में हाल ही में शामिल हुए नए अटलांटिक पहलू जैसे ढांचों का प्रयोग करते हुए यह पुस्तक भारत जैसे पुरातन उपनिवेश से दक्षिण अफ्रीका के बागान एवं खनन समाज तक की, गाँधी की यात्रा के अनुभवों का वर्णन करती है। यह पुस्तक व्याख्या करती है कि प्रवासीय निर्वासन के दौरान उपजी गाँधी की राष्ट्रवादी भावनाएं (अर्थात् उपनिवेशवाद-विरोधी भावनाएं) जहाँ उन्होंने बहु-नस्लीय भू-भाग में एक प्रांतीय प्रजा के रूप में अपना परिप्रेक्ष्य विकसित किया। लेखक का दृष्टिकोण पिछले कुछ दशकों में सामने आए नए विश्लेषणों से प्रेरित है, जिनके अनुसार अटलांटिक ने महासागर के रूप में न केवल लालची बस्ती तंत्र (प्लांटेशन सिस्टम) के पीड़ितों को निकाला बल्कि क्रांतिकारी विचारों के उफान का भी गवाह बना।

- 318 अधूरी जीत: भारत का अप्रत्याशित लोकतंत्र / वाष्ण्य, आशुतोष -- नई दिल्ली: ऑक्सफोर्ड यूनिवर्सिटी प्रेस, 2018 50683

आशुतोष वाष्ण्य की यह किताब भारतीय लोकतंत्र को समझने और समझाने की कोशिश है। तथ्यों और सबूतों के जरिए भारत के लोकतांत्रिक होने की उस प्रक्रिया को देखना है जो 1947 के बाद शुरू हुई थी। भारत के उन्मादी होते जाने और लोकतांत्रिक होते जाने के अंतर्विरोधों का विश्लेषण है। गैर-सवर्ण जातियों के राजनैतिक उभार और आर्थिक मजबूती के संबंधों की व्याख्या के साथ यह उत्तर भारत और दक्षिण भारत के उद्यमों में जातियों की भागीदारी का भी तुलनात्मक अध्ययन पेश करती है। यह किताब भारतीय लोकतंत्र के उस पक्ष को सामने लाती है जिसकी अधूरी जीत हुई है, जिसका आधा जीता जाना अभी बचा हुआ है।

- 319 आधा शेर: पी.वी. नरसिम्हा राव ने भारत को कैसे बदला / सीतापति, विनय -- नई दिल्ली: ऑक्सफोर्ड यूनिवर्सिटी प्रेस, 2018 50682

पी.वी. नरसिम्हा राव 1991 में भारत के प्रधानमंत्री बने। उन्हें एक लक्ष्यहीन राष्ट्र विरासत में मिला जो आर्थिक संकट और हिंसक विद्रोहों से जूझ रहा था। अपने लोगों का प्रेम न मिलने, अपनी पार्टी द्वारा संशय की दृष्टि से देखे जाने, संसद में अल्पमत होने और 10 जनपथ की परछाई में शासन करने के बावजूद राव ने देश के भीतर और बाहर एक नए भारत को गढ़ा। दुनिया के बहुत कम नेताओं ने इतनी कम शक्ति में इतना कुछ हासिल किया। यह किताब नरसिम्हा राव के निजी और राजनैतिक जीवन के अनकहे पहलूओं को बयां करती है। उन पहलूओं को जिन्होंने नब्बे के दशक के बाद इस देश को बदल दिया। सौ से भी अधिक साक्षात्कारों और अनगिनत निजी दस्तावेजों की मदद से तैयार यह किताब 'भारतीय अर्थव्यवस्था' परमाणु कार्यक्रम, विदेश नीति और बाबरी मस्जिद पर नई रोशनी डालती है। तेलंगाना के एक गाँव से लेकर सत्ता तक पहुँचने और सेवानिवृत्ति में हुई अवमानना तक की राव

की समूची यात्रा में यह पुस्तक उनके भीतर के व्यक्ति, उनके मुश्किलों से भरे बचपन, उनके भ्रष्टाचार, उनके प्रेम प्रसंगों और उनके अकेलेपन की कहानी कहती है।

320 खादी : गाँधी की क्रांति का महाप्रतीक / गॉसाल्विस, पीटर -- नई दिल्ली : सेज भाषा, 2019 50808

यह पुस्तक अपनी व्यक्तिगत अखंडता और सामाजिक-राजनीतिक परिवर्तन के अन्वेषण के क्रम में कपड़ों के एक संकेत विज्ञान हेतु गांधी की खोज के ऐतिहासिक साक्ष्यों को जोड़ती है। बहुआयामी परिप्रेक्ष्य की दृष्टि से यह पुस्तक, उनके परिधान संबंधी संप्रेषण में अंतर्निहित क्रांति का सूक्ष्म परीक्षण भी करती है। लेखक ने अत्यधिक धुवीकृत वातावरण में गांधी के समक्ष उपस्थित जटिल चुनौतियों जैसे कि, ब्रिटिश साम्राज्य और भारतीय राष्ट्रीय कांग्रेस के बीच संघर्ष, हिंदू-मुस्लिम तनाव, शहरी-ग्रामीण विभाजन और अस्पृश्यता संबंधी प्रश्नों पर भी चर्चा की है। लेखक परिवर्तन लाने के लिए खादी की प्रतीकात्मक क्षमता का परीक्षण करता है, जिसमें मात्र 'क्रांति' या 'राजद्रोह' ही नहीं बल्कि पूर्ण आजादी या पूर्ण स्वराज प्राप्त करने की एक टिकाऊ एवं सुनियोजित रणनीति भी उपस्थित है।

321 गाँधी और अली बंधुः एक मित्रता की जीवनी/ चटर्जी, राखहरि -- नई दिल्लीः सेज भाषा, 2019 50772

गाँधी और अली बंधु मुख्यतः असहयोग तथा खिलाफत आंदोलनों के परिप्रेक्ष्य में, 1919-1931 की समयावधि को केंद्र में रखते हुए, गाँधी तथा अली बंधुओं के पारस्परिक संबंधों का अध्ययन है। खिलाफत आंदोलन में गाँधी की सहभागिता एक विशुद्ध मुस्लिम प्रश्न को राष्ट्रीय प्रश्न में बदलने हेतु उनके द्वारा किया गया प्रथम प्रत्यक्ष हस्तक्षेप था। मुस्लिमों को अपने सामुदायिक कवच से बाहर निकाल कर भारतीय राजनीति की मुख्य धारा में जोड़ने का यह उनका अपना तरीका था। हालांकि अली बंधुओं से उनके संबंध खराब होते ही इस प्रकार का उनका यह हस्तक्षेप अंतिम बन गया। परिणामस्वरूप मुस्लिम सहभागिता का मुद्दा विभाजन तक अस्थिर ही रहा। यह पुस्तक गाँधी और अली बंधुओं के सांझे मंच पर आने, उनके संयुक्त संघर्ष एवं उनके अलगाव का वृत्तांत कहती है। प्रस्तुत पुस्तक हिन्दू मुस्लिम संयोजन के बदलावों की पृष्ठभूमि में इन राजनीतिक हस्तियों के व्यक्तिगत संबंधों के महत्वपूर्ण पड़ावों का स्पष्ट, सूक्ष्म ऐतिहासिक दस्तावेज है।

322 जाति के विरुद्ध गाँधी का संघर्ष/कोलगे, निशिकांत – नई दिल्लीः ऑक्सफोर्ड यूनिवर्सिटी प्रेस, 2019 50807

गाँधी एक लोकप्रिय जननेता और जननायक रहे। दुनिया में अपनी सदी के नायकों में एक। भारतीय समाज में जाति और वर्ण व्यवस्था पर गाँधी के रुख को लेकर उनकी आलोचनाएं होती रहीं। निशिकांत कोलगे अपनी इस किताब 'जाति के विरुद्ध गाँधी का संघर्ष' में गाँधी के उस पक्ष की विवेचना करते हैं जिसको लेकर गाँधी की आलोचना की जाती रही है। लेखक ने जातिगत भेदभावों से जुड़े गाँधी के विचारों और बयानों का विश्लेषण किया है। तीन दशकों (1915-1948)

में गाँधी जातिगत सवाल पर कई रूपों में पेश आए। यह पुस्तक एक 'कूटनीतिज्ञ गाँधी' की छवि को सामने लाती है। 1909 में, जब गाँधी दक्षिण अफ्रीका में ही थे, उन्होंने सार्वजनिक तौर पर जाति व्यवस्था की निंदा की। जबकि अपने भारत वापसी के कुछ ही समय बाद उन्होंने जाति व्यवस्था के लाभदायक पहलुओं पर बात रखी। जाति व्यवस्था पर गाँधी का लेखन विरोधाभासी विचारों को प्रकट करता रहा है। क्या गाँधी ने भारतीय समाज की चातुर्वर्ण व्यवस्था का समर्थन किया या वे जाति प्रथा के खिलाफ थे? इन सवालों के जवाब और सामाजिक बदलाव की प्रक्रिया को लेकर गाँधी के विचारों को यह किताब हमारे समक्ष रखती है। जाति के विरुद्ध गाँधी का संघर्ष-यह लड़ाई अभी खत्म नहीं हुई है

323 भारत का संविधान/खोसला, माधव -- नई दिल्ली: ऑक्सफोर्ड यूनिवर्सिटी प्रेस, 2018 50685

राष्ट्र राज्य के काल में नागरिकता से जुड़े आयामों पर एक ठोस समझ की ज़रूरत हर नागरिक के लिए आवश्यक है। ऑक्सफोर्ड इंडिया की ये नवीन प्रस्तुति इस विषय पर हिन्दी भाषा में एक अदद पुस्तक की कमी को दूर करती है। लेखक माधव खोसला की विवेचनात्मक दृष्टि संविधान के मूल स्तंभों की बनावट को समझाने में अहम भूमिका निभाती है। कानूनी शब्दावली तथा नियमों के ताने-बाने से बुना संविधान आम जन की समझ के लिए दुर्लभ साबित होता है। ये पुस्तक इस उलझन से निजात दिलाती है। कई उदाहरणों के द्वारा ये संविधान के प्रति हमारी सैद्धांतिक तथा व्यवहारिक समझ को पुख्ता बनाती है। इस के पठन से हम एक नागरिक के तौर पर अपने अधिकारों तथा कर्तव्यों के प्रति समझ बनाने में सफल होते हैं। इस पुस्तक से साक्षात्कार हमें भारतीय राष्ट्र के वृहद् खाके तथा आयामों की सरस यात्रा पर ले जाता है।

324 भारत की विदेश नीति/गांगुली, सुमित -- नई दिल्ली: ऑक्सफोर्ड यूनिवर्सिटी प्रेस, 2018 50540

यह पुस्तक 1947 से 2010 तक भारत की विदेश नीति के उद्भव का एक व्यापक विवरण प्रस्तुत करता है। मुख्यतः यह पुस्तक भारत के पड़ोसी राज्यों तथा वैश्विक व्यवस्था के अन्य प्रमुख राज्यों के साथ भारत के संबंध के रूप में व्यवस्थित है। इस पुस्तक के सभी अध्याय विश्लेषण के स्तर की पद्धति का प्रयोग करते हैं जो एक अंतर्राष्ट्रीय राजनीति में मौलिक घटनाओं को व्यवस्थित करने हेतु एक सुस्थित वैचारिक पद्धति है। इस पुस्तक के अध्याय विश्व के विभिन्न हिस्सों में इसके घटनाक्रमों का विशद एवं स्पष्ट वर्णन प्रस्तुत करते हैं। यह पुस्तक इस कारण महत्त्वपूर्ण है क्योंकि भारतीय विदेश नीति के उद्भव पर कोई अन्य व्यवहार्य संपादित पुस्तक उपलब्ध नहीं है। हर एक अध्याय विश्लेषण के स्तर की पद्धति का प्रयोग करते हुए समान वैचारिक ढांचे का अनुसरण करता है। यह ढांचा भारत की विदेश नीति के उद्भव को व्यवस्थागत, राष्ट्रगत तथा निर्णयन के दृष्टिकोणों से देखता है। परिचयात्मक अध्याय में संपादक ध्यानपूर्वक विश्लेषण के स्तर के बौद्धिक पूर्ववृत्तों को सीधे, सरल, स्पष्ट तथा तर्कमूलक गद्य के रूप में

प्रस्तुत करते हैं तथा इस पुस्तक के अध्यायों पर इसका प्रयोग करते हैं।

- 325 महात्मा गाँधी-विचार-वीथिका / अग्रवाल-सुरेन्द्र प्रसाद | उनियाल-ब्रजलाल -- नई दिल्ली: कांसेप्ट पब्लिशिंग, 2001 50821

ऐसे विलक्षण व्यक्ति के, जिसे विश्व के अनेक संगठनों ने पूरी सहस्रबुद्धि का संत सिरमौर माना है। विचारों की जलक है यह पुस्तक। पुस्तक में लेखक द्वारा गाँधी जी पर लेखों का संकलन, उनका जीवन दर्शन, उनके विविध आयाम तथा मील के पत्थर शीर्षकों में दी गई छोटी छोटी घटनाएँ हैं। बातों की भी उम्र होती है, कुछ बातें पैदा होते ही मर जाती हैं, कुछ थोड़े समय जीवित रह पाती हैं पर कुछ बातों में मानवता के शाश्वत स्वर बोलते हैं और ऐसे स्वरों का उत्स है महात्मा गाँधी - जैसे उनके ये वाक्य - किसी अधभूखी कोम का न कोई धर्म हो सकता है, न कला न संघटन मुझे ऐसी कला चाहिए जो लाखों करोड़ों लोगों से मुखातिब हो सके मेरा एक ही लक्ष्य है हर आँख में आँसू पॉच डालो।

- 326 सत्य अहिंसा के प्रयोग: दलाई लामा का तिब्बत से निष्कासन/ व्यास-भास्कर | व्यास-रजनी -- नई दिल्ली: कांसेप्ट पब्लिशिंग, 2008 50835

प्रस्तुत पुस्तक में तिब्बत के लोगों की मुलभूत स्वायत्तता के लिए दलाईलामा द्वारा अपनाए गए मध्यमार्गी अभिगम की विस्तार पूर्वक चर्चा की गई है। ऐतिहासिक परिपेक्ष में मूल्याधारित आचरण का विवरण पेश करने के साथ साथ, इसमें दलाई नामा पर ऊपर से लादे गए नियंत्रणों का खुलासा भी किया गया है। दृश्य - अदृश्य दोनों प्रकार के संभावित्यों का मूल्यांकन किया गया है तथा तिब्बत के भविष्य पर नजर डाली गई है। दलाईलामा द्वारा नोबल शांति पुरस्कार प्राप्ति और उनके राजकीय अभिगम के विषय में समीक्षात्मक विवेचन किया गया है। पुस्तक में महात्मा गाँधी तथा दलाईलामा द्वारा अपने-अपने स्वतंत्रता संग्राम में हुई हिमालयी भूल का तुलनात्मक अध्ययन भी किया गया है।

- 327 स्वतंत्रता के लिए परिधान: गाँधी के स्वदेशी आंदोलन का संप्रेषण विश्लेषण/ गौसाल्विस-पीटर -- नई दिल्ली: सेज भाषा, 2018 50836

यह पुस्तक³⁰ करोड़ लोगों के आंदोलन को आयोजित करने के लिए महात्मा गाँधी के पहनावे की शैली और उनके द्वारा स्वदेशी कपड़ों के उपयोग की संप्रेषण शक्ति का अन्वेषण करती है। यह अध्ययन गाँधी के संप्रेषण अथवा संवाद कौशल के संदर्भ में किया गया है। लेखक रोलॉ बार्थ, विक्टर टर्नर और इरविंग गॉफ़मैन के सिद्धांतों को गहन संप्रेषण विश्लेषण के लिए रूपरेखा के रूप में उपयोग करते हैं जो भारत की स्वतंत्रता के लिए गाँधी की इस अनोखी पहनावे संबंधी रणनीति

पर प्रकाश डालती हैं: 30 वर्ष लंबे स्वतंत्रता संग्राम के निर्विवाद 'निष्पादन प्रबंधक' बने रहते हुए स्वदेशी 'सामाजिक नाटकीयता' को सश्रम विकसित कर एक 'पहनावा प्रणाली' की रचना। पुस्तक सामाजिक राजनीतिक परिवर्तन के लिए प्रतीकीकरण के गाँधीवादी दृष्टिकोण की स्पष्ट अभिव्यक्ति के साथ समाप्त होती है। यह संप्रेषण अध्ययन (कम्यूनिकेशन स्टडीज़), राजनीति, इतिहास, संकेतविज्ञान और संस्कृति अध्ययन के छात्रों के लिए गहन दृष्टि प्रदान करने वाली पुस्तक साबित होगी।
